Purpose: The purpose of the ACD, CDC Data and Surveillance Workgroup (DSW) is to provide input to the Committee on agency-wide activities related to the scope and implementation of CDC’s data modernization strategy across the agency, ultimately playing a key role in the agency’s work with public health, healthcare, and academic and private sector partners and with the promotion of equity. The DSW membership consists of approximately 15 members. It is co-chaired by two current ACD, CDC Special Government Employees. The DSW co-chairs will present their findings, observations, and work products at one or more ACD, CDC meetings for discussion, deliberation, and decisions (final recommendations to CDC).

Selection of members is based on candidates’ qualifications to contribute to the accomplishment of the DSW’s objectives.

Nominees must be U.S. citizens. Current participation on federal workgroups or prior experience serving on a federal advisory committee does not disqualify a candidate; however, HHS policy is to avoid excessive individual service on advisory committees and multiple committee memberships. Interested candidates should submit the following items:

- A one-half to one-page cover letter that includes your understanding of, and commitment to, the time and work necessary; one to two sentences on your background and experience; and one to two sentences on the skills/perspective you would bring to the DSW.

*** Requestor intends to submit an NTAP application for FY 2025 consideration.

Presentations for procedure code requests are conducted by both the requestor and the Centers for Medicare & Medicaid Services (CMS) during the C&M Committee meeting. Discussion from the requestor generally focuses on the clinical issues for the procedure or technology, followed by the proposed coding options from a CMS analyst. Topics presented may also include requests for new procedure codes that relate to a new technology add-on payment (NTAP) policy request.

CMS has modified the approach for presenting the new NTAP-related ICD-10-PCS procedure code requests that involve the administration of a therapeutic agent. For the September 12-13, 2023, ICD-10 C&M Committee meeting, consistent with the

requirements of section 1886(d)(5)(K)(iii) of the Social Security Act, applicants submitted requests to create a unique procedure code to describe the administration of a therapeutic agent, such as the option to create a new code in Section X within the ICD-10-PCS procedure code classification. CMS will initially display only those meeting materials associated with the NTAP-related ICD-10-PCS procedure code requests that involve the administration of a therapeutic agent on the CMS website in August 2023 at: <https://www.cms.gov/Medicare/Coding/ICD10/C-and-M-Meeting-Materials>.

The NTAP-related ICD-10-PCS procedure code request that involves the administration of a therapeutic agent is: Administration of Iodine (131I) Apamistamab **

This topic will not be presented during the September 12-13, 2023, meeting. CMS will solicit public comments regarding any clinical questions or coding options included for this procedure code topic in advance of the meeting continuing through the end of the respective public comment periods. Members of the public should send any questions or comments to the CMS mailbox at: ICDProcedureCodeRequest@cms.hhs.gov.

CMS intends to post a question-and-answer document in advance of the meeting to address any clinical or coding questions that members of the public may have submitted. Following the conclusion of the meeting, CMS will post an updated question-and-answer document to address any additional clinical or coding questions that members of the public may have submitted during the meeting that CMS was not able to address or that were submitted after the meeting.

The NTAP-related ICD-10-PCS procedure code requests that do not involve the administration of a therapeutic agent and all non-NTAP-related procedure code requests will continue to be presented during the virtual meeting on September 12, 2023, consistent with the standard meeting process.

CMS will make all meeting materials and related documents available at: <https://www.cms.gov/Medicare/Coding/ICD10/C-and-M-Meeting-Materials>. Any inquiries related to the procedure code topics scheduled for the September 12-13, 2023, ICD-10 C&M Committee meeting that are under consideration for
