SUPPLEMENTARY INFORMATION: In general, Title 49 United States Code (U.S.C.) Section 20157(h) requires FRA to certify that a host railroad's PTC system complies with Title 49 Code of Federal Regulations (CFR) part 236, subpart I, before the technology may be operated in revenue service. Before making certain changes to an FRA-certified PTC system or the associated FRA-approved PTC Safety Plan (PTCSP), a host railroad must submit, and obtain FRA's approval of, an RFA to its PTC system or PTCSP under 49 CFR 236.1021.

Under 49 CFR 236.1021(e), FRA's regulations provide that FRA will publish a notice in the **Federal Register** and invite public comment in accordance with 49 CFR part 211, if an RFA includes a request for approval of a material modification of a signal and train control system. Accordingly, this notice informs the public that, on July 20, 2023, LIRR submitted an RFA to its ACSES II PTC system which seeks FRA's approval for a three-month outage from September 15, 2023, to December 15, 2023, to support the construction of an extension of the Patchogue Siding and associated signal system changes. That RFA is available in Docket No. FRA-2010-0031.

Interested parties are invited to comment on LIRR's RFA to its PTC system by submitting written comments or data. During FRA's review of LIRR's RFA, FRA will consider any comments or data submitted within the timeline specified in this notice and to the extent practicable, without delaying implementation of valuable or necessary modifications to a PTC system. See 49 CFR 236.1021; see also 49 CFR 236.1011(e). Under 49 CFR 236.1021, FRA maintains the authority to approve, approve with conditions, or deny a railroad's RFA to its PTC system at FRA's sole discretion.

Privacy Act Notice

In accordance with 49 CFR 211.3, FRA solicits comments from the public to better inform its decisions. DOT posts these comments, without edit, including any personal information the commenter provides, to <https://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See <https://www.regulations.gov/privacy-notice> for the privacy notice of regulations.gov. To facilitate comment tracking, we encourage commenters to provide their name, or the name of their organization; however, submission of names is completely optional. If you

wish to provide comments containing proprietary or confidential information, please contact FRA for alternate submission instructions.

Issued in Washington, DC.

Carolyn R. Hayward-Williams,
Director, Office of Railroad Systems and Technology.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2023-0031]

Petition for Waiver of Compliance; Reopening of Comment Period

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by communication received July 7, 2023, Amtrak requested that the Federal Railroad Administration (FRA) re-open the period for public comment on Amtrak's request for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 215 (Railroad Freight Car Safety Standards), 229 (Railroad Locomotive Safety Standards), 232 (Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment; End-of-Train Devices), and 238 (Passenger Equipment Safety Standards). The relevant Docket Number is FRA-2023-0031.

Specifically, Amtrak requests to re-open the comment period regarding its petition to use virtual reality simulation assessments to satisfy the "hands-on" portion of periodic refresher training to remain qualified per § 215.11(b), § 229.5, § 232.203(b)(8), and § 238.109. Amtrak requested that FRA re-open the comment period for an additional 45 days "to allow Amtrak more time to address some of the concerns the labor organizations outline in their comments." Previously, FRA had published a notice establishing a comment period open until July 5, 2023 (88 FR 29176, May 5, 2023).¹ By this notice, FRA grants Amtrak's request to re-open the comment period for 45 days.

A copy of the communication, the petition, as well as any written communications concerning the petition, are available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate

¹ See <https://www.regulations.gov/document/FRA-2023-0031-0002>.

scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Communications received by September 18, 2023 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), U.S. Department of Transportation (DOT) solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacy-notice> for the privacy notice of regulations.gov.
