Need and Use of the Information: FSIS will collect information using focus groups to test new labels for safe handling of raw and partially cooked meat and poultry products. In Phase 1, new label designs will initially be tested in consumer focus groups to obtain qualitative feedback on the labels, and the findings will be used to refine the label design and messaging. FSIS is requesting approval for a new information collection to conduct Phase 1, consumer focus groups. If the information was not collected or collected less frequently it would reduce the effectiveness of the meat and poultry inspection program.

SUPPLEMENTARY INFORMATION:

Purpose: USDA seeks public input on its plans for enhancing policy, infrastructure, and outreach to make results of the research it funds more readily available and accessible by the public.

Background: USDA developed a public access plan in response to the February 22, 2013 OSTP memorandum entitled "Increasing Access to the Results of Federally Funded Scientific Research" and several White House memoranda. Current USDA policy and activities were developed from that original plan. On August 25, 2022, OSTP issued a new public access memorandum: "Ensuring Free, Immediate, and Equitable Access to Federally Funded Research." In response to OSTP's 2022 memo, USDA will enhance policy, infrastructure, and outreach to make its scientific data and publications more readily available and accessible by the public, as described generally in the new plan, which can be viewed at: <https://www.nal.usda.gov/services/public-access/>. This listening effort, organized by the National Agricultural Library on behalf of the USDA Office of the Chief Scientist, allows stakeholders the opportunity to provide feedback on USDA's plan and to inform details of its policy-making and other implementation. The USDA Public Access plan and policies apply to the results of research funded wholly or in part by any USDA component agency. USDA provides the questions listed below to prompt feedback and comments. USDA encourages public

comment on any or all of these questions, and also seeks any other information that commenters believe is relevant. The questions to enhance public access of USDA-funded research outcomes are:

- How can USDA best implement its plans to improve public access to USDA-funded research results?
- How can USDA update or refine its policies to improve public access to USDA-funded research results?
- How can USDA ensure equity in publication opportunities?
- How can USDA use partnerships to improve public access and accessibility to results of USDA-funded research?
- How can USDA monitor impacts on communities impacted by its public access policies?

Done at Washington, DC.

Simon Liu,

Administrator, Agricultural Research Service, U.S. Department of Agriculture.
