Total Annual Burden: 275 hours.

Annual Cost Burden: \$15,300.

Needs and Uses: In 2000, the Commission adopted rules to require video programming distributors (VPDs) to make emergency information provided in the audio portion of the programming accessible to viewers who have hearing disabilities. *Second Report and Order*, MM Docket No. 95–176, FCC 00–136. Later that year, to ensure that televised emergency information is accessible to viewers who are blind or visually impaired, the Commission modified its rules to require VPDs to make emergency information audible when provided in the video portion of a regularly scheduled newscast or a newscast that interrupts regular programming, and to provide an aural tone when emergency information is provided visually during regular programming (e.g., through screen crawls or scrolls). *Report and Order*, MM Docket No. 99–339, FCC 00–258.

In 2013, the Commission adopted rules related to accessible emergency information and apparatus requirements for emergency information and video description. *Report and Order and Further Notice of Proposed Rulemaking*, MB Docket Nos. 12–107 and 11–43, FCC 13–45. Specifically, the Commission’s rules require that VPDs and video programming providers (VPPs) (including program owners) make emergency information accessible to individuals who are blind or visually impaired by using a secondary audio stream to convey televised emergency information aurally, when such information is conveyed visually during programming other than newscasts. The Commission’s rules also require certain apparatus that receive, play back, or record video programming to make available audio description services and accessible emergency information.

In 2015, the Commission adopted rules to require the following: (1) apparatus manufacturers must provide a mechanism that is simple and easy to use for activating the secondary audio stream to access audible emergency information; and (2) starting no later than July 10, 2017, multichannel video programming distributors (MVPDs)

must pass through the secondary audio stream containing audible emergency information when it is provided on linear programming accessed on second screen devices (e.g., tablets, smartphones, laptops and similar devices) over their networks as part of their MVPD services. *Second Report and Order and Second Further Notice of Proposed Rulemaking*, MB Docket No. 12–107, FCC 15–56.

Finally, in 2020, the Commission adopted rules that included modernizing the term “video description” in the subject rules to the more widely understood “audio description.” *Report and Order*, MB Docket No. 11–43, FCC 20–155. These rules are codified at 47 CFR 79.2, 79.105, and 79.106.

Information Collection Requirements

(a) Complaints alleging violations of the emergency information rules.

Section 79.2(c) of the Commission’s rules provides that a complaint alleging a violation of § 79.2 of its rules, may be transmitted to the Consumer and Governmental Affairs Bureau by any reasonable means, such as the Commission’s online informal complaint filing system, letter, facsimile transmission, telephone (voice/TRS/TTY), internet email, audio-cassette recording, Braille, or some other method that would best accommodate the complainant’s disability. After the Commission receives the informal complaint, the Commission notifies the VPD or VPP of the complaint, and the VPD or VPP has 30 days to reply.

(b) Complaints alleging violations of the apparatus emergency information and audio description requirements.

Complaints alleging violations of the rules containing apparatus emergency information and audio description requirements, 47 CFR 79.105–79.106, may be transmitted to the Consumer and Governmental Affairs Bureau by any reasonable means, such as the Commission’s online informal complaint filing system, letter in writing or Braille, facsimile transmission, telephone (voice/TRS/TTY), email, or some other method that would best accommodate the complainant’s disability. Given that the population intended to benefit from the rules adopted will be blind or visually impaired, if a complainant calls the Commission for assistance in preparing a complaint, Commission staff will document the complaint in writing for the consumer. The Commission will forward such complaints, as appropriate, to the named manufacturer or provider for its response, as well as to any other entity that Commission

staff determines may be involved, and may request additional information from any relevant parties when, in the estimation of Commission staff, such information is needed to investigate the complaint or adjudicate potential violations of Commission rules.

(c) Requests for Commission determination of technical feasibility of emergency information and audio description apparatus requirements.

The requirements pertaining to apparatus designed to receive or play back video programming apply only to the extent they are “technically feasible.” Parties may raise technical infeasibility as a defense when faced with a complaint alleging a violation of the apparatus requirements or they may file a request for a ruling under section 1.41 of the Commission’s rules as to technical infeasibility before manufacturing or importing the product.

(d) Requests for Commission determination of achievability of emergency information and audio description apparatus requirements.

The requirements pertaining to certain apparatus designed to receive, play back, or record video programming apply only to the extent they are achievable. Manufacturers of apparatus that use a picture screen of less than 13 inches in size and of recording devices may petition the Commission, pursuant to 47 CFR 1.41, for a full or partial exemption from the audio description and emergency information requirements before manufacturing or importing the apparatus. Alternatively, manufacturers may assert that a particular apparatus is fully or partially exempt as a response to a complaint, which the Commission may dismiss upon a finding that the requirements of this section are not achievable. A petition for exemption or a response to a complaint must be supported with sufficient evidence to demonstrate that compliance with the requirements is not achievable (meaning with reasonable effort or expense), and the Commission will consider four specific factors when making such a determination.

(e) Petitions for purpose-based waivers of emergency information and audio description apparatus requirements.

The Commission may waive emergency information and audio description apparatus requirements for any apparatus or class of apparatus that is (a) primarily designed for activities other than receiving or playing back video programming transmitted simultaneously with sound, or (b) designed for multiple purposes, capable of receiving or playing video programming transmitted

simultaneously with sound but whose essential utility is derived from other purposes. The Commission will address any requests for a purpose-based waiver on a case-by-case basis, and waivers will be available prospectively for manufacturers seeking certainty prior to the sale of a device.

(f) Submission and review of consumer eligibility to receive an accessible set-top box.

The Commission granted DIRECTV a waiver with respect to the set-top box models on which it is not able to implement audio functionality for emergency information, but conditioned such relief by requiring DIRECTV to provide, upon request and at no additional cost to customers who are blind or visually impaired, a set-top box model that is capable of providing aural emergency information. DIRECTV may require customers who are blind or visually impaired to submit reasonable documentation of disability to DIRECTV as a condition to providing the box at no additional cost.

Federal Communications Commission.

[MB Docket No. 23-267; DA 23-678; FR ID 165332]

Designating Applications To Renew Low Power Television Stations Licensed to Jennifer Juarez

AGENCY: Federal Communications Commission.

ACTION: Notice; Hearing Designation Order/Order to Show Cause

SUMMARY: In this document, the Media Bureau of the Federal Communications Commission commences a hearing proceeding to determine, among other things, if the named licensee, Jennifer Juarez, and Antonio Cesar Guel, former licensee through his ownership of Hispanic Christian Community Network, Inc. (HCCN): lacked candor and misrepresented material facts to the Commission; abused FCC processes by engaging in a sham assignment of stations that apparently allowed Guel's improper and continued control of them; possess the requisite character qualifications to be a Commission licensee and, as a result, whether the stations' renewal applications should be denied/dismissed and the stations cancelled or revoked, whether to impose

forfeitures against the parties, and whether to issue an order directing Guel/HCCN to cease and desist from violating provisions of Commission rules and the Communications Act of 1934, as amended.

DATES: Each party to the proceeding (except for the Chief, Enforcement Bureau), in person or by counsel, shall file with the Commission, by August 31, 2023, a written appearance stating the party will appear on the date fixed for hearing and present evidence on the issues specified herein.

Dana E. Leavitt, Video Division, Media Bureau at (202) 418-1317 or Dana.Leavitt@fcc.gov. For additional information concerning the Paperwork Reduction Act (PRA) information collection requirements contained in this document, contact Cathy Williams at 202-418-2918, or Cathy.Williams@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Bureau's HDO in MB Docket No. 23-267, DA 23-678, adopted and released on August 10, 2023. The full text of this document is available for download at <https://docs.fcc.gov/public/attachments/DA-23-678A1.pdf>. Synopsis

Hearing Designation Order to Determine, Inter Alia, Whether HCCN and/or Antonio Cesar Guel are Real Parties in Interest in Pending Applications to Renew Authorizations for Low-Power Television Stations Licensed to Jennifer Juarez; Whether the Parties Engaged in a Sham Transaction to Allow HCCN/Guel Continued Control of the Stations and Abused Commission Processes; Whether the Parties Engaged in Misrepresentation and/or Lack of Candor Before the Commission; Whether the Parties Possess the Requisite Character Qualifications to be Licensees; and Whether Forfeitures Should be Imposed and a Cease and Desist Order Should be Issued Against HCCN and/or Guel

In this *Order to Show Cause Why A Cease and Desist Order Should Not Be Issued, Order to Show Cause Why an Order of Revocation Should Not Be Issued, Hearing Designation Order, Notice of Opportunity for Hearing, and Notice of Apparent Liability for Forfeiture* (HDO), the Media Bureau (Bureau) of the Federal Communications

Commission (Commission or FCC) asks the ALJ to determine the character qualifications of the three designated entities, Hispanic Christian Community Network, Inc., Antonio Cesar Guel, and Jennifer Juarez and whether they possess the requisite character qualifications to hold broadcast licenses, whether to cancel or revoke 7 low power TV (LPTV) stations, and whether to issue a cease and desist order against HCCN and Antonio Cesar Guel to stop violating the Act and our rules. The HDO is the result of an investigation that began in 2018 to explore the extent to which Hispanic Christian Community Network, Inc. (HCCN), Antonio Cesar Guel (Guel), and Jennifer Juarez (Juarez) may have violated provisions of the Communications Act of 1934, as amended (the Act), and our rules pertaining to foreign ownership limits, unauthorized transfers of control/real-party-in-interest issues, and truthful statements made to the FCC. The HDO also provides notice of apparent liability against the entities for their respective violations and failures to disclose material information in their assignment application, and lack of candor and misrepresentation of material facts in responding to Bureau inquiries.

1. Background

The Parties: Jennifer Juarez, aka "Jennifer" Juarez, is the named licensee of the Stations. Juarez states she had no broadcast experience when she agreed in 2010 to acquire the stations from HCCN, which was 100% directly owned by Antonio Cesar Guel, her uncle. She avers that "Antonio Cesar Guel helps us with keeping the stations on air. He provides programming from some of the churches or pastors that he knows and is also our representative with some advertising agencies." Juarez further avers she has no personnel but that Guel "provides a lot of the technical assistance and advice I need" and she receives "a great deal of help from my uncle in getting help with contacts in the industry, contracts, programming, building the stations, moving the stations, etc." Juarez also states that she relies on and receives a great deal of help from her cousin Maria and some help from her cousin Ana (Antonio Guel's daughters), "as they also are in the broadcast business. As a result, I have not really had to put much time into the stations." Juarez further avers she receives "a great deal of help from my attorney and outside engineer," neither of whom she names.

Guel has been a broadcast licensee since 2005. He was the 100% owner of HCCN, which applied for and bought
