SUPPLEMENTARY INFORMATION:**Comments Invited**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652-0003;
Aircraft Operator Security, 49 CFR Part 1544

The information collected is used to determine compliance with 49 CFR part 1544 and to ensure passenger safety by monitoring aircraft operator security procedures. TSA implements aircraft operator security standards at part 1544 to require each aircraft operator, to which this part applies, to adopt and carry out a security program. This TSA-approved security program establishes procedures that aircraft operators must carry out to protect persons and property traveling on flights provided by the aircraft operator against acts of criminal violence, aircraft piracy, and the introduction of explosives, incendiaries, or weapons aboard an aircraft. Aircraft operators must also comply with TSA-issued security program amendments and Security Directives (SDs).

TSA may amend a security program under 49 CFR 1544.105(c) if safety and the public interest require an amendment, and may issue an emergency amendment under 49 CFR 1544.105(d) if TSA determines there is

an emergency requiring immediate action with respect to safety in air transportation or air commerce that makes the procedures in 49 CFR 1544.105 contrary to the public interest. Furthermore, TSA may issue an Information Circular (IC) to notify aircraft operators of security concerns. Compliance with the IC is voluntary. However, when TSA determines that additional security measures are necessary to respond to a threat assessment or to a specific threat against civil aviation, TSA issues a Security Directive setting forth mandatory measures.

As part of their security programs, affected aircraft operators are required to maintain and update, as necessary, records of compliance with the security program provisions set forth in 49 CFR part 1544, including maintaining records of direct aircraft operator employees and their authorized representative's actions related to operations security. Additional required records include validation of current fingerprint-based criminal history records check (CHRC) and Security Threat Assessment status of those employees. Part 1544 also requires affected aircraft operators to submit security program amendments and SD compliance plans to TSA, when applicable, and to make their security programs and associated records available for inspection and copying by TSA to ensure transportation security and regulatory compliance.

In addition, 49 CFR part 1544 requires the affected aircraft operators to submit information on aircraft operators' flight crews and other employees, passengers, and cargo. This collection also includes documentation of aircraft interior and exterior security search prior to the departure for the first flight of the day. Additional document review includes security programs, amendments, CHRC applications; and recordkeeping requirements for security programs, CHRCs, training, and incident and suspicious activity reporting. Aircraft operators may provide the information electronically or in writing.

Aircraft operators must ensure that certain flight crew members and employees (including certain contract employees and authorized representatives) submit to and receive a CHRC. These requirements apply to flight crew members and employees with unescorted access authority to a Security Identification Display Area or who perform screening, checked baggage, or cargo functions. As part of the CHRC process, the individual must provide identifying information, including fingerprints. Additionally,

aircraft operators must maintain these records and make them available to TSA for inspection and copying upon request.

TSA is revising the burden of the information collection by providing more detail regarding the security program amendments information collection. TSA is now breaking out the burden elements of the security program amendments information collection to include security program amendments requested by aircraft operators, TSA-required security program amendments (including emergency amendments), temporary changed conditions, SDs, and voluntary ICs.

TSA estimates that there will be approximately 634 respondents to the information requirements described above, with a total annual burden estimate of approximately 542,650 hours.

**30-Day Notice of Proposed Information
Collection: Survey of Market
Absorption of New Multifamily Units;
OMB Control No.: 2528-0013**

AGENCY: Office of Policy Development and Research, Chief Data Officer, HUD.

ACTION: Notice.

SUMMARY: HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for an additional 30 days of public comment.

DATES: *Comments Due Date:* August 21, 2023.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. Interested persons are

also invited to submit comments regarding this proposal and comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Anna Guido, Clearance Officer, REE, Department of Housing and Urban Development, 451 7th Street SW, Room 8210, Washington, DC 20410–5000; email PaperworkReductionActOffice@hud.gov.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on May 17, 2023 at 88 FR 31515.

A. Overview of Information Collection

Title of Information Collection: Survey of Market Absorption of New Multifamily Units.

OMB Approval Number: 2528–0013.

Type of Request: Extension without change to a currently approved collection.

Form Number: N/A.

Description of the need for the information and proposed use: The Survey of Market Absorption (SOMA) provides the data necessary to measure the rate at which new rental apartments and new condominium apartments are absorbed; that is, taken off the market, usually by being rented or sold, over the course of the first 12 months following completion of a building. The data are collected at quarterly intervals until the 12 months conclude, or until the units in a building are completely absorbed. The survey also provides estimates of certain characteristics, including asking rent/price, number of units, and number of bedrooms. The survey provides a basis for analyzing the degree to which new apartment construction is meeting the present and future needs of the public.

Respondents: Rental Agents/Builders.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Cost
SOMA	12,000	4	48,000	.125 (30 minutes total divided by four interviews).	6,000	\$40.51	\$243,060

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

(5) Ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

HUD encourages interested parties to submit comments in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. chapter 35.
