

DEPARTMENT OF ENERGY
10 CFR Chs. II, III, and X
48 CFR Ch. 9
Unified Agenda of Federal Regulatory and Deregulatory Actions
AGENCY: Department of Energy.
ACTION: Semiannual Regulatory Agenda.
SUMMARY: The Department of Energy (DOE) has prepared and is making available its portion of the semi-annual Unified Agenda of Federal Regulatory and Deregulatory Actions (Agenda)

pursuant to Executive Order 12866, “Regulatory Planning and Review,” and the Regulatory Flexibility Act.
SUPPLEMENTARY INFORMATION: The Agenda is a government-wide compilation of upcoming and ongoing regulatory activity, including a brief description of each rulemaking and a timetable for action. The Agenda also includes a list of regulatory actions completed since publication of the last Agenda. The Department of Energy’s portion of the Agenda includes regulatory actions called for by the Energy Policy and Conservation Act, as

amended, and programmatic needs of DOE offices.
The internet is the basic means for disseminating the Agenda and providing users the ability to obtain information from the Agenda database. DOE’s Spring 2023 Agenda can be accessed online by going to www.reginfo.gov.
DOE’s regulatory flexibility agenda is made up of rulemakings setting energy efficiency standards and requirements applicable to DOE sites.
Samuel Walsh,
General Counsel.

ENERGY EFFICIENCY AND RENEWABLE ENERGY—FINAL RULE STAGE

Sequence No.	Title	Regulation Identifier No.
60	Energy Conservation Standards for Residential Conventional Cooking Products	1904–AD15
61	Energy Conservation Standards for Residential Non-Weatherized Gas Furnaces and Mobile Home Gas Furnaces.	1904–AD20
62	Energy Conservation Standards for Commercial Water Heating-Equipment	1904–AD34
63	Energy Conservation Standards for Consumer Clothes Washers	1904–AD98
64	Test Procedure for Consumer Water Heaters and Residential-Duty Commercial Water Heaters	1904–AE77

ENERGY EFFICIENCY AND RENEWABLE ENERGY—LONG-TERM ACTIONS

Sequence No.	Title	Regulation Identifier No.
65	Energy Conservation Standards for Miscellaneous Residential Refrigeration	1904–AF00

ENERGY EFFICIENCY AND RENEWABLE ENERGY—COMPLETED ACTIONS

Sequence No.	Title	Regulation Identifier No.
66	Energy Conservation Program: Energy Conservation Standards for Manufactured Housing	1904–AF53

DEPARTMENTAL AND OTHERS—FINAL RULE STAGE

Sequence No.	Title	Regulation Identifier No.
67	Statutory Updates to the Advanced Technology Vehicles Manufacturing Incentive Program	1901–AB60

DEPARTMENT OF ENERGY (DOE)
Energy Efficiency and Renewable Energy (EE)
Final Rule Stage
60. Energy Conservation Standards for Residential Conventional Cooking Products [1904–AD15]
Legal Authority: 42 U.S.C. 6295(m)(1); 42 U.S.C. 6292 (a)(10); 42 U.S.C. 6295(h)
Abstract: The Energy Policy and Conservation Act (EPCA), as amended by Energy Independence and Security Act of 2007 (EISA), prescribes energy conservation standards for various consumer products, including consumer conventional cooking products. EPCA

also requires the U.S. Department of Energy (DOE) to periodically determine whether more stringent standards would be technologically feasible and economically justified and would result in a significant conservation of energy. In this rulemaking, DOE proposes new and amended energy conservation standards for consumer conventional cooking products and tentatively concludes that the proposed standards represent the maximum improvement in energy efficiency that is technologically feasible and economically justified, and would result in the significant conservation of energy.

RIN: 1904-AD15

61. Energy Conservation Standards for Residential Non-Weatherized Gas Furnaces and Mobile Home Gas Furnaces [1904-AD20]

Legal Authority: 42 U.S.C. 6295(f)(4)(C); 42 U.S.C. 6295(m)(1); 42 U.S.C. 6295(gg)(3)

Abstract: The Energy Policy and Conservation Act, as amended, (EPCA) prescribes energy conservation standards for various consumer products and certain commercial and industrial equipment, including the residential furnaces which are the subject of this rulemaking. (42 U.S.C. 6292(a)(5)) EPCA also requires the U.S. Department of Energy (DOE) to determine whether more-stringent

amended standards would be technologically feasible and economically justified and would save a significant amount of energy (42 U.S.C. 6295(o)(2)(A) and (3)(B)). EPCA specifically provides that DOE must conduct two rounds of energy conservation standards rulemakings for the residential furnaces at issue (42 U.S.C. 6295(f)(4)(B) and (C)), and the statute also requires that not later than six years after issuance of any final rule establishing or amending a standard, DOE must publish either a notice of determination that standards for the product does not need to be amended, or a notice of proposed rulemaking (NOPR) including new proposed energy conservation standards (42 U.S.C. 6295(m)(1)). This rulemaking is being undertaken pursuant to the statutorily-required second round of rulemaking for non-weatherized gas furnaces (NWGFs) and mobile home gas furnaces (MHGFs), and once completed, it will also satisfy the statutorily-required six-year-lookback review. In the July 7, 2022 NOPR, DOE proposes amended and new energy conservation standards for NWGFs and MHGFs pursuant to a court-ordered remand of DOE's 2011 rulemaking for these products and other statutory requirements. 87 FR 40590. Specifically, the NOPR proposes amended active mode annual fuel utilization efficiency (AFUE) standards at 95 percent for both NWGFs and MHGFs. It also proposes amended standby mode and off mode standards (in watts) at 8.5 watts for both NWGFs and MHGFs. If finalized, the proposed standards would apply to all NWGFs and MHGFs manufactured in, or imported into, the United States starting on the date five years after the publication of the final rule for this rulemaking.

62. Energy Conservation Standards for Commercial Water Heating-Equipment [1904-AD34]

Legal Authority: 42 U.S.C.

6313(a)(6)(C)(i) and (vi)

Abstract: The U.S. Department of Energy (DOE) is undertaking a rulemaking to amend energy conservation standards for commercial water heaters. Once completed, this rulemaking will fulfill DOE's statutory obligation under the Energy Policy and Conservation Act, as amended, (EPCA) to either propose amended energy conservation standards for commercial water heaters and hot water supply boilers (CWHs), or determine that the existing standards do not need to be amended. (Unfired hot water storage tanks and commercial heat pump water heaters are being considered in a separate rulemaking.) DOE must determine whether national standards more stringent than those that are currently in place would result in a significant additional amount of energy savings and whether such amended national standards would be technologically feasible and economically justified. DOE proposed to amend the standards for certain classes of CWH equipment for which DOE has

tentatively determined there is clear and convincing evidence to support more-stringent standards. Additionally, DOE has proposed to codify standards for electric instantaneous CWH equipment from EPCA into the Code of Federal Regulations.

63. Energy Conservation Standards for Consumer Clothes Washers [1904-AD98]

Legal Authority: 42 U.S.C. 6295(g); 42 U.S.C. 6295(m)

Abstract: Consistent with the requirements under the Energy Policy and Conservation Act (EPCA), as amended, the U.S. Department of Energy (DOE) is examining whether to amend the current energy conservation standards for consumer clothes washers found at 10 CFR 430.32(g). To this end, DOE must determine whether standards more stringent than those currently in place would result in a significant amount of energy savings and whether such amended standards would be technologically feasible and economically justified. DOE has tentatively proposed standards that

represent the maximum improvement in energy efficiency that is technologically feasible and economically justified, and would result in the significant conservation of energy. Specifically, with regards to technological feasibility, products achieving these standard levels are already commercially available for all product classes covered by this proposal. As for economic justification, DOE's analysis shows that the benefits of the proposed standard exceed the burdens. Once completed, this rulemaking will fulfill DOE's statutory obligation to either propose amended standards for this product or determine that the standards do not need to be amended.

64. Test Procedure for Consumer Water Heaters and Residential-Duty Commercial Water Heaters [1904-AE77]

Legal Authority: 42 U.S.C. 6293(b)(1)(A); 42 U.S.C. 6314(a)(1)

Abstract: Consistent with the requirements under the Energy Policy and Conservation Act (EPCA), as amended, the U.S. Department of Energy (DOE) is examining whether to amend the current test procedure for consumer water heaters and certain commercial water heaters found at 10 CFR 430, subpart B, appendix E and 10 CFR 431.106. As a result of this effort, DOE may propose and amend the test procedures for this product/equipment, or issue a determination that no amendments to the current test procedures are required.

65. Energy Conservation Standards for Miscellaneous Residential Refrigeration [1904-AF00]

Legal Authority: 42 U.S.C. 6292(a)(20); 42 U.S.C. 6295(l); 42 U.S.C. 6295(m)

Abstract: The U.S. Department of Energy (DOE) has initiated an effort to consider amending the energy conservation standards for miscellaneous residential refrigeration (e.g., wine coolers and certain other combination consumer refrigeration products). Once completed, this rulemaking will fulfill DOE's statutory obligation to either propose amended energy conservation standards for these products or determine that the existing standards do not need to be amended. To this end, DOE must determine whether national standards more stringent than those currently in place would result in a significant amount of energy savings and whether such amended national standards would be technologically feasible and economically justified.

In the notice of proposed rulemaking, DOE proposed standards that represent the maximum improvement in energy efficiency that is technologically feasible and economically justified, and would result in the significant conservation of energy. Specifically, with regards to technological feasibility products achieving these standard levels are already commercially available for all product classes covered by this proposal. As for economic justification, DOE's analysis shows that the benefits of the proposed standard exceed, to a great extent, the burdens of the proposed standards.

Energy Efficiency and Renewable Energy (EE)

Completed Actions

66. • Energy Conservation Program: Energy Conservation Standards for Manufactured Housing [1904-AF53]

Legal Authority: 42 U.S.C. 17071
Abstract: The Department of Energy (DOE) is publishing a final rule to amend the compliance date for its manufactured housing energy conservation standards. Currently, manufacturers must comply with these standards on and after May 31, 2023. This final rule delays compliance until July 1, 2025, for Tier 2 homes, and until 60 days after issuance of enforcement procedures for Tier 1 homes. DOE is delaying the compliance date to allow DOE more time to establish enforcement procedures that provide clarity for manufacturers and other stakeholders regarding DOE's expectations of manufacturers and DOE's plans for enforcing the standards. The proposed rule was inadvertently published under the incorrect RIN 1904-AC11.

Final Rule Stage

67. • Statutory Updates to the Advanced Technology Vehicles Manufacturing Incentive Program [1901-AB60]

Legal Authority: 42 U.S.C. 17013(d); 42 U.S.C. 17013(e)

Abstract: The U.S. Department of Energy (DOE) Loan Programs Office (LPO) intends to issue a direct final rule to amend the regulations applicable to the Advanced Technology Vehicles Manufacturing (ATVM) Loan Program authorized by section 136 of the Energy Independence and Security Act of 2007, as amended (42 U.S.C. 17013) to allow parties to apply for direct loans in connection with certain categories projects made eligible for such loans by the Infrastructure Investment and Jobs Act of 2021 and the Inflation Reduction Act. Relatedly, LPO is also pursuing another rulemaking effort via 1901-AB55 to address additional changes for the ATVM Loan Program.
