

entry under the United States mining laws, subject to valid existing rights, to protect the USFS-managed research site for a period of 20 years. The withdrawal created by PLO No. 7587 will expire on October 26, 2023, unless extended.

The purpose of the requested extension is to protect, as originally authorized under PLO No. 7587, the 852-acre area for the use of the Langmuir Principal Research Site on the Magdalena Ranger District of the Cibola National Forest for an additional 20-year term.

The use of a rights-of-way, interagency agreement, or cooperative agreement would not provide adequate protection for this site.

There are no suitable alternative sites available which would facilitate this type of research.

No water rights will be needed to fulfill the purpose of the requested withdrawal.

All interested persons who wish to submit comments, suggestions, or objections in connection with the withdrawal extension application, or to request a public meeting, may submit a written request to the Regional Forester by September 12, 2023, at the address in **ADDRESSES**.

Before including your address, phone number, email address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask the BLM in your comment to withhold from your personal identifying information from the public review, we cannot guarantee that we will be able to do so.

This application will be processed in accordance with the regulations set forth in 43 CFR 2310.4.
