B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

Intramarket Competition. The Exchange believes the proposed change would not impose an undue burden on intramarket competition because the ORF is charged to all ATP Holders on all their transactions that clear in the Customer range at the OCC; thus, the amount of ORF imposed is based on the amount of Customer volume transacted. The Exchange believes that the proposed reduction of the ORF rate and temporary waiver of the ORF would not place certain market participants at an unfair disadvantage because all options transactions must clear via a clearing firm. Such clearing firms can then choose to pass through all, a portion, or none of the cost of the ORF to its customers, *i.e.,* the entering firms. The ORF is collected from ATP Holder clearing firms by the OCC on behalf of NYSE American and is assessed on all options transactions cleared at the OCC in the Customer range. The Exchange also believes recommencing the ORF on January 1, 2024 at $0.0038 (unless the Exchange determines it necessary at that time to adjust the ORF to ensure that ORF collections do not exceed a material portion of ORF Costs) would not impose an undue burden on competition because the proposed decreased rate would apply equally to all ATP Holders subject to ORF and would permit the Exchange to resume assessing an ORF that is designed to recover a material portion, but not all, of the Exchange's projected ORF Costs and the ORF would, as currently, apply to all ATP Holders on their options transactions that clear in the Customer range at the OCC. The Exchange will continue to provide advance notice of changes to the ORF to all ATP Holders via Trader Update to provide ATP Holders with sufficient opportunity to configure their systems to account properly for both the Waiver Period and resumption of ORF at a new, lower rate on January 1, 2024.

Intermarket Competition. The proposed fee change is not designed to address any competitive issues. Rather, the proposed change is designed to help the Exchange adequately fund its regulatory activities while seeking to ensure that total collections from regulatory fees do not exceed total regulatory costs.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A) [14] of the Act and subparagraph (f)(2) of Rule 19b–4 [15] thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B) [16] of the Act to determine whether the proposed rule change should be approved or disapproved.
