Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “STD Surveillance Network (SSuN)” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on March 10, 2023 to obtain comments from the public and affected agencies. CDC received two comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy

of the information collection plan and instruments, call (404) 639–7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

The STD Surveillance Network (SSuN), (OMB Control No. 0920–1072, Exp. 10/31/2023)—Revision—National Center for HIV/, Viral Hepatitis, STD, TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention (NCHSTP) is requesting a Revision of the Information Collection Request (ICR) titled, The STD Surveillance Network (SSuN). Revisions to this submission include addition of mpox-related data elements for monitoring mpox risk, vaccination, diagnoses, and laboratory testing as part of ongoing surveillance for this emergent public health issue. Additionally, this Revision ICR incorporates future expansion of SSuN to additional STD clinical facilities, addition of several new data elements to sentinel surveillance activities in STD clinical facilities related to Pre-Exposure Prophylaxis for HIV (PrEP), and enhanced investigations of a random sample syphilis cases reported to participating health departments. Multiple data elements associated with enhanced gonorrhea case investigations and provider reporting forms are also being retired. The estimate of annualized burden hours for this revised data collection increases from 5,863 hours to 7,487 hours.

The purpose of this project is to enhance national capacity for STD surveillance and to better meet CDC's disease surveillance mandate by: (1) addressing gaps in epidemiologically-relevant information by providing more complete behavioral and demographic data on reported cases of notifiable STDs to enhance the ability of public health authorities to interpret trends in case incidence, assess inequalities in the burden of disease by population
