

responses thereto, and the parties' briefs on remedy, the public interest, and bonding, has determined that Respondents have violated section 337 by importing, selling for importation, or selling within the United States after importation certain automated put walls and automated storage and retrieval systems, associated vehicles, associated control software, and component parts thereof that infringe one or more claims of claims 1 and 5 of the '194 patent and claims 1–5, 7–9, 11–13, 15–16, and 18–20 of the '505 patent.

The Commission has determined that the appropriate remedy is: (i) an LEO prohibiting the importation of certain automated put walls and automated storage and retrieval systems, associated vehicles, associated control software, and component parts thereof that infringe one or more claims of claims 1 and 5 of the '194 patent and claims 1–5, 7–9, 11–13, 15–16, and 18–20 of the '505 patent; and (ii) CDOs against each of Respondents. The Commission has also determined that the public interest factors do not preclude issuance of the remedial orders. The Commission has further determined to set a bond in the amount of 100 percent of the entered value of the excluded articles imported during the period of Presidential review (19 U.S.C. 1337(j)).

The Commission issues its opinion herewith setting forth its determinations on certain issues. This investigation is hereby terminated.

The Commission's orders and opinion were delivered to the President and United States Trade Representative on the day of their issuance.

The Commission vote for this determination took place on July 31, 2023.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: July 31, 2023.

Sharon Bellamy,

Acting Supervisory Hearings and Information Officer.

BILLING CODE 7020–02–P

DEPARTMENT OF LABOR

Employment and Training Administration

Agency Information Collection Activities; Comment Request; Senior Community Service Employment Program (SCSEP) Programmatic and Performance Requirement

ACTION: Notice.

SUMMARY: The Department of Labor's (DOL) Employment and Training Administration (ETA) is soliciting comments concerning a proposed revision to the information collection request (ICR) titled, "Senior Community Service Employment Program (SCSEP)." This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

DATES: Consideration will be given to all written comments received by October 3, 2023.

ADDRESSES: A copy of this ICR with applicable supporting documentation, including a description of the likely respondents, proposed frequency of response, and estimated total burden, may be obtained free by contacting Toni Wilson-King by telephone at 202–693–2922, TTY 1–800–877–8339, (this is not a toll-free number), TTY 1–877–889–5627 (this is not a toll-free number), or by email at SCSEPTransition@dol.gov.

Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor, Employment and Training Administration, Office of Workforce Investment, Division of National Programs, Tools and Technical Assistance, Senior Community Service Employment Program, 200 Constitution Avenue NW, Washington, DC; by email: SCSEPTransition@dol.gov; or by Fax 202–693–3015.

FOR FURTHER INFORMATION CONTACT: Toni Wilson-King by telephone at 202–693–2922 (this is not a toll-free number) or by email at SCSEPTransition@dol.gov.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the

desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The purposes of this Information Collection Request are to fulfill the Older Americans Act (Reauthorized by the Supporting Older Americans Act of 2020, Public Law 116–131 (March 25, 2020)), revise SCSEP's Customer Satisfaction Survey collection instruments, ETA 9124A—Participant Survey, ETA 9124B—Host Agency Survey, and ETA 9124C—Employer Survey, and revise the method of administration for the Employer Survey. These changes are required to make the surveys more efficient and less burdensome for respondents, as well as to make them more relevant to the current SCSEP environment and standard business practices (sections 513(b)(1)(E); 42 U.S.C. 3056k(b)(1)(E) and 20 CFR 641.700 and 710).

The SCSEP, authorized by title V of the Older Americans Act (OAA), is the only Federally sponsored employment and training program targeted specifically to low-income, older individuals who want to enter or reenter the workforce. The SCSEP performance measures, as specified in the SCSEP 2018 Final Rule and section 513 of the OAA (42 U.S.C. 3056k, as amended by Pub. L. 114–144) are as follows:

(a) Hours (in the aggregate) of community service employment.

(b) The percentage of project participants who are in unsubsidized employment during the second quarter after exit from the project.

(c) The percentage of project participants who are in unsubsidized employment during the fourth quarter after exit from the project.

(d) The median earnings of project participants who are in unsubsidized employment during the second quarter after exit from the project.

(e) Indicators of effectiveness in serving employers, host agencies, and project participants; and

(f) The number of eligible individuals served, including the number of participating individuals described in subsection (a)(3)(B)(ii) or (b)(2) of section 518.

This information collection measures effectiveness in serving employers, host agencies, and project participants, and is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding

any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205–0040.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).

Agency: DOL–ETA.

Type of Review: Revision.

Title of Collection: Senior Community Service Employment Program (SCSEP).

Forms: ETA 9124A; ETA 9124B; ETA 9124C1 and 9124C2.

OMB Control Number: 1205–0040.

Affected Public: Individuals and households, State, local and Tribal governments, and the private sector (businesses or other for-profits, and not-for-profit institutions).

Estimated Number of Respondents: 18,832.

Frequency: Annually.

Total Estimated Annual Responses: 18,832.

Estimated Average Time per Response: Varies.

Estimated Total Annual Burden Hours: 2,787 hours.

Total Estimated Annual Other Cost Burden: \$0.

Authority: 44 U.S.C. 3506(c)(2)(A).

Brent Parton,

Acting Assistant Secretary for Employment and Training, Labor.

BILLING CODE 4510–FN–P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219–0142]

Proposed Extension of Information Collection; Sealing of Abandoned Areas

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Sealing of Abandoned Areas.

DATES: All comments must be received on or before October 3, 2023.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below. Please note that late, untimely filed comments will not be considered.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number MSHA–2023–0033.

- *Mail/Hand Delivery:* DOL–MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Before visiting MSHA in person, call 202–693–9455 to make an appointment, in keeping with the Department of Labor's COVID–19 policy. Special health precautions may be required.

- MSHA will post all comments as well as any attachments, except for

information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); (202) 693–9440 (voice); or (202) 693–9441 (facsimile). These are not toll-free numbers.

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), Public Law 95–164 as amended, 30 U.S.C. 813(h), authorizes Mine Safety and Health Administration (MSHA) to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811(a), authorizes the Secretary of Labor (Secretary) to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

Part 75 of title 30 of Code of Federal Regulation includes requirements of sealing abandoned areas in underground coal mines such as the design and construction of new seals and the examination, maintenance, and repair of all seals.

30 CFR 75.335—Seal Strengths, Design Applications, and Installation

30 CFR 75.335(b) sets forth procedures for the approval of seal design applications that are submitted by seal manufacturers or mine operators to MSHA's Office of Technical Support, Pittsburgh Safety and Health Technology Center.

30 CFR 75.355(b)(1)(ii) requires that the seal design applications to be submitted for MSHA approval must be certified by a professional engineer to ensure that the design of the seal is in accordance with current, prudent engineering practices and is applicable to conditions in an underground coal mine.

30 CFR 75.335(c) requires the submission and certification of information for seal installation. The mine operator must:

(1) Retain the seal design approval and installation information for as long as the seal is needed to serve the purpose for which it was built.

(2) Designate a professional engineer to conduct or have oversight of seal installation and certify that the provisions in the approved seal design
