Notice of Proposed Withdrawal and Public Meeting, New Mexico

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: At the request of the Bureau of Land Management (BLM) and subject to valid existing rights, the Secretary of the Interior proposes to withdraw 4,212.98 acres of public lands from location and entry under the United States mining laws, from leasing under the mineral leasing laws, and from disposal of minerals under the Materials Act of 1947, for up to a 50-year term. This notice segregates the lands for up to two years from location and entry under the United States mining laws, from leasing under the mineral leasing laws, and from disposal of mineral materials, subject to valid existing rights; initiates a 90-day public comment period on the proposed withdrawal; and notifies the public that one public meeting will be held regarding the application.

DATES: Comments and requests for additional public meetings must be received by December 19, 2023. In-person public meeting regarding the withdrawal application will be held on November 14, 2023, from 5:30–7:30 p.m. at the Placitas Library, 453 Highway 65, Placitas, New Mexico 87043.

ADDRESSES: All comments should be mailed to: Bureau of Land Management Rio Puerco Field Office, Attn: Placitas Withdrawal, 100 Sun Avenue, Suite 330, Albuquerque, NM 87109.

FOR FURTHER INFORMATION CONTACT:

Laura Gray, BLM Rio Puerco Field Office, (505) 761-8918 or lgray@blm.gov during regular business hours, 8:00 a.m. to 4:30 p.m. Mountain Time, Monday through Friday, except holidays. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or Tele Braille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. A map and other information related to the withdrawal application are available at the Bureau of Land Management Rio Puerco Field Office, 100 Sun Avenue, Suite 330, Albuquerque, NM 87109. Details regarding this project are also available for review on the BLM e-Planning website <https://eplanning.blm.gov/eplanning-ui/project/2026585/510>.

SUPPLEMENTARY INFORMATION: The BLM has filed a petition/application requesting the Secretary of the Interior withdraw public lands situated within the boundaries of the area described below, known as the Placitas area.

The purpose of the proposed withdrawal is to protect, preserve, and promote the scenic integrity, cultural importance, recreational values, and wildlife habitat connectivity within the Placitas area. The proposed withdrawal area's landscape character and scenic integrity are characterized by intact conifer woodland, pinyon-juniper woodland, and savanna with minimal visual disruption. One tract is remote and characterized by moderately steep slopes with pinon and juniper trees intermixed with shrubs and sparse grasses, offering panoramic views of the Sandia Mountains and middle Rio Grande Valley.

The land is considered ancestral and sacred to the Pueblos of San Felipe and Santa Ana and is rich in archaeological resources that span thousands of years of human history. The four parcels are in a natural, scenic setting with easy proximity to a major metropolitan area, which makes the location popular for dispersed recreational activities such as hiking, horseback riding, dispersed camping, hunting, shooting, sightseeing, mountain biking, and off-road driving.

Additionally, the area has been identified as a priority wildlife linkage between the Sandia Mountains and mountain ranges to the north for big game species including deer, elk, bear, and cougar. Withdrawal of this area is

desirable for the promotion of habitat connectivity.

Existing uses of the public lands may continue in accordance with their terms and conditions. Temporary uses that may be permitted during the segregation period are leases, licenses, permits, rights-of-way, and other uses consistent with the October 1992 Rio Puerco Resource Management Plan, as amended.

Tract 38.

The area aggregates 4,212.98 acres.

The Secretary approved the BLM's petition. Therefore, it constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1-3(e)).

The use of a right-of-way, interagency agreement, or cooperative agreement would not adequately constrain mineral location and surface entry, which could adversely affect ongoing management activities, resulting in land use conflicts as well as irretrievable loss of natural resources.

Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature that would not significantly impact the values to be protected by the requested withdrawal may be allowed with the approval of the authorized officer of the BLM during the temporary segregation period.

For a period until December 19, 2023, persons who wish to submit comments, suggestions, or objections related to the withdrawal application may present their views in writing to the **ADDRESS** listed above.
