The areas described aggregate 38.50 acres.

The total areas described, including public and non-Federal lands, aggregate 163.62 acres. The Secretary approved the BLM's petition/application. Therefore, the petition/application constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1–3(e)).

The use of a right-of-way, interagency agreement, or cooperative agreement would not adequately constrain mineral location and surface entry, which could adversely affect ongoing management activities and existing and planned capital improvements resulting in land use conflicts and irretrievable loss of natural resources. Suitable alternative

sites are not available because the recreational sites have unique values.

No water is necessary to fulfill the purpose of the proposed withdrawal. Records relating to this proposed withdrawal may be examined by contacting the BLM at the above address and phone number.

Comments, including names and street addresses of respondents, will be available for public review at the address indicated above during regular business hours. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personally identifying information—may be made publicly available at any time. While you may ask the BLM in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the State Director, BLM Oregon/Washington State Office, at the address in the **ADDRESSES** section, within 90 days from the date of publication of this notice. If the authorized officer determines that a public meeting will be held, a notice of the date, time, and place will be published in the **Federal Register** and local newspapers and posted on the BLM website at www.blm.gov at least 30 days before the scheduled date of the meeting.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the land will be segregated from location or entry under the United States mining laws unless the application is denied or cancelled or if the withdrawal is approved prior to that date. The temporary uses that may be permitted during this segregation period are leases, licenses, permits, rights-of-way, and disposal of mineral or vegetative resources other than under the mining laws.

This withdrawal application will be processed in accordance with the regulations set forth at 43 CFR part 2300.

(Authority: 43 U.S.C. 1714.)

Barry R. Bushue,

BLM Oregon/Washington State Director.
