

(expiration date 9/30/26). The Food Programs Reporting System is the Federal system State agencies use to report FNS Program data to FNS. Therefore, this information collection estimates burden hours associated with P-EBT that are above the currently approved hours in 0584–0594 for forms FNS–292B, FNS–366A, and SF–425 for normal Program operations.

In order to determine eligibility and benefit levels for P-EBT, State agencies must collect data from schools, including lists of students that have been determined eligible for free and reduced price meals. This information is used to determine the benefit levels children are eligible to receive, which will vary depending on the FY of the approved plan. Per Public Law 117–2, during the summer months all children eligible for free or reduced price meals that are enrolled in schools that participate in the National School Lunch Program are considered eligible for P-EBT. This requires all schools to provide the State agency with a list of children who have been determined eligible for free and reduced price meals.

FNS will provide funding to each State's SNAP State agency for 100% of P-EBT-related school level

administrative costs. Such funding will be available for the necessary, allowable, and reasonable State agency costs associated with the administration of P-EBT incurred during FY 2020–2023. In order to receive this funding, schools must report to their State agency on the school level costs incurred to administer P-EBT.

This submission seeks OMB approval of this revision to an existing collection (OMB Control #0584–0660, expiration 11/30/2023) for activities associated with administering P-EBT.

The currently approved burden for this collection is 3,684,928 burden hours. Because the majority of State and territories are expected to have completed normal issuance of benefits by November 30, 2023, FNS estimates the new burden at 20,109 burden hours, which is a decrease of approximately 3,664,849 hours. Only one State has an approved plan that entails data collection and eligibility verification from schools past November 30, 2023; the burdens of the remaining States past this date are only for monthly reporting of benefit issuances due to contingencies or corrections.

The currently approved total annual responses are 10,379,211; we are requesting 20,109, which is a decrease of 10,359,102 total annual responses.

*Affected Public:* State Government, Schools, Individual/Households. Respondents include State agencies (including District of Columbia, and Territories), schools, and participants.

#### **A. Program Description**

1. *Purpose of the Program.* The CY 2022 Disaster CRTA Grants Program is designed to award funding to qualified organizations that will provide technical assistance on a national basis to water, wastewater, stormwater, and solid waste systems in rural areas with populations of up to 35,000. Grant funds must be used to support water infrastructure systems damaged by Presidentially declared disasters in CY 2022. Eligible uses of funds include providing on-site technical assistance to support post-disaster mitigation of eligible events, to identify and evaluate solutions to water, wastewater, stormwater, and solid waste challenges, help communities develop and prepare applications for water and waste loans and grants, deliver training and other resources to operators, managers, and other system personnel, and pay certain expenses associated with the provision of such services. For the most current list of Presidentially declared disasters, visit the United States (U.S.) Department of Homeland Security, Federal Emergency Management Agency (FEMA) website at: <https://www.fema.gov/disaster/declarations>.

2. *Statutory and Regulatory Authority.* The CY22 CRTA Grants Program is authorized pursuant to section 306(a)(22) of the *Consolidated Farm and Rural Development Act* (Pub. L. 87-128); Division N of the *Consolidated Appropriations Act, 2023* (Pub. L. 117-328); and 2 CFR parts 200 and 400, *Uniform and Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. This program is implemented under the provisions of 7 CFR 1775, *Technical Assistance Grants, Subpart A, General Provisions*, and B, *Grant Application Processing*, and this NOFO. *Affiliated Organization.* A company that is related to another company, usually by being in the position of a member or a subordinate role (must be verified by organizational documentation). Two companies may be affiliated if one company has control over the other or if both are controlled by a third company. The population of the community is as adjusted by the exclusion of individuals incarcerated on a long-term or regional basis, and the exclusion of the first 1,500 individuals who reside in housing located on a

military base. The area to be served may be made up of combinations of these eligible areas. If the applicable population figure cannot be obtained from the most recent decennial Census, RUS will determine the applicable population figure based on available population data. Facilities receiving technical assistance under this grant program may be located in non-rural areas. However, funds may be used to benefit only that portion of the facility serving rural areas, regardless of facility location.

Tool (which is incorporated into the USDA look-up map) which identifies communities burdened by climate change and environmental injustice. Additionally, all communities within the boundaries of Federally Recognized Tribes and Alaska Native Villages will also be determined to be Disadvantaged Communities by the Agency. A Distressed Community will be determined by the Agency by using the Economic Innovation Group's Distressed Communities Index (which is incorporated into the USDA look-up map), which uses several socio-economic measures to identify communities with low economic well-being. Each application will receive a score based on the averages of the reviewers' scores and discretionary points awarded by the RUS Administrator. RUS reserves the right to request additional information once an application is determined to be complete to minimize the risk of duplication of other federal efforts.

(c) Applications will be ranked, and grants awarded based upon the scoring results and funding availability. RUS reserves the right to offer the applicant less than the grant funding requested. At RUS's discretion, projects scoring too low may not be awarded funding even if funding remains available.

(d) Regardless of the score an application receives, if RUS determines that the project is technically infeasible, RUS will notify the applicant, in

writing, and no further action will be taken.

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

*Whereas*, the Foreign-Trade Zones (FTZ) Act provides for “. . . the establishment . . . of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes,” and authorizes the Board to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs and Border Protection ports of entry;

*Whereas*, the Board adopts the findings and recommendations of the examiner’s report, and finds that the requirements of the FTZ Act and the Board’s regulations would be satisfied if

#### Order Renewing Temporary Denial of Export Privileges; UTair Aviation JSC, Khanty-Mansiysk Airport, Tyumen Region, Russia 628012

Pursuant to section 766.24 of the Export Administration Regulations, 15 CFR parts 730–774 (“EAR” or “the Regulations”),<sup>1</sup> I hereby grant the request of the Office of Export Enforcement (“OEE”) to renew the temporary denial order (“TDO”) issued in this matter on October 3, 2022. I find that renewal of this order is necessary in the public interest to prevent an imminent violation of the Regulations and that renewal for an extended period is appropriate because UTair Aviation JSC (“UTair”) has engaged in a pattern of repeated, ongoing and/or continuous apparent violations of the EAR.

#### I. Procedural History

On April 7, 2022, I signed an order denying UTair’s export privileges for a period of 180 days on the ground that issuance of the order was necessary in

<sup>1</sup> On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which includes the Export Control Reform Act of 2018, 50 U.S.C. 4801–4852 (“ECRA”). While section 1766 of ECRA repeals the provisions of the Export Administration Act, 50 U.S.C. App. 2401 *et seq.* (“EAA”), (except for three sections which are inapplicable here), section 1768 of ECRA provides, in pertinent part, that all orders, rules, regulations, and other forms of administrative action that were made or issued under the EAA, including as continued in effect pursuant to the International Emergency Economic Powers Act, 50 U.S.C. 1701 *et seq.* (“IEEPA”), and were in effect as of ECRA’s date of enactment (August 13, 2018), shall continue in effect according to their terms until modified, superseded, set aside, or revoked through action undertaken pursuant to the authority provided under ECRA. Moreover, section 1761(a)(5) of ECRA authorizes the issuance of temporary denial orders. 50 U.S.C. 4820(a)(5).

the public interest to prevent an imminent violation of the Regulations. The order was issued *ex parte* pursuant to section 766.24(a) of the Regulations and was effective upon issuance.<sup>2</sup> This temporary denial order was subsequently renewed in accordance with section 766.24(d) of the Regulations.<sup>3</sup> The renewal order issued on October 3, 2022 and was effective upon issuance.<sup>4</sup> A second renewal order issued on March 29, 2023 and was also effective upon issuance.<sup>5</sup>

On September 5, 2023, BIS, through OEE, submitted a written request for renewal of the TDO that issued on March 29, 2023. The written request was made more than 20 days before the TDO’s scheduled expiration and, given the temporary suspension of international mail service to Russia, OEE has attempted to deliver a copy of the renewal request to UTair by alternative means in accordance with sections 766.5 and 766.24(d) of the Regulations. No opposition to the renewal of the TDO has been received.

#### II. Renewal of the TDO

##### A. Legal Standard

Pursuant to section 766.24, BIS may issue an order temporarily denying a respondent’s export privileges upon a showing that the order is necessary in the public interest to prevent an “imminent violation” of the Regulations, or any order, license or authorization issued thereunder. 15 CFR 766.24(b)(1) and 766.24(d). “A violation may be ‘imminent’ either in time or degree of likelihood.” 15 CFR 766.24(b)(3). BIS may show “either that a violation is about to occur, or that the general circumstances of the matter under investigation or case under criminal or administrative charges demonstrate a likelihood of future violations.” *Id.* As to the likelihood of future violations, BIS may show that the violation under investigation or charge “is significant, deliberate, covert and/or likely to occur again, rather than technical or negligent[.]” *Id.* A “lack of information establishing the precise

<sup>3</sup> At the time of the renewal, section 766.24(d) provided that BIS may seek renewal of a temporary denial order for additional 180-day renewal periods, if it believes that renewal is necessary in the public interest to prevent an imminent violation. Renewal requests are to be made in writing no later than 20 days before the scheduled expiration date of a temporary denial order.
