SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through August 31, 2023. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on December 19, 2022 during a 60-day comment period (87 FR 77602). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: The purpose of this information collection is to survey partners currently using the EPA’s Office of Research and Development’s (ORD) scientific research products to increase transparency and public participation, and to ascertain the quality, usability, and timeliness of the research products. ORD will collect these data to inform the annual end-of-year performance reporting to the Office of Management and Budget (OMB) that will be published each year in the Annual Performance Report (APR), which is part of the President’s Budget Request and mandated under the

Government Performance and Results Act (GPRA). The survey results will be used to estimate the degree to which ORD research products meet partner needs and will enable the improvement of the development and delivery of products. Some of the information reported on the form is confidential, which will be withheld from the public pursuant to Section 107(1) of the Ethics in Government Act of 1978. Participation is voluntary.

Form Numbers: 6000–021.

Respondents/affected entities: Life, physical and social science professionals.

Respondent’s obligation to respond: Voluntary.

Estimated number of respondents: 270 (total).

Frequency of response: Annually.

Total estimated burden: 68 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$4,344.30 (per year), which includes no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 15 hours in the total estimated respondent burden compared with the ICR previously approved by OMB. This burden reduction is attributed to a decrease in time needed for survey completion.
