

² Best abundance estimate. For most taxa, the best abundance estimate for purposes of comparison with take estimates is considered here to be the model-predicted abundance (Roberts *et al.*, 2016). For those taxa where a density surface model predicting abundance by month was produced, the maximum mean seasonal abundance was used. For those taxa where abundance is not predicted by month, only mean annual abundance is available. For Rice's whale and killer whale, the larger estimated SAR abundance estimate is used.

³ Includes 3 takes by Level A harassment and 47 takes by Level B harassment.

⁴ Modeled exposure estimate less than assumed average group size (Maze-Foley and Mullin, 2006)

Based on the analysis contained herein of LLOG's proposed survey activity described in its LOA application and the anticipated take of marine mammals, NMFS finds that small numbers of marine mammals will be taken relative to the affected species or stock sizes (*i.e.*, less than one-third of the best available abundance estimate) and therefore the taking is of no more than small numbers.

Authorization

NMFS has determined that the level of taking for this LOA request is consistent with the findings made for the total taking allowable under the incidental take regulations and that the amount of take authorized under the LOA is of no more than small numbers. Accordingly, we have issued an LOA to LLOG authorizing the take of marine mammals incidental to its geophysical survey activity, as described above.

Dated: September 21, 2023.

Catherine Marzin,

*Acting Director, Office of Protected Resources,
National Marine Fisheries Service.*

National Oceanic and Atmospheric Administration

[RTID 0648-XD397]

South Atlantic Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The South Atlantic Fishery Management Council (Council) will hold a meeting of its Executive Committee via webinar to discuss the Council budget and workplan.

DATES: The meeting will be held from 1 p.m. until 3 p.m. on Tuesday, October 24, 2023.

ADDRESSES: The meeting will be held via webinar. Webinar registration is required. Details are included in

SUPPLEMENTARY INFORMATION.

FOR FURTHER INFORMATION CONTACT: Kim Iverson, Public Information Officer,

SAFMC; phone: (843) 302-8440 or toll free: (866) SAFMC-10; fax: (843) 769-4520; email: kim.iverson@safmc.net.

SUPPLEMENTARY INFORMATION: Meeting information, including the webinar registration link, online public comment form, agenda, and briefing book materials will be posted on the Council's website at: <https://safmc.net/council-meetings/>. Comments become part of the Administrative Record of the meeting and will automatically be posted to the website and available for Council consideration.

At this meeting, the Council's Executive Committee will review the 2023 Council budget status, planned activities for 2023, and the draft 2024 operating budget including priorities for potential additional funds available through the Inflation Reduction Act. The meeting will include a closed session to discuss personnel topics.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **ADDRESSES**) 5 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 22, 2023.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[RTID 0648-XD401]

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 82 South Atlantic Gray Triggerfish Assessment Webinar 7.

SUMMARY: The SEDAR 82 assessment of the South Atlantic stock of gray triggerfish will consist of a data workshop, a series of assessment webinars, and a review workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 82 South Atlantic Gray Triggerfish Assessment Webinar 7 is scheduled for October 18, 2023, from 11 a.m. to 3 p.m., Eastern. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Registration for the webinar is available by contacting the SEDAR coordinator via email at Meisha.Key@safmc.net.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT: Meisha Key, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone (843) 571-4366; email: Meisha.Key@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for

determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the SEDAR 82 South Atlantic Gray Triggerfish Assessment Webinar 7 are as follows: Discuss any leftover data issues that were not cleared up during the data process, answer any questions that the analysts have, and discuss model development and model setup.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see **ADDRESSES**) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

Patent and Trademark Office

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; DOCX Submission Requirements

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comments on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** (88 FR 37039) on June 6, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comment.

Agency: United States Patent and Trademark Office, Department of Commerce.

Title: DOCX Submission Requirements.

OMB Control Number: 0651–New.

Needs and Uses: On August 3, 2020, the USPTO published a final rule in the **Federal Register** that included a new fee set forth in 37 CFR 1.16(u). See *Setting and Adjusting Patent Fees in Fiscal Year 2020*, 85 FR 46932. Although that final rule indicated the new fee at § 1.16(u) would go into effect on January 1, 2022, the effective date of the new fee was delayed to give applicants more time to adjust to filing patent applications in the DOCX format.

As specified in § 1.16(u), the fee is due for any application filed under 35 U.S.C. 111 for an original patent—except design, plant, or provisional applications—where the specification, claims, and/or abstract do not conform to the USPTO requirements for submission in the DOCX format. Therefore, the fee is due for nonprovisional utility applications filed

under 35 U.S.C. 111, including continuing applications, that are not filed in the DOCX format.

The USPTO conducted two pilot programs for filing applications in the DOCX format. The eMod Text Pilot Program was conducted between August 2016 and September 2017. The USPTO then expanded the ability to file patent applications in the DOCX format in EFS–Web to all users in September 2017. In 2018, the USPTO launched the Patent Center and conducted the Patent Center Text Pilot Program from June 2018 through April 2020. All applicants have been able to file applications in the DOCX format in the Patent Center since April 2020. Information about the Patent Center is available at www.uspto.gov/PatentCenter. The USPTO continues to hold many discussions and training sessions with stakeholders to ensure a fair and reasonable transition to the DOCX format. In addition, to further ensure a fair and reasonable transition to the DOCX format, the USPTO has, since April 2022, provided patent applicants with the option to submit a back-up applicant-generated PDF version of the application along with the DOCX file(s) when filing an application in Patent Center. See *Extension of the Option for Submission of a PDF With a Patent Application Filed in DOCX Format*, 88 FR 37036 (Jun. 6, 2023).

The items in this new information collection relate solely to the impacts of the § 1.16(u) non-DOCX filing surcharge fee on the filing of nonprovisional utility applications under 35 U.S.C. 111, including continuing applications. In particular, this new information collection accounts for the § 1.16(u) non-DOCX filing surcharge fee itself, as well as an additional 30 minutes of time to accommodate (i) the extra review that some respondents may undertake as they start to become more familiar with the DOCX format and (ii) submission of the back-up applicant-generated PDF that some respondents will opt to submit.

The estimated volumes for the items in this new information collection are based on the estimates for the corresponding nonprovisional utility applications filed under 35 U.S.C. 111, including continuing applications, that are covered under an existing OMB clearance (0651–0032; Initial Patent Applications). Respondents for the items in the new information collection will either take an extra 30 minutes to file their applications in DOCX format or they will pay the non-DOCX surcharge, they will not do both.

Form Numbers: None.

Type of Review: New.
