

required to provide children with a range of services including medical, dental, and mental health care. Each child must receive an initial medical exam (IME) within 2 business days of admission to an ORR care provider program or temporary influx care facility. The IME satisfies *Flores* requirements which require a “complete medical examination, including a screening for infectious disease”. The purposes of the IME are to assess general health, administer vaccinations in keeping with U.S. standards (also required by *Flores*), identify health conditions that require further attention, and detect contagious diseases of public health importance, such as influenza or TB. The IME is performed by a licensed health care provider and comprised of a complete medical history and physical exam, risk, and age-based laboratory screenings, TB screenings and immunizations. In addition, children

may be referred to a specialist by their healthcare provider for acute or chronic conditions that require additional evaluation. If a child is in ORR custody 60 to 90 days after admission, they must receive an initial dental exam, or sooner if directed by state licensing requirements. Children who are in ORR care for an extended length of time may require urgent or routine medical and dental well-child evaluations.

The forms are used as worksheets for generalist healthcare providers and pediatric and other medical specialty healthcare providers to compile information that would otherwise have been collected during the health evaluation. Once completed, the forms are given to care provider program staff for entry into ORR’s secure, electronic data record system. Data is used to monitor the health of unaccompanied children while in ORR care, for case management of any identified illnesses/

conditions and to ensure care provider program compliance with ORR requirements.

ORR has merged the former IME Form and Supplemental TB Screening Form into one form, the Medical Assessment Form which will be used during all medical evaluations with a mid-level or higher medical professional. ORR has incorporated other changes to the forms to streamline the flow of data collection, clarify the intent of certain fields, improve data quality, and ensure alignment with ORR requirements. In addition, ORR has written instructional letters for the Medical Assessment Form and Dental Assessment Form to explain the purpose of the forms and provide general guidance on completion to healthcare providers.

Respondents: Healthcare providers (pediatricians, medical specialists, and dentists), Care Provider Program Staff.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Release of Unaccompanied Children From Office of Refugee Resettlement Custody (Office of Management and Budget #0970–0552)

AGENCY: Office of Refugee Resettlement, Administration for Children and

Families, Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Office of Refugee Resettlement (ORR), Administration for Children and Families (ACF), U.S. Department of Health and Human Services, is inviting public comments on revisions to an approved information collection. The request consists of several forms that allow the Unaccompanied Children (UC) Program to process release of unaccompanied

children from ORR custody and provide services after release.

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA) of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: Copies of the proposed collection of information can be obtained and comments may be forwarded by emailing infocollection@acf.hhs.gov. Alternatively, copies can also be obtained by writing to ACF, Office of Planning, Research, and Evaluation (OPRE), 330 C Street SW, Washington, DC 20201, Attn: ACF Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: ORR is proposing revisions to four forms (Forms R-1, R-2, R-4, and R-6), the addition of one new form (Form R-9), removal of one form (Form R-3), and continued use of the current versions of three forms (Forms R-2, R-4, and R-6). See below for a detailed description of the proposed revisions for each instrument.

Verification of Release (Form R-1)

There are two currently approved versions of this form under this information collection—one for UC Portal and one for UC Path. ORR proposes discontinuing the UC Portal version, incorporating the UC Path version into the UC Portal system, and making the below-listed revisions.

ORR also updated the burden estimates for this form to account for an increase in the number care provider facilities and in the number of children placed in ORR care. The annual number of respondents increased from 216 to 300 and the annual number of responses per respondent increased from 253 to 428.

Proposed Revisions

• Child's Information

- Retitle section from *Minor's Information* to *Child's Information*.
- Remove the term “minor” from the *Name*, *Date of Birth*, and *A#* fields.
- Remove the *Height*, *Weight*, and *Hair Color* fields. ORR determined that these fields are not a good fit for this form given that height and weight will change quickly as the child grows and hair color is often altered.
- Add fields for *Preferred Language* and *Country of Birth*. These fields will be auto-populated.

• Sponsor Information

- Rephrase *Name of Sponsor* to *Name*.
- Rephrase *Telephone #* to *Primary Phone #*.
- Remove *Alias (if any)* field.

• Acknowledgement of the Sponsor Care Agreement

- Rephrase *Name of ORR Care Provider* to *ORR Care Provider Name*.
- Rephrase *Date* to *Discharge Date*.

Discharge Notification (Form R-2)

There are two currently approved versions of this form under this information collection—one for UC Portal and one for UC Path. ORR proposes the below-listed revisions to the current UC Portal version and plans to discontinue the UC Path version.

In addition, ORR is requesting continued use of the current UC Portal version of this instrument to support a phased rollout of improvements to the UC Portal system.

ORR also updated the burden estimates for this form to reflect the revisions and to account for an increase in the number of care provider facilities and in the number of children placed in ORR care. The annual number of respondents increased from 216 to 300; the annual number of responses per respondent increased from 290 to 487; and the average burden hours per response increased from 0.17 to 0.25.

ORR Release Notification—ORR Notification to Immigration and Customs Enforcement (ICE) Chief Counsel—Release of Unaccompanied Child to Sponsor and Request To Change Address (Form R-3)

ORR proposes removing this instrument from the information collection. No information is requested specifically for this auto-populated document, instead this a document that is auto-populated with information ORR collects in other Office of Management

and Budget (OMB)-approved forms. The use of information consolidated on this notification document is consistent with the purpose for which ORR originally collects the information in its other forms and with ORR's system of records notice (81 FR 46682). This form simply compiles and presents approved information collections in a different format and is therefore not subject to the PRA.

The fields in this form are auto-populated from the following instruments:

- Discharge Notification (Form R–2, approved under this information collection)
- Release Request (Form R–4, approved under this information collection)
- Sponsor Assessment (Form S–5) (approved under OMB# 0970–0553)
- Care provider program user profile (not subject to PRA per OMB's April 7, 2010 memorandum *Social Media, Web-Based Interactive Technologies, and the Paperwork Reduction Act*)

Release Request (Form R–4)

There are two currently approved versions of this form under this information collection—one for UC Portal and one for UC Path. ORR proposes the below-listed revisions to the current UC Portal version and plans to discontinue the UC Path version.

In addition, ORR is requesting continued use of the current UC Portal version of this instrument to support a phased rollout of improvements to the UC Portal system.

ORR also updated the burden estimates for this form to reflect the revisions and to account for an increase in the number of care provider facilities and in the number of children placed in ORR care. The annual number of respondents increased from 216 to 300 for care providers; the annual number of responses per respondent increased from 254 to 430 for care providers and 321 to 756 for case coordinators; and the average burden hours per response increased from 0.42 to 0.58 for care providers and 0.33 to 0.50 for case coordinators.

• Home Study Recommendation Section

○ Move all fields related to home study recommendations into this new section. Currently, the Case Manager Recommendation, Case Coordinator Recommendation, and ORR Decision sections contain fields related to home study recommendations, release recommendations, and cancellation reasons. Moving fields related to home study recommendations here will distinguish the home study decision from the release decision and cancellation reasons. This section will contain subsections for each party involved in the home study recommendation and decision process—Case Manager Recommendation, Case Coordinator Recommendation, and ORR Decision.

○ Add a new dropdown option, *Do Not Recommend Home Study*, to the case manager and case coordination recommendation fields and the decision field (current dropdown options are *Home Study—TVpra*, *Home Study—Discretionary*, and *Home Study—ORR Mandated*).

○ Add a new field, *Explain your rationale for recommending or not recommending a Home Study*, to all three subsections.

study recommendations will be moved into the Home Study Recommendation section (as discussed above) and fields related to cancellation reasons will be moved into the Release Cancellation section (as discussed below).

○ Update the dropdown options for the following fields to reflect that all children released from ORR care will receive PRS beginning January 1, 2024: *Case Manager Release Recommendation, Case Coordinator Release Recommendation, and ORR Release Decision*.

○ Add the following fields to direct case routing: *Case Manager Routing, Case Coordinator Routing, ORR Routing (if applicable)*.

○ Add the following new fields to each subsection: *Describe case factors that contribute positively to your release recommendation, Describe case factors that contribute negatively to your release recommendation, and List all documents used as evidence to support your recommendation to deny release* (will only appear if the recommendation is to deny release).

○ Case Manager Recommendation Subsection

■ Add checkboxes for the types of documents the user reviewed to inform their recommendation as well as an *Other* text box to describe any documents reviewed that are not included in the checklist.

○ Case Coordinator Recommendation Subsection

■ Add a new field, *Case Coordinator Pending Information* as well as an *Other* text box to capture addition information is the user selects *Other*.

○ ORR Decision Subsection

■ Add the following new fields: *ORR Decisionmaker Role, ORR Remand Reason* (along with a corresponding *Other* text field), and *ORR HOLD Reason*.

■ Add a hyperlink to the final Notification of Denial Letter signed by the ORR Director that will appear if *Deny Release* is selected for a Cat 1, Cat 2A, or Cat 2B sponsor.

• Release Cancellation

○ Move fields related to release cancellation into this new section to distinguish cancellations from home study and release recommendations. This section will contain subsections for

each party involved in cancellations—Case Manager Recommendation, Case Coordinator Recommendation, and ORR Decision.

- Add the following new fields to each subsection: *Cancellation Reason* and *Describe circumstances of release cancellation*.

- Add the following fields that will prompt the user to select a more specific reason for cancellation: *Specific Sponsor Withdrawal Reason*, *Specific Reason for Child Discharge (Non-unification or Program)*, and *Specific Administrative Closure Reason*.

Virtual Check-In Questionnaire (Form R-6) (Formerly Titled Safety and Well-Being Call)

There are two currently approved versions of this form under this information collection—one in Excel and one for UC Path. ORR proposes the below-listed revisions to the current UC Path version and plans to incorporate the revised version into the UC Portal system.

In addition, ORR is requesting continued use of the current Excel version of this instrument to support a phased rollout of improvements to the UC Portal system.

ORR updated the burden estimates for this form to reflect form revisions, to account for an increase in the number of care provider facilities and in the number of children placed in ORR care, and to improve burden accuracy. The burden estimate was split into three separate line items for each respondent. The annual number of respondents changed from 216 care providers to 40 PRS providers, 128,487 sponsors, and 128,487 children; the annual number of responses per respondent increased from 253 to 19,273 for PRS providers, 3 for sponsors, and 3 for children; and the average burden hours per response increased from 0.42 to 0.58 for PRS providers, 0.17 to 0.25 for sponsors, and 0.17 to 0.25 for children.

ORR plans to shift responsibility for conducting safety and well-being calls from care provider facilities to PRS providers. Moving forward these calls will be called virtual check-ins. All children released to a sponsor and their sponsors will continue to receive calls, however, the frequency of the calls will increase from one to three calls—conducted at seven business days, 14 business days, and 30 business days after the child's release from ORR custody.

ORR proposes the following revisions to the UC Path version of Form R-6 to support this change in process:

- Change the title to “Virtual Check-In Questionnaire.”

- Pre-Call Information—This section will replace the UAC Basic Information and Case Information sections. The new section retains the child and sponsor information and adds fields to capture phone numbers for contacts in the care plan and in home country. All information in this section will be auto-populated.

- Questions for the Sponsor—This section will replace the Sponsor Address Confirmation and Sponsor Questions sections. The new section will include subsections for Location & Contact Information, Child's School, Child's Medical & Mental Health, Legal & Child's Immigration, Safety & Well-Being, and Child's Work. This section adds 13 new questions. The section also retains, and in some cases adds additional follow-up questions for, the questions confirming the address, whether the child still lives with the sponsor, whether the child is registered for school, whether the child is having any behavioral or health issues, whether the sponsor has attended the Legal Orientation Program for Custodians of Unaccompanied Children (LOPC) presentation, whether the sponsor is aware of, and notified the child of, the child's next immigration court date, whether the child has attended their scheduled court hearing, whether the sponsor still has the child's *Verification of Release* form, and whether the sponsor has been asked to pay for the release of the child.

- Questions for the Child—This section will replace the UAC Address Confirmation and UAC Questions sections. The new section will include subsections for Location, School, Medical & Mental Health, Legal & Immigration, Safety & Well-Being (Post-Release and In-Care), and Work. The new section adds 31 new questions. The section also retains, and in some cases adds additional follow-up questions for, the questions confirming the address, whether the child still lives with the sponsor, whether the child is attending school, whether the child feels safe, whether the child has been adequately provided for, whether anyone has been asked to pay for the release of the child, whether the child is being forced to work or pay money, and whether the child is aware of their next immigration court date.

- Post-Call Assessment and Outcomes—This section will replace the following sections: Sponsor Interview, UAC Interview, Case Manager Observation and Action Follow-Up, UAC May be in Immediate Danger, UAC May be Unsafe, UAC May Have Been Sexually Abused or Harassed While in

ORR Care, Additional Support Services or LOPC Appointment, and Case Manager Certification. The new section adds 6 new questions. The section also retains, and in some cases builds on, questions on whether the phone was disconnected, sponsor participation, whether the child appears to be in immediate danger, whether the child or sponsor should be assessed for additional PRS, post-call actions taken, and reasons for elevation (if applicable).

Discharge Plan (Form R-9)

ORR care providers are required to conduct discharge planning for children who are not likely to be released to a sponsor, may obtain a form of lawful immigration relief, are projected to have a prolonged stay in ORR care, and/or will soon turn age 18 and age out of ORR care. Discharge planning is a participatory process that takes into consideration the wishes and goals of the child and includes consultation with the child's legal services provider, attorney of record, child advocate, and other stakeholders (e.g., parents, legal guardian in home country) as applicable. Case managers engage in concurrent planning, whenever possible, to ensure there are multiple options included in the child's discharge plan.

ORR developed this instrument to improve and standardize the process for discharge planning across its national network of care providers. The new instrument will collect information on the following topics:

- Child's Basic Information
- Placement Information After Release
- UC Program Family Group
- Case Management Needs
- Family Unification Plan
- Education and Career Plan
- Financial Plan
- Residential Plan
- Community Resources Plan
- Legal Services Plan
- Voluntary Departure Plan
- Release to DHS ICE Field Office Juvenile Coordinator Upon Age Out
- Transportation Plan
- Health Discharge Safety Plan
- Behavioral Observations Summary
- Life Skills Summary

The Legal Services Plan section of this instrument will replace Post Legal Status Plan (Form L-8), which is currently approved under OMB# 0970-0565. ORR plans to submit a nonsubstantive change request to discontinue Form L-8 soon.

Respondents: ORR grantee and contractor staff; and released children and sponsors.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for Office of Management and Budget Review; Mental Health Assessment Form and Public Health Investigation Forms, Tuberculosis and Non-Tuberculosis Illness (Office of Management and Budget 0970-0509)

AGENCY: Office of Refugee Resettlement, Administration for Children and Families, United States Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Administration for Children and Families (ACF) is requesting a 3-year extension of the Mental Health Assessment Form (formerly the Health Assessment Form) and Public Health Investigation Forms, Active Tuberculosis (TB) and Non-TB Illness (Office of Management and Budget (OMB) #0970-0509, expiration December 31, 2023). Changes are proposed to the currently approved forms.

DATES: *Comments due within 30 days of publication.* OMB must make a decision about the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. You can also obtain copies of the proposed collection of information by emailing infocollection@acf.hhs.gov. Identify all emailed requests by the title of the information collection.

SUPPLEMENTARY INFORMATION: The ACF Office of Refugee Resettlement (ORR) places unaccompanied children in their custody in care provider programs until unification with a qualified sponsor. Care provider programs are required to provide children with a range of services including medical, dental, and mental health care. While in ORR care, children meet with onsite mental health counselors on a regular basis. If a child is identified as potentially having a more serious mental health condition, they are referred to a psychiatrist,

psychiatric nurse practitioner or physician's assistant, licensed psychologist, or any other community-based licensed mental health provider (e.g., social worker).

The Mental Health Assessment form is used as a worksheet for mental health specialists to compile information that would otherwise have been collected during the evaluation. Once completed, the form is given to care provider program staff for entry into ORR's secure, electronic data record system. Data is used to monitor the health of unaccompanied children while in ORR care and for case management of any identified conditions.

Children may be exposed to nationally reportable infectious diseases during the journey to the U.S., while in the custody of the Customs and Border Protection after crossing the border, or during their stay in ORR custody. Public health interventions such as quarantine, vaccination or lab testing may be initiated to reduce possible disease transmission. Following an exposure, children are assessed onsite by care provider program staff and if found to be symptomatic, referred to a healthcare provider for evaluation.

The Public Health Investigation Forms are used as worksheets by care provider program staff to record their findings when an exposure has been reported. Once completed, they will enter the data into ORR's secure data record system. Data is used to track disease transmission and health outcomes of children in ORR care.

ORR has repurposed the former Health Assessment Form from a medical and mental health information collection to a mental health collection only, and renamed it, the Mental Health Assessment Form. ORR has incorporated other changes to the forms to streamline the flow of data collection, clarify the intent of certain fields, improve data quality, and ensure alignment with ORR requirements. In
