[EPA-R01-OAR-2023-0353; FRL-11161-01-R1]

Air Plan Approval and Operating Permit Program Approval; Connecticut; Revision to Definitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a revised definition in the State Implementation Plan (SIP) and the Title V Operating Permit Program for the State of Connecticut. On June 9, 2023, the Connecticut Department of Energy and Environmental Protection (CT DEEP) submitted to EPA a request to parallel process recently proposed revisions to the state's definition of "severe non-attainment area for ozone" for inclusion in the EPA-approved SIP and Title V Operating Permit Program. The revision is necessary to fully implement these programs based on a nonattainment reclassification to a portion of Connecticut for the 2008 ozone National Ambient Air Quality Standard. EPA is approving these revisions pursuant to the CAA and implementing federal regulations.

DATES: Written comments must be received on or before August 16, 2023.
