**SUPPLEMENTARY INFORMATION:** The Point-of-Contact (POC), system manager and routine uses are being modified in this “Individuals Submitting Invoices Vouchers for Payment and Accounting Transactional Data-VA” (13VA047), along with some changes to covered systems. Individuals Submitting Invoices-Vouchers for Payment and Accounting Transactional Data-VA is a VA-wide financial management system of records utilized in VA’s IT accounting systems for payment of benefits, vendor payments, invoice payment processing, payroll purposes, and acquisition records pertinent to maintaining acquisition methods, costs and processes. Information is collected from recipients, vendors, VA administrations, medical centers, and other Federal entities for rendering payment. This includes information on businesses and persons as a business conducting business with VA. Business/person’s names may be duplicative requiring another method to ensure the correct business/person is identified. Data Universal Numbers (DUNs), Unique Entity Identifiers (UEI) and/or Tax Identification Numbers (TINs) or Employment Identification Numbers (EIN) are used by businesses. In some cases, persons will use their social security number (SSN) as the TIN.

Additional Routine Uses were added based on revised guidelines to A–108 and updated standards for agency breach notification. Moreover, VA must be able to provide its own initiative information that pertains to a violation of laws to law enforcement authorities in order for them to investigate and enforce those laws. Under 38 U.S.C. 5701(a) and (f), VA may only disclose the names and addresses of veterans and their dependents to Federal entities with law enforcement responsibilities. This is distinct from the authority to disclose records in response to a qualifying request from a law enforcement entity, as authorized by Privacy Act subsection 5 U.S.C. 552a(b)(7). VA will administer financial and transactional information through benefit disbursement consuming HIPPA related data thus amending the routine uses to include: 14. Federal Agencies, Hospitals, for Referral by VA.; 15. Non-VA Doc, for Referral to VA; 25. Claims Representatives; and 26. Third Party, for Benefit or Discharge. Location of the system of records is a notable change to being stored, managed, and secured within a momentum cloud application. Numerical order of routine uses from original SORN listing to revised version is amended to the below agency standardized format including the first ten routine uses:

1. Congress.
2. Data breach response and remedial efforts.
3. Data breach response and remedial efforts with another Federal agency.
4. Law Enforcement.
5. Litigation.
6. Contractors.
7. EEOC.
8. FLRA.
9. MSPI.
10. NARA & GSA.

In accordance with 38 U.S.C. 5723, VA will ensure that the Assistant Secretary for Information and Technology, in coordination with the Under Secretaries, Assistant Secretaries, and other key officials of the Department report to Congress, the Office of Management and Budget, and other entities as required by law and this section of the regulation to cooperate with notify and cooperate with officials other than officials of the Department of
