The closed session of the meeting will involve committee discussions and guidance regarding USAID's strategies and policies that substantially impact the interests of third-parties. The Administrator, with the concurrence of the General Counsel, formally determined on June 13, 2023 pursuant to section 10 of the FACA, (5 U.S.C. 1009(d)), that the portion of the meeting dealing with the privacy interests of third-parties and pre-decisional changes to Agency source selection policies and evaluation criteria relating to awards under the Partnership for Peace Fund shall be exempt from the provisions relating to public meetings found in 5 U.S.C. 1009(a)(1) and 1009(a)(3).

Food and Nutrition Service

Title: Food Distribution Programs.

OMB Control Number: 0584-0293.

Summary of Collection: The Food Distribution Programs of the Department of Agriculture (USDA), Food and Nutrition Service (FNS) assist American farmers and needy people by purchasing USDA donated foods and delivering them to State agencies that, in turn, distribute them to organizations who provide food assistance to those in need. The USDA donated foods help to meet the nutritional needs of: (a) Children from preschool age through high school in FNS Child Nutrition Programs and in nonprofit summer camps; (b) needy persons in households on Indian reservations participating in the Food Distribution Program on Indian Reservations (FDPIR) or the Food Distribution Program for Indian Households in Oklahoma (FDPIHO); (c) needy persons served by charitable institutions; (d) elderly persons participating in the Commodity Supplemental Food Program (CSFP); (e) low-income, unemployed or homeless people provided foods through household distributions or meals through soup kitchens under the Emergency Food Assistance Program (TEFAP); (f) pre-school and school-age children, elderly, and functionally impaired adults enrolled in child and adult day care centers participating in the Child and Adult Care Food Program (CACFP); and (g) victims of Presidentially-declared disasters and other situations of distress. The following authorizing legislation allows the Secretary broad authority to establish regulatory provisions governing accountability in the use of USDA donated foods by Federal, State, and private agencies: (a) Section 4(b) of the Food and Nutrition Act of 2008, as amended (7 U.S.C. 2013(b)); (b) Sections 6, 14, and 17 of the National School Lunch Act, as amended (42 U.S.C. 1755, 1762(a), 1766); (c) Section 4 of the Child Nutrition Act of 1966, as amended (42 U.S.C. 1733); (d) The Emergency Food Assistance Act of 1983, as amended (7 U.S.C. 7501 et seq.); and (e) Sections 4(a) and 5 of the Agriculture and Consumer Protection Act of 1973, as amended (7 U.S.C. 612c note).

Need and Use of the Information: FNS collects information from state and local agencies, for-profit and non-profit businesses, and individuals and households. This collection is mandatory for the states, local agencies, and the businesses, but it is required to obtain or maintain benefits for the individuals and households. The information collected from the state and local agencies is used for a variety of program activities such as ordering USDA foods; arranging for their delivery to storage facilities; sharing information concerning inaccurate or incomplete orders; providing inventory data; applying to participate in the programs and preparing plans to initiate or continue program operations; recovering unused funds; responding to audits; conducting on-site reviews; reporting on financial status and administrative costs; and other program monitoring activities. The information collected from the individuals and households permits them to apply for benefits (including assistance during disasters or situations of distress) or to recertify their eligibility. FNS uses this information to manage the Food Distribution Programs and monitor the use of Federal funds.

National Agricultural Statistics Service

Title: Field Crops Production.

OMB Control Number: 0535-0002.

Summary of Collection: The primary functions of the National Agricultural Statistics Services' (NASS) are to prepare and issue State and national estimates of crop and livestock production, disposition, and prices and to collect information on related environmental and economic factors. The Field Crops Production Program consists of probability field crops surveys and supplemental panel surveys. These surveys are extremely valuable for commodities where acreage and yield are published at the county level. NASS will use surveys to collect information through a combination of the internet, mail, telephone, and personnel interviews. The general authority for these data collection activities is granted under U.S. Code title 7, section 2204.

Need and Use of the Information: NASS collects information on field crops to monitor agricultural developments across the country that may impact on the nation's food supply. The Secretary of Agriculture uses estimates of crop production to administer farm program legislation and

import and export programs. Collecting this information less frequently would eliminate the data needed to keep the Department abreast of changes at the State and national level.

Description of Respondents: Farms; Business or other for-profits.

Number of Respondents: 532,853.

Frequency of Responses: Reporting: Weekly, Monthly, Quarterly, Annually.

Total Burden Hours: 142,236.
