

include a(n): District Organization; Indian Tribe or a consortium of Indian Tribes; State, county, city, or other political subdivision of a State, including a special purpose unit of a state or local government engaged in economic or infrastructure development activities or a consortium of political subdivisions; Institution of Higher Education or a consortium of institutions of higher education; or Public or private non-profit organization

or association, including labor unions, acting in cooperation with officials of a political subdivision of a State. Additionally, training providers and participants in regional workforce training systems will be affected.

Estimated Number of Respondents: System Lead Entities: 32 respondents, responding semiannually; Training Providers: 200 respondents, responding quarterly; and Participants: 10,000 respondents, responding once. As the

Good Jobs Challenge is a new program, EDA anticipates that these estimates will continue to be further refined based on data determined post-award.

Estimated Time per Response: System Lead Entity: 2 hours; Training Providers: 45 minutes per provider; Participants: 5 minutes.

Estimated Total Annual Burden Hours: 2,728 hours.

Type of respondent (annual)	Number of respondents	Hours per response	Number of responses per year	Total estimated time (hours)
System Lead Entities	32	2	2 (Semiannual)	128
Training Providers	* 400	45 minutes per training provider	4 (Quarterly)	1,200
Participants	* 4,200	5 minutes per participant	4 (Quarterly)	1,400
Total	4,632	2,728

* The number of responses should be considered estimates given the Good Jobs Challenge intended impact. Given investment alignment and program priorities are founded on equity, there could be lower number of stakeholders participating given their efforts to work with individuals most underserved.

Estimated Total Annual Cost to Public: \$161,007 (cost assumes application of U.S. Bureau of Labor Statistics third quarter 2021 mean hourly employer costs for employee compensation for professional and related occupations of \$59.02).

Respondent's Obligation: Mandatory for System Lead Entities and Training Providers.

Legal Authority: The Public Works and Economic Development Act of 1965 (42 U.S.C. 3121 et seq).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that

your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Large Power Transformers From the Republic of Korea: Final Results of Antidumping Duty Changed Circumstances Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On August 9, 2023, the U.S. Department of Commerce (Commerce) published the initiation and preliminary results of the changed circumstances review (CCR) of the antidumping duty (AD) order on large power transformers (LPTs) from the Republic of Korea (Korea). For these final results, Commerce continues to find that HD Hyundai Electric Co., Ltd. (HDHE) is the successor-in-interest to Hyundai Electric & Energy Systems Col, Ltd. (HEES) in the context of the AD order on LPTs from Korea. Furthermore, HDHE is entitled to the AD cash deposit rate assigned to HEES with respect to entries

of subject merchandise in the above-referenced proceeding.

DATES: Applicable September 26, 2023.

FOR FURTHER INFORMATION CONTACT: John K. Drury, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-0195.

SUPPLEMENTARY INFORMATION:

Background

On August 9, 2023, Commerce published the initiation and preliminary results of this CCR, finding that HDHE is the successor-in-interest to HEES, and should be assigned the same AD cash deposit rate assigned to HEES in the AD order on large power transformers from Korea.¹ In the *Initiation and Preliminary Results*, interested parties were provided an opportunity to comment and to request a public hearing regarding our preliminary findings. HDHE submitted comments agreeing with our preliminary findings, and we received no other comments from interested parties.² Additionally, we received no requests for a hearing from interested parties.

Scope of the Order

The products covered by the order are LPTs from Korea. For a full description of the scope of the order, see the *Initiation and Preliminary Results*.³

Final Results of Changed Circumstances Review

For the reasons stated in the *Initiation and Preliminary Results*, and because we received no comments from interested parties to the contrary, Commerce continues to find that HDHE is the successor-in-interest to HEES for purposes of the AD order on large power transformers from Korea. As a result of this determination, HDHE is entitled to the same AD cash deposit rate as HEES with respect to entries of subject merchandise in the above-noted proceeding. As there are no changes from the *Initiation and Preliminary Results*, there is no decision memorandum accompanying this notice and the determination in the *Initiation and Preliminary Results* is hereby adopted as the final results of this CCR.

¹ See *Large Power Transformers from the Republic of Korea: Initiation and Preliminary Results of Antidumping Duty Changed Circumstances Review*, 88 FR 53866 (August 9, 2023) (*Initiation and Preliminary Results*), and accompanying Preliminary Decision Memorandum (PDM).

² See HDHE's Letter, "Case Brief," dated August 16, 2023.

³ See *Initiation and Preliminary Results* PDM.

Commerce will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of subject merchandise produced or exported by HDHE and entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register** at the current AD cash deposit rate on LPTs in effect for HEES. These cash deposit requirements shall remain in effect until further notice.

Administrative Protective Order

This notice serves as a final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is published in accordance with sections 751(b)(1) and 777(i)(1) and (2) of the Tariff Act of 1930, as amended, and 19 CFR 351.216(e) and 351.221(b).

Dated: September 20, 2023.

Lisa W. Wang,

Assistant Secretary for Enforcement and Compliance.

SUPPLEMENTARY INFORMATION:

I. Abstract

The President's Proclamation on Steel Safeguards mandated that the Departments of Commerce and Treasury institute an import licensing system to facilitate the monitoring of certain steel imports in 2002. In 2005, Commerce enacted regulations that implemented the Steel Import Monitoring and Analysis (SIMA) System and expanded on the licensing system for steel that was part of those safeguards. Most recently, in October 2020, Commerce modified its SIMA regulations to require that steel import license applicants identify the country of melt and pour as an additional field on the steel import license application and expanded the licensing requirement to apply to all steel products.

The import license information is necessary to assess import trends of steel products. In order to effectively monitor steel imports, Commerce must collect and provide timely aggregated summaries about the imports. The Steel Import License is the tool used to collect the necessary information. The Census Bureau currently collects import data and disseminates aggregate information about steel imports. However, the time required to collect, process, and disseminate this information through Census can take up to 90 days after importation of the product, giving interested parties and the public far less time to respond to injurious sales.
