DEPARTMENT OF THE INTERIOR

Bureau of Safety and Environmental Enforcement

[Docket ID BSEE-2023-0013; EEEE500000 234E1700D2 ET1SF0000.EAQ000; OMB Control Number 1014-0034]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Renewable Energy and Alternate Uses of Existing Facilities on the Outer Continental Shelf

AGENCY: Bureau of Safety and Environmental Enforcement, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Bureau of Safety and Environmental Enforcement (BSEE) proposes to renew an information collection with revisions.

DATES: Interested persons are invited to submit comments on or before October 27, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Please provide a copy of your comments to Nikki Mason, BSEE ICCO, 45600 Woodland Road, Sterling, VA 20166; or by email to nikki.mason@bsee.gov. Please reference OMB Control Number 1014-0034 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Nikki Mason by email at nikki.mason@bsee.gov, or by telephone at (703) 787-1607.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may

also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A Federal Register notice with a 60-day public comment period soliciting comments on this collection of information was published on July 13, 2023 (88 FR 44834). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: BSEE will use the information to oversee facility design,

fabrication, installation, and safety management systems; ensure the safety of operations, including inspection programs and incident reporting and investigations; enforce compliance with all applicable safety, environmental, and other laws and regulations through enforcement actions (such as noncompliance notices, cessation orders, and certain lease suspensions); and oversee decommissioning activities. These responsibilities include enforcement provisions under the existing part 285 subpart D, various information submittal requirements under subpart F, as well as provisions governing activities conducted under an approved plan, including the design, construction, operation, and decommissioning of facilities under subparts G, H, and I. The requirements for and standards of review regarding the Facility Design Report (FDR) and Facility Fabrication and Installation Report (FIR) are unchanged: the FDR and FIR will continue to be evaluated for consistency with the Construction and Operations Plan (COP) and applicable engineering standards. Decommissioning requirements related to rights-of-use and easement for alternate uses of existing OCS facilities (Alternate Use RUE) have also been transferred from the existing subpart J to part 285.

BSEE assumes the responsibility for ordering a lease or grant suspension when continued activities pose an imminent threat of serious or irreparable harm or damage to natural resources, life, property, the marine coastal, or human environment, or sites, structures, or objects of historical or archaeological significance. BSEE may also order a suspension when necessary to comply with a judicial decree. Under the rule, BSEE also assumes authority to issue cessation orders to address noncompliance on the part of the grantee or lessee.

The Department does not issue Suspensions for Alternate Use RUEs upon the grantee’s request, but only by order. BOEM will retain authority to order suspensions required for National security, and BSEE will assume authority to order suspensions to address a threat of harm from continued operations. Either bureau may order a suspension when necessary to comply with a judicial decree. BSEE will order suspensions when operations are halted on the existing facility and BSEE determines continuation of the alternate use is unsafe or causes undue interference with the facility.

Part 285 subpart D, Lease and Grant Administration, includes the authority to issue notices of noncompliance

(NONCs) and cessation orders, and to pursue civil penalties and recommend criminal penalties. BSEE assumes authority for oversight and enforcement of the design, construction, operation, and decommissioning phases of offshore wind development, as well as enforcement of requirements related to Alternate Use RUEs.

This ICR includes a new form: Form BSEE-1835, *Notification of Noncompliance* (NONC).

BSEE will use the information to determine that respondents have corrected all Notifications of Noncompliance (NONCs) identified during inspections. Everything on the NONC form is filled out by a BSEE inspector/representative. The only thing industry does with this form is sign the document upon receipt and respond to BSEE when each NONC has been corrected. Dependent on the severity of the non-compliance identified by the BSEE inspector, the responses are assigned different intervals and are described in the form table titled Enforcement Timeline:

- 1—At Time of Inspection
 - 14—Within 14 Days
 - 30—Within 30 Days
 - 50—Prior to Returning to Service/ Operation
 - 60—Prior to Next Scheduled Maintenance
 - 70—During Next Scheduled Maintenance
 - 80—Prior to Next scheduled Audit
 - 90—During Next Scheduled Audit.
- Title of Collection:* 30 CFR part 285, Renewable Energy and Alternate Uses of Existing Facilities on the Outer Continental Shelf.
OMB Control Number: 1014-0034.
Form Number: Form BSEE-1835,
Notice(s) of Noncompliance.
Type of Review: Revision of a currently approved collection.
Respondents/Affected Public: Primary respondents comprise Federal OCS companies that submit unsolicited proposals or responses to **Federal Register** notices; or are lessees, designated operators, and ROW or RUE grant holders. Other potential respondents are companies or state and

local governments that submit information or comments relative to alternative energy-related uses of the OCS; certified verification agents (CVAs); and surety or third-party guarantors.

Total Estimated Number of Annual Respondents: Currently there are approximately 47 Lessees in the OCS. Not all the potential respondents will submit information in any given year, and some may submit multiple times.

Total Estimated Number of Annual Responses: 103.

Estimated Completion Time per Response: Varies from 30 minutes to 6,000 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 8,908

Respondent's Obligation: Responses are mandatory and are required to obtain or retain a benefit.

Frequency of Collection: generally occasional or annual.

Total Estimated Annual Nonhour Burden Cost: \$1,908,000.

[Investigation No. 731–TA–893 (Fourth Review)]

Honey From China; Determination

On the basis of the record ¹ developed in the subject five-year review, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that revocation of the antidumping duty order on honey from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted this review on March 1, 2023 (88 FR 12992) and determined on June 5, 2023 that it would conduct an expedited review (88 FR 44841, July 13, 2023).

The Commission made this determination pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determination in this review on September 22, 2023. The
