DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are required regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by October 30, 2023 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Farm Service Agency

Title: Farm Loan Program (FLP)—Online Loan Application.

OMB Control Number: 0560–NEW.

Summary of Collection: The Farm Service Agency (FSA) is implementing a new Online Loan Application to collect information electronically from the applicants and borrowers. FSA provides loans to family farmers to purchase real estate and equipment and finance agricultural production authorized under the Consolidated Farm and Rural Development Act (CONACT) (7 U.S.C. 1921 and Pub. L. 87–128), as amended. Direct loan making information collection requirements include debt verifications, employment & income verification, and actual financial and production records of the operation.

Need and Use of the Information: FSA is collecting the information that is necessary to thoroughly evaluate the applicant's request for a direct loan to ensure that: the applicant meets the established program eligibility requirements; their cash flow projections used in determining loan repayment are based on the actual financial and production history of the operation and a loan is adequately secured. FSA is mandated to provide supervised credit, failure to collect the information, or collecting it less frequently, could result in the failure of the farm operation or loss of FSA security property. If the information were not collected, or collected less frequently, FSA would be unable to meet the congressionally mandated mission of the loan programs.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 21,610.

Frequency of Responses: Reporting: Other (when applying for loans).

Total Burden Hours: 59,389.

Ruth Brown,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Commercial Transportation of Equines to Slaughter.

OMB Control Number: 0579-0332.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Sections 901-905 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 1901) authorize the Secretary of Agriculture to issue guidelines for regulating the commercial transportation of equines to slaughter by persons regularly engaged in that activity within the United States. Specifically, the Secretary is authorized to regulate the food, water, and rest provided to these equines while the equines are in transit and to review related issues appropriate to ensuring that these animals are treated humanely.

To implement the provisions of this Act, the Animal and Plant Health Inspection Service (APHIS) within the U.S. Department of Agriculture (USDA) has established minimum standards to ensure the humane movement of equines to slaughtering facilities or to assembly points while en route to slaughtering facilities, via commercial transportation. These standards, contained in 9 CFR part 88, require that conveyances protect the health and well-being of the animals and meet certain other criteria; that double-decker conveyances are prohibited; and that access to food, water, and rest be provided to these animals 6 hours prior to shipment. APHIS' regulations also require the application of backtags and completion of owner/shipper certificates of fitness to travel to a slaughtering facility with identification of the animals and details of the transportation and signatures attesting to compliance with the provision of food, rest, and water and to the animal's fitness to travel. The regulations further prohibit the use of electric prods and state aggressive animals must be separated. Any owner/shipper transporting equines to slaughtering facilities outside the United States must present the owner-shipper certificates to USDA representatives at the border.

Implementing these regulations entails the use of information collection activities, such as providing business information; completing owner/shipper certificates of fitness to travel to a slaughtering facility; applying backtags,

as needed; and maintaining records of the owner/shipper certificates and continuation sheets.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.25 hours per response.

Respondents: Owners and shippers of slaughter horses, owners or operators of slaughtering facilities, and drivers of the transport vehicles.

Estimated annual number of respondents: 232.

Estimated annual number of responses per respondent: 69.

Estimated annual number of responses: 16,100

Estimated total annual burden on respondents: 4,049 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 25th day of September 2023.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.
