Abstract: The U.S. Department of Education (the Department) published a Notice of Proposed Rulemaking for the Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance (title IX NPRM) to propose amendments to the Department's implementing regulations for title IX of the Education Amendments of 1972. The Department's proposed regulations would require a recipient to maintain various documents regarding its title IX activities for a period of at least seven years. These requirements are specified in proposed 34 CFR 106.8(f). Recipients impacted by the proposed regulations include local educational agencies, institutes of higher education and other entities that receive Federal grant funds from the Department. The information collected would allow recipients and the Department to assess on a longitudinal basis whether a recipient is complying with the Department's title IX regulations when it has information about sex discrimination, the prevalence of sex discrimination affecting access to a recipient's education program or activity, and whether additional or different training is necessary for the

recipient to fulfill its obligations under title IX.
