Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2023–0089]

Entry-Level Driver Training: Application for Exemption; Alaska’s Ice Road Driving School

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition; denial of application for exemption.

SUMMARY: FMCSA announces its decision to deny the application from Alaska’s Ice Road Driving School requesting an exemption from certain portions of the behind-the-wheel (BTW) entry-level driver training (ELDT) requirements for driver trainees. The applicant explained that because of the unique road system and challenging terrain in Alaska, it is difficult to adhere to the driver training regulations, and further explained that the road configurations lead to only a few major established safe road systems in Alaska. The applicant believes that the road skills test for a Commercial Driver’s License (CDL) applicant can safely be administered by the State test examiner because set routes can be established and approved without the CDL applicant completing certain portions of the mandatory BTW training. FMCSA analyzed the application and determined that the exemption would not likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption, and the regulatory provision from which the exemption is granted. The notice must also specify the effective period (up to 5 years) and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Background

Current Regulatory Requirements

Under 49 CFR 383.3(e) the State of Alaska may waive certain knowledge and skills tests requirements and issue restricted CDLs, subject to certain conditions. To be eligible for a restricted CDL under 49 CFR 383.3(e), which is not valid outside Alaska, drivers must operate exclusively over roads that are not connected to the State highway system and are not connected to any highway or vehicular way with an average daily traffic volume greater than 499 (§ 383.3(e)(2)).
