SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

This ICR seeks to extend PRA authority for the Disaster Unemployment Assistance Activities Report information collection. Sections

410 and 423 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act provide for Disaster Unemployment Assistance (DUA) to eligible applicants who are unemployed as a direct result of a major disaster. State Workforce Agencies, through individual agreements with the Secretary of Labor, act as agents of the Federal Government in providing DUA. Form ETA 902 is a monthly report that a State submits on DUA program activities once the President declares a disaster. 20 CFR 625.19 and section 303(a)(6) of the Social Security Act (42 U.S.C. 503(a)(6)) authorize this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. SUPPLEMENTARY INFORMATION:

I. Background

Consistent with 40 U.S.C. 581(h)(2), Federal Management Regulation (FMR) part 102, Public Law 102–74, subpart D, and the GSA Delegation under which the Department of Labor (DOL) operates the Frances Perkins Building (FPB), DOL allows the use of public space within the FPB for non-commercial purposes. As provided by FMR 102–74, subpart D, (41 CFR 102–74–460) any person or entity that wishes to use public space in a Federal building is required to submit an application for a permit. To capture the nature of the request, information such as the requester, description of event, date, time, and approvals are collected in order to review the appropriateness of the request and make a determination of the availability of the requested public space.

DOL experience shows that the agency receives fewer than 10 non-DOL Agency requests to use FPB public space in any given year; however, as the information is contained in a rule of general applicability, the information collection is deemed to involve 10 or more persons. See 5 CFR 1320.3(c)(4)(ii). DOL, consequently, must maintain PRA authority to conduct this information collection.

II. Desired Focus of Comments

OASAM is soliciting comments concerning the proposed information collection related to the Application for Use of Public Space by Non-DOL Agencies in the Frances Perkins Building. OASAM is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of OASAM's estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
