

(or In-Process Sprouts)”, and a new section entitled “Personnel Qualifications, Training, and Hygienic Practices.” We are issuing these sections for additional comment for the following reasons:

- *Equipment, Tools and Buildings:*

This section has been revised to facilitate alignment with the recommendations in related guidances.

- *Sampling and Testing of Spent Sprout Irrigation Water (or In-Process Sprouts):* We are reissuing this section in draft to receive additional comments and feedback from sprouting operations, which will inform ongoing FDA research on this topic.

- *Personnel Qualifications, Training, and Hygienic Practices:* In the January 2017 draft guidance, many of the recommendations for personnel qualifications, training, and hygienic practices were dispersed throughout, rather than being consolidated in a single section. In the draft guidance, the recommendations are consolidated into a standalone section entitled “Personnel Qualifications, Training, and Hygienic Practices” to ensure that we present the recommendations comprehensively and to facilitate ease of reading.

We welcome comments on any aspect of the draft guidance. We are particularly interested in receiving information about any testing of spent sprout irrigation water or in-process sprouts that sprout operations are currently doing for non-O157 Shiga toxin-producing *Escherichia coli* (STEC), including test kit names (as applicable).

We are finalizing other sections of the January 2017 draft guidance with minor revisions. Changes to the final guidance include: clarifying the recommendations regarding the frequency of cleaning and sanitizing; providing additional recommendations on seed for sprouting, including seed treatment and corrective actions; removing language on voluntary periodic sampling and testing of sprouts, and clarifying our expectations for corrective actions after an operation detects *Listeria* spp. or *Listeria monocytogenes* in an environmental sample. We also received general comments that requested we shorten and simplify the guidance. As a result, we removed section III (“General Sprout Production,” as it appeared in the January 2017 draft guidance) because most of the language in this section was repeated elsewhere. We also made editorial changes to improve clarity and removed certain recommendations based on impracticality. The final guidance consists of the following sections:

- *Cleaning and Sanitizing:*

- *Agricultural Water in Sprouting Operations;*
- *Seeds for Sprouting;*
- *Environmental Monitoring; and*
- *Recordkeeping.*

POSTAL SERVICE

39 CFR Part 111

Ballot Mail Ancillary Service Endorsements

AGENCY: Postal Service™.

ACTION: Proposed rule.

SUMMARY: The Postal Service is proposing to amend *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) to remove Change Service Requested, Option 1, as an ancillary service endorsement option for Ballot Mail.

DATES: Submit comments on or before October 30, 2023.

ADDRESSES: Mail or deliver written comments to the manager, Product Classification, U.S. Postal Service, 475 L’Enfant Plaza SW, Room 4446, Washington, DC 20260–5015. If sending comments by email, include the name and address of the commenter and send to PCFederalRegister@usps.gov, with a subject line of “Ballot Mail Service Endorsements”. Faxed comments are not accepted.

Confidentiality

All submitted comments and attachments are part of the public record and subject to disclosure. Do not enclose any material in your comments that you consider to be confidential or inappropriate for public disclosure.

You may inspect and photocopy all written comments, by appointment only, at USPS® Headquarters Library, 475 L’Enfant Plaza SW, 11th Floor North, Washington, DC 20260. These records are available for review on Monday through Friday, 9 a.m.–4 p.m., by calling 202–268–2906.

FOR FURTHER INFORMATION CONTACT:

Emily Matyas (202) 826–7157 or Garry Rodriguez at (202) 268–7281.

SUPPLEMENTARY INFORMATION: Ancillary service endorsements provide an option for mailers to instruct the Postal Service on how to treat their mail if it is determined to be undeliverable-as-addressed and to request address correction services.

The Postal Service is proposing to revise subsections 507.1.5.1 and 507.1.5.3 to remove the “Change Service Requested”, Option1, ancillary service endorsement as an option for Ballot Mail items. Change Service Requested, Option 1 permits all mailpieces that are undeliverable as addressed to be disposed of and an address correction notice with reason for non-delivery is provided to the mailer. The Election and Government Mail Services group made the policy decision to never allow any identifiable Ballot Mail piece that is undeliverable as addressed to be disposed of by the Postal Service. Instead, Ballot Mail that is undeliverable as addressed must be forwarded to the voter if a Change of Address notice is on file or returned to the election office that sent the Ballot Mail.

The Postal Service is proposing to implement this change effective January 21, 2024.

We believe this proposed revision will provide customers with a more efficient mailing experience.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed revisions to *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM), incorporated by reference in the Code of Federal Regulations. See 39 CFR 111.1.

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes.
