

Cooperating Agencies to develop study documentation and the Draft EIS.

- The Draft EIS is anticipated to be issued in March 2024.
- The combined Final EIS and Record of Decision is anticipated in February 2025.
- A Section 404 permit decision from the United States Army Corps of Engineers is expected in September 2027.

See the Supplemental NOI Document for additional schedule details.

(g) Request for Identification of Potential Alternatives, Information, and Analyses Relevant to the Proposed Action

To ensure that a full range of issues related to the study are addressed and all potential issues are identified, FHWA invites comments and suggestions from all interested parties. The project team requests comments and suggestions on purpose and need, potential alternatives and impacts, and the identification of any relevant information, studies, or analyses of any kind concerning impacts affecting the quality of the human environment. Any information presented herein, including the preliminary purpose and need, preliminary range of alternatives, and identification of impacts may be revised after consideration of the comments. The purpose of this request is to bring relevant comments, information, and analyses to the agency's attention, as early in the process as possible, to enable the agency to make maximum use of this information in decision making. Comments may be submitted according to the instructions in the **ADDRESSES** section of this Notice.

Alicia E. Nolan,

Pennsylvania Division Administrator, Federal Highway Administration.

[FR Doc. 2023–11794 Filed 6–1–23; 8:45 am]

BILLING CODE 4910–22–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2007–28812]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letters dated March 24, 2023, and April 27, 2023, BNSF Railway Company (BNSF) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 215 (Railroad Freight Car Safety Standards) and 232 (Brake System Safety Standards for Freight and Other Non-passenger Trains and Equipment; End of Train Devices). The relevant FRA Docket Number is FRA–2007–28812.

Specifically, BNSF requests a waiver extension from 49 CFR 232.205, *Class 1 brake test—initial terminal inspection*, and certain provisions of part 215 related to the inspection of trains entering the United States from Mexico at Eagle Pass, Texas. BNSF seeks to continue to move trains received in interchange from Ferrocarril Mexicano, S.A. (FXE), approximately 12 miles outside of the community of Eagle Pass, Texas, to the facilities at Ryan's Ruin, Texas, or Horan Siding, where the required inspections can be performed. BNSF states that the relief “has proven to create a more efficient and safer operating environment along the U.S. and Mexico border for over a decade.” In support of its request, BNSF explains that prior to the current relief, trains “would be blocking the international bridge and multiple crossings in Eagle Pass.”

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a

hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Communications are requested by August 1, 2023. Comments received after that date will be considered if practicable. FRA reserves the right to extend the existing relief subject to subsequent consideration of any comments submitted to the docket. Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), the U.S. Department of Transportation (DOT) solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacy-notice> for the privacy notice of [regulations.gov](http://www.regulations.gov).

Issued in Washington, DC.

John Karl Alexy,

Associate Administrator for Railroad Safety, Chief Safety Officer.
