

Safety Agency (EASA) AD 2023–0038, dated February 14, 2023 (EASA AD 2023–0038).

(2) The actions required by paragraph (g)(1) of this AD may be performed by the owner/operator (pilot) holding at least a private pilot certificate and must be entered into the aircraft records showing compliance with this AD in accordance with 14 CFR 43.9(a) and 91.417(a)(2)(v). The record must be maintained as required by 14 CFR 91.417, 121.380, or 135.439.

#### (h) Exceptions to EASA AD 2023–0038

(1) Where EASA AD 2023–0038 refers to its effective date, this AD requires using the effective date of this AD.

(2) Where paragraph (1) of EASA AD 2023–0038 specifies to “amend the AFM by inserting a copy of the AFM TR,” this AD requires replacing those words with “revise the Limitations Section of the existing AFM for your airplane by inserting a copy of the AFM TR as defined in EASA AD 2023–0038.”

(3) Where paragraph (1) of EASA AD 2023–0038 specifies to “inform all flight crews and, thereafter, operate the [airplane] accordingly,” this AD does not require those actions.

(4) This AD does not adopt the Remarks paragraph of EASA AD 2023–0038.

#### (i) Alternative Methods of Compliance (AMOCs)

The Manager, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the International Validation Branch, send it to the attention of the person identified in paragraph (j) of this AD or email to: *9-AVS-AIR-730-AMOC@faa.gov*. If mailing information, also submit information by email. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

#### (j) Additional Information

For more information about this AD, contact Doug Rudolph, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; phone: (816) 329–4059; email: *doug.rudolph@faa.gov*.

#### (k) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) European Union Aviation Safety Agency AD 2023–0038, dated February 14, 2023.

(ii) [Reserved]

(3) For EASA AD 2023–0038, contact EASA, Konrad-Adenauer-Ufer 3, 50668 Cologne, Germany; phone: +49 221 8999 000; email: *ADs@easa.europa.eu*; website *easa.europa.eu*. You may find this EASA AD on the EASA website *ad.easa.europa.eu*.

(4) You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 901 Locust, Kansas City, MO 64106. For information on the availability of this material at the FAA, call (817) 222–5110.

(5) You may view this service information that is incorporated by reference at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, email: *fr.inspection@nara.gov*, or go to: *www.archives.gov/federal-register/cfr/ibr-locations.html*.

Issued on August 17, 2023.

## FEDERAL TRADE COMMISSION

### 16 CFR Part 310

**RIN 3084–AA98**

#### Telemarketing Sales Rule Fees

**AGENCY:** Federal Trade Commission.

**ACTION:** Final rule.

**SUMMARY:** The Federal Trade Commission (“Commission”) is amending its Telemarketing Sales Rule (“TSR”) by updating the fees charged to entities accessing the National Do Not Call Registry (“Registry”) as required by the Do-Not-Call Registry Fee Extension Act of 2007.

**DATES:** This final rule is effective October 1, 2023.

**ADDRESSES:** Copies of this document are available on the internet at the Commission’s website: *https://www.ftc.gov*.

**FOR FURTHER INFORMATION CONTACT:** Ami Joy Dziekan (202) 326–2648, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW, Room CC–9225, Washington, DC 20580.

**SUPPLEMENTARY INFORMATION:** To comply with the Do-Not-Call Registry Fee Extension Act of 2007 (15 U.S.C. 6152) (the “Act”), the Commission is amending the TSR, which is contained in 16 CFR part 310, by updating the fees entities are charged for accessing the Registry. Specifically, the revised rule increases (1) the annual fee for access to the Registry for each area code of data from \$75 to \$78 per area code, and (2) the maximum amount that will be charged to any single entity for accessing area codes of data from \$20,740 to \$21,402. Entities may add

area codes during the second six months of their annual subscription period, and the fee for those additional area codes increases from \$38 to \$39.

These increases are in accordance with the Act, which specifies that beginning after fiscal year 2009, the dollar amounts charged shall be increased by an amount equal to the amounts specified in the Act, multiplied by the percentage (if any) by which the average of the monthly consumer price index (for all urban consumers published by the Department of Labor) (“CPI”) for the most recently ended 12-month period ending on June 30 exceeds the CPI for the 12-month period ending June 30, 2008. The Act also states any increase shall be rounded to the nearest dollar and there shall be no increase in the dollar amounts if the change in the CPI since the last fee increase is less than one percent. For fiscal year 2009, the Act specified that the original annual fee for access to the Registry for each area code of data was \$54 per area code, or \$27 per area code of data during the second six months of an entity’s annual subscription period, and that the maximum amount that would be charged to any single entity for accessing area codes of data would be \$14,850.

The determination of whether a fee change is required and the amount of the fee changes involves a two-step process. First, to determine whether a fee change is required, we measure the change in the CPI from the time of the previous increase in fees. There was an increase in the fees for fiscal year 2023. Accordingly, we calculated the change in the CPI since last year, and the increase was 3.0 percent. Because this change is over the one percent threshold, the fees will change for fiscal year 2024.

Second, to determine how much the fees should increase this fiscal year, we use the calculation specified by the Act set forth above: the percentage change in the baseline CPI applied to the original fees for fiscal year 2009. The average value of the CPI for July 1, 2007, to June 30, 2008, was 211.702; the average value for July 1, 2022, to June 30, 2023, was 305.109, an increase of 44.12 percent. Applying the 44.12 percent increase to the base amount from fiscal year 2009, leads to a \$78 fee for access to a single area code of data for a full year for fiscal year 2024, an increase of \$3 from last year. The actual amount is \$77.83 but when rounded, pursuant to the Act, \$78 is the appropriate fee. The fee for accessing an additional area code for a half year increases by one dollar to \$39 (rounded from \$38.91). The maximum

amount charged increases to \$21,402 (rounded from \$21,402.11).

*Administrative Procedure Act; Regulatory Flexibility Act; Paperwork Reduction Act.* Under the Administrative Procedure Act (5 U.S.C. 553(b)), an agency may waive the normal notice and comment requirements if it finds, for good cause, that they are impracticable, unnecessary, or contrary to the public interest. The fee adjustments set forth in this final rule are mandated by the Do-Not-Call Registry Fee Extension Act of 2007. Accordingly, the amendments to the TSR are merely technical in nature, making notice and comment unnecessary and contrary to the public interest. See 5 U.S.C. 553(b). For this reason, the requirements of the Regulatory Flexibility Act also do not apply. See 5 U.S.C. 603, 604.

Pursuant to the Paperwork Reduction Act, 44 U.S.C. 3501–3521, the Office of Management and Budget (“OMB”) approved the information collection requirements in the TSR and assigned the following existing OMB Control Number: 3084–0169. The amendments outlined in this final rule pertain only to the fee provision (§ 310.8) of the TSR and will not establish or alter any record keeping, reporting, or third-party disclosure requirements elsewhere in the TSR.

#### List of Subjects in 16 CFR Part 310

Advertising, Consumer protection, Reporting and recordkeeping requirements, Telephone, Trade practices.

Accordingly, the Federal Trade Commission amends part 310 of title 16 of the Code of Federal Regulations as follows:

#### PART 310—TELEMARKETING SALES RULE

■ 1. The authority citation for part 310 continues to read as follows:

**Authority:** 15 U.S.C. 6101–6108; 15 U.S.C. 6151–6155.

#### § 310.8 [Amended]

- 2. In § 310.8:
  - a. Amend paragraph (c) by:
    - i. Removing “\$75” and adding “\$78” in its place; and
    - ii. Removing “\$20,740” and adding “\$21,402” in its place;
  - b. Amend paragraph (d) by:
    - i. Removing “\$75” and adding “\$78” in its place; and
    - ii. Removing “\$38” and adding “\$39” in its place.

By direction of the Commission.

**April J. Tabor,**

*Secretary.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Safety and Environmental Enforcement

#### 30 CFR Part 250

[Docket ID: BSEE–2022–0009; EEEE500000 234E1700D2 ET1SF0000.EAQ000]

RIN 1014–AA52

#### Oil and Gas and Sulfur Operations in the Outer Continental Shelf-Blowout Preventer Systems and Well Control Revisions

**AGENCY:** Bureau of Safety and Environmental Enforcement, Interior.

**ACTION:** Final rule.

**SUMMARY:** The Department of the Interior (DOI or Department), through the Bureau of Safety and Environmental Enforcement (BSEE), is revising certain regulatory provisions published in the 2019 final well control rule for drilling, workover, completion, and decommissioning operations. BSEE is finalizing these revisions to clarify blowout preventer (BOP) system requirements and to modify certain specific BOP equipment capability requirements. This final rule will provide consistency and clarity to industry regarding the BOP equipment and associated operational requirements necessary for BSEE review and approval and will further ensure operations are conducted safely and in an environmentally responsible manner.

**DATES:** This final rule is effective on October 23, 2023. However, BSEE will defer the compliance date for the Remotely Operated Vehicle (ROV) intervention open functionality provision at 30 CFR 250.734(a)(4) until August 22, 2024. The Director of the Federal Register approved the incorporation by reference of certain publications listed in this final rule as of July 15, 2019.

**FOR FURTHER INFORMATION CONTACT:** For questions, contact Kirk Malstrom, Regulations and Standards Branch, (202) 258–1518, or by email: [regs@bsee.gov](mailto:regs@bsee.gov).

#### SUPPLEMENTARY INFORMATION:

##### Executive Summary

This final rule revises certain regulatory provisions that were

published in the 2019 final rule entitled, “Oil and Gas and Sulfur Operations in the Outer Continental Shelf–Blowout Preventer Systems and Well Control Revisions,” 84 FR 21908 (May 15, 2019) (2019 WCR). On January 20, 2021, the President issued Executive Order (E.O.) 13990 (Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis). The accompanying “President’s Fact Sheet: List of Agency Actions for Review” included the 2019 WCR on a list of rules the President instructed DOI to review for potential revisions to promote and protect public health and the environment, among other policy goals identified in the E.O. This review confirmed that the 2019 WCR contains many provisions that help ensure that federally regulated outer Continental Shelf (OCS) oil and gas operations are conducted safely and in an environmentally responsible manner. Therefore, this final rule addresses only select provisions that, consistent with and as authorized by the Outer Continental Shelf Lands Act (OCSLA), will further promote the objectives of E.O. 13990. At this time, BSEE is finalizing narrowly focused revisions to improve operations that use a BOP, certain BOP capabilities and functionalities, and BSEE oversight of such operations. The final rule:

- Clarifies the general BOP system expectations,
- Modifies the timeframes for commencing a failure analysis,
- Requires submission of independent third-party qualifications,
- Establishes dual shear ram requirements for surface BOPs on existing floating production facilities when an operator replaces an entire surface BOP stack,
- Requires Remotely Operated Vehicle (ROV) open functions on subsea BOPs, and
- Requires submittal of certain BOP test results if BSEE is unable to witness the testing.

BSEE will continue to evaluate the effectiveness of the 2019 WCR and all BSEE regulations for any necessary and appropriate rulemakings in the future.
