The Service's AADAP Program will use the information that is collected on the study forms to ensure the studies are following the guidelines set by the FDA. The study data will be downloaded to a spreadsheet where it will be analyzed for compliance. Summary reports will be created from the data collected from the forms and will be submitted to the FDA, as required. Submission of the data forms is required by the FDA for the facility to participate in the INAD Program.

A cooperative agreement is also needed between the participating companies/agencies and the Service's AADAP Program. This agreement establishes obligations to be met and procedures to be followed by the Service and participant to establish and maintain cooperative INADs to enable the use of certain drugs and chemicals under the INAD process as set forth by the FDA. The goal of this agreement is to consolidate the INAD process; eliminate duplication of effort; reduce workloads and costs; and ensure needed drugs are made available to aquaculture and fisheries management facilities in the U.S. in compliance with FDA regulations.

Additional information for the INAD Program and how to participate can be found at the following link: <https://www.fws.gov/service/investigational-new-animal-drugs>. This web page describes frequently asked questions regarding how to participate in the INAD Program and what is expected of the participants. The site also includes the investigator and monitor guides

created to explain the INAD Program process to study participants. We are currently developing additional study templates for the INADs, for use as a guide for filling out the forms. These templates will provide study participants with helpful information to correctly complete each form. We also created a user manual for the online INAD database.

The public may request copies of any form or document contained in this information collection by sending a request to the Service Information Collection Clearance Officer in **ADDRESSES**, above.

SUPPLEMENTARY INFORMATION:

I. Background

The DOI is establishing a new system of records for the INTERIOR/BIA-35, Behavioral Health and Wellness Program. The Assistant Secretary—Indian Affairs consists of two bureaus, which are the BIA and Bureau of Indian Education (BIE). The BIA supports the functions of the BIE and is publishing this notice to describe the purpose of the BHWP that provides immediate behavioral health crisis support, clinical counseling services, crisis care coordination, and facilitates communication between clients and appropriate points of contact for referrals and continued service delivery or emergency care.

The BIE is responsible for providing quality educational opportunities from early childhood through adulthood in accordance with Federal trust responsibilities for approximately 43,000 students. The BIE funds 183 elementary, secondary, and residential schools across 64 Indian reservations and 23 states. Of these, 53 are BIE-operated and 130 are tribally-controlled. Additionally, BIE directly operates two post-secondary institutions and funds and/or operates off-reservation boarding schools and peripheral dormitories near reservations for students attending public schools. The BIE also serves many American Indian and Alaska Native post-secondary students through higher education scholarships and support funding for tribal colleges and universities.

The BIE identified the need for comprehensive behavioral health and wellness services at a multitude of Bureau-funded schools, dormitories, colleges, and universities. The BIE is committed to creating positive, safe, and culturally relevant learning environments where students can gain knowledge, skills, and behaviors necessary for physical, mental, and emotional wellbeing. The BIE established the BHWP to address the significant mental health needs of students and staff at all BIE-funded institutions including BIE-operated schools, tribally-controlled schools, post-secondary institutions, and tribal colleges and universities.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and

disseminate individuals' records. The Privacy Act applies to records about individuals that are maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K, and following the procedures outlined in the Records Access, Contesting Record, and Notification Procedures sections of this notice.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the existence and character of each system of records that the agency maintains, and the routine uses of each system. The INTERIOR/BIA-35, Behavioral Health and Wellness Program, system of records notice is published in its entirety below. In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Participation

You should be aware your entire comment including your personally identifiable information, such as your address, phone number, email address, or any other personal information in your comment, may be made publicly available at any time. While you may request to withhold your personally identifiable information from public review, we cannot guarantee we will be able to do so.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Paper records are contained in file folders stored within filing cabinets in secured rooms. Electronic records are stored on electronic media at a Federal Risk and Authorization Management Program (FedRAMP) approved cloud service provider.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Information from the BHWP is retrievable by client name, age, gender, school affiliation, address, call type, and client identified record number by authorized users of the system. Additionally, de-identified aggregate data, such as diagnosis codes, numbers of encounters, and types of encounters, and general demographics may be retrieved.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records retention schedules for the BHWP are being developed and will be submitted to NARA for scheduling and approval. These records will be treated as permanent until the records are scheduled and have been approved by NARA. Upon termination of the BHWP service contract with the Contracting Agency, the contractor will transfer all electronic health record information to the BIE for appropriate record keeping and storage in alignment with all Federal requirements.

BHWP system usage records are covered by the Departmental Records Schedule 1.4A, Short Term Information Technology Records, System Maintenance and Use Records (DAA–0048–2013–0001–0013), which was approved by NARA. These records include system operations reports, login and password files, audit trail records and backup files. The disposition is temporary. Records are cut-off when superseded or obsolete and destroyed no later than three years after cut-off. Records associated with a 42 CFR part 2 program that is discontinued or is taken over or acquired by another program will be processed in accordance with 42 CFR 2.16, Security for records, and 2.19, Disposition of records by discontinued programs.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Access to records in the system is limited to authorized personnel who have a need to access the records in the performance of their official duties, and each user's access is restricted to only the functions and data necessary to perform that person's job responsibilities. System administrators and authorized users are trained and required to follow established internal security protocols and must complete all security, privacy, and records management training and sign the DOI Rules of Behavior.

The records contained in this system are safeguarded in accordance with 43 CFR 2.226 and other applicable security and privacy rules and policies. Paper records are maintained in locked file cabinets and/or safes under the control of authorized personnel during normal hours of operation. Computer servers on which electronic records are stored are located at a FedRAMP-approved cloud service provider with physical, technical, and administrative levels of security to prevent unauthorized access to the system and information assets. The cloud service provider implements protections, controls and access restrictions as required to maintain the

necessary FedRAMP certification and to mitigate the privacy risks. Authorized DOI and contractor personnel must complete mandatory security, privacy, records management, and HIPAA training specific to their roles to ensure they are knowledgeable about how to protect personally identifiable information before they are granted access to the system of records.

Computerized records systems follow the National Institute of Standards and Technology privacy and security standards as developed to comply with the Privacy Act of 1974, as amended, 5 U.S.C. 552a; Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.*; the Federal Information Security Modernization Act of 2014, 44 U.S.C. 3551 *et seq.*; and the Federal Information Processing Standards 199: Standards for Security Categorization of Federal Information and Information Systems. Security controls include user identification, multi-factor authentication, database permissions, encryption, firewalls, audit logs, and network system security monitoring, and software controls which establish access levels according to the type of user. Access to records in the system is limited to authorized personnel who have a need to access the records in the performance of their official duties, and each user's access is restricted to only the functions and data necessary to perform that person's job responsibilities. Audit trails are maintained and reviewed periodically to identify unauthorized access or use. A Privacy Impact Assessment was conducted on the Behavioral Health and Wellness Program System to ensure that Privacy Act requirements are met, and appropriate privacy controls were implemented to safeguard the personally identifiable information contained in the system.
