

developers will ensure that the siting process is open to public input and transparent with respect to how decisions are made. Project developers will work with communities to identify the types of data that will be collected and shared with the public, including the level of detail, frequency of monitoring and reporting, response to findings, and means of disseminating information.

Long-Term Stewardship—Project developers of carbon dioxide storage projects will develop closure and post-operational monitoring and reporting plans and ensure financial responsibility for any future stewardship.

IV. Questions for Request for Information

FECM is requesting comment on the Principles and the Initiative. The Principles are intended to provide project developers with a high-level framework for executing carbon management projects responsibly. DOE specifically welcomes comment on the following questions:

1. Would the Initiative and the Principles be likely to meaningfully advance responsible carbon management? If not, what changes could be made to better advance this goal?
2. At a high level, do the Principles address what is needed for responsible carbon management? If not, what additional principles may be needed?
3. In what ways, if any, could the Principles be revised to better reflect responsible carbon management?
4. Once finalized, would you agree to pledge to abide by or endorse the Principles? If not, what changes could be made to Phase 1 to encourage you to pledge to abide by or endorse the Principles?
5. How could Phase 2 and a recognition program be structured and executed to maximize adoption of the Principles?
6. Would the technical assistance envisioned in Phase 2 be helpful to advance responsible carbon management projects? Would you take advantage of this service or encourage others to take advantage? If not, why not?

V. Response Guidelines

NOI/RFI responses shall include:

1. NOI/RFI title and reference number;
2. Name(s), phone number(s), and email address(es) for the principal point(s) of contact;
3. Institution or organization affiliation and postal address; and

4. Clear indication of the specific question(s) to which you are responding.

Responses including confidential business information will be handled per guidance in Section VI.

VI. Confidential Business Information

Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email two well-marked copies: One copy of the document marked “confidential” including all the information believed to be confidential, and one copy of the document marked “non-confidential” with the information believed to be confidential deleted. Submit these documents via email. DOE will make its own determination about the confidential status of the information and treat it according to its determination.
