

identified in CE B4 of the Companion Manual for NOAA Administrative Order 216–6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Because the only change to the IHAs are the effective dates, the CE on record for issuance of the initial IHAs applies to this action.

Endangered Species Act (ESA)

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA: 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally, in this case with the Alaska Regional Office, whenever we propose to authorize take for endangered or threatened species.

However, no incidental take of ESA-listed species is authorized or expected to result from this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required for this action.

Authorization

NMFS has issued two consecutive IHAs to BNSF for in-water construction activities associated with the specified activity from the date of issuance to July 15, 2024 for Year 1 and from July 16, 2024 to July 15, 2025 for year 2. All previously described mitigation, monitoring, and reporting requirements from the initial IHAs are incorporated.

Dated: October 2, 2023.

Kimberly Damon-Randall,

Director, Office of Protected Resources, National Marine Fisheries Service.

Marine Mammals and Endangered Species

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permits, permit amendments, and permit modifications.

SUMMARY: Notice is hereby given that permits, permit amendments, and permit modifications have been issued to the following entities under the Marine Mammal Protection Act (MMPA) and the Endangered Species Act (ESA), as applicable.

ADDRESSES: The permits and related documents are available for review upon written request via email to NMFS.Pr1Comments@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Erin Markin, Ph.D. (Permit Nos. 23200–02 and 27109), Carrie Hubbard (Permit No. 21485), Jennifer Skidmore (Permit No. 27489), and Shasta McClenahan, Ph.D. (Permit No. 21425–01); at (301) 427–8401.

SUPPLEMENTARY INFORMATION: Notices were published in the **Federal Register** on the dates listed below that requests for a permit, permit amendment, or permit modification had been submitted by the below-named applicants. To locate the **Federal Register** notice that announced our receipt of the application and a complete description of the activities, go to <https://www.federalregister.gov> and search on the permit number provided in Table 1 below.

TABLE 1—ISSUED PERMITS, PERMIT AMENDMENTS, AND PERMIT MODIFICATIONS

Permit No.	RTID	Applicant	Previous Federal Register notice	Issuance date
21425–01	0648–XG297	Point Blue Conservation Science, 3820 Cypress Drive, No. 11, Petaluma, CA 94954 (Responsible Party: Grant Ballard, Ph.D.).	83 FR 64114, December 13, 2018 ...	September 22, 2023.
21485–01	0648–XG288	Jooke Robbins, Ph.D., Center for Coastal Studies, 5 Holway Avenue, Provincetown, MA 02657.	84 FR 4441, February 15, 2019	September 18, 2023.
23200–02	0648–XC219	University of North Carolina, Wilmington, 601 South College Road, Wilmington, NC 28403 (Responsible Party: Frederick Scharf, Ph.D.).	88 FR 52130, August 7, 2023	September 21, 2023.
27109	0648–XD122	Christopher Marshall, Ph.D., Texas A&M University, 200 Seawolf Parkway, Building 3029, Room 253, Galveston, TX 77553.	88 FR 42915, July 5, 2023	September 6, 2023.
27489	0648–XD261	Los Angeles County Museum of Natural History, 900 Exposition Boulevard, Los Angeles, CA 90007 (Responsible Party: Lori Bettison-Varga, Ph.D.).	84 FR 56606, August 18, 2023	September 21, 2023.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activities proposed are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

As required by the ESA, as applicable, issuance of these permit was based on a finding that such permits: (1) were

applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) are consistent with the purposes and policies set forth in Section 2 of the ESA.

Authority: The requested permits have been issued under the MMPA of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine

mammals (50 CFR part 216), the ESA of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226), as applicable.

Dated: October 10, 2023.

Julia M. Harrison,

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Geophysical Surveys Related to Oil and Gas Activities in the Gulf of Mexico

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of modification to expiration date of letter of authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended, its implementing regulations, and NMFS' MMPA Regulations for Taking Marine Mammals Incidental to Geophysical Surveys Related to Oil and Gas Activities in the Gulf of Mexico (GOM), notification is hereby given that NMFS has modified the expiration date of a Letter of Authorization (LOA) issued to CGG for the take of marine mammals incidental to geophysical survey activity in the GOM.

DATES: This LOA is effective through April 7, 2024.

ADDRESSES: The LOA, LOA request, and supporting documentation are available online at: <https://www.fisheries.noaa.gov/marine-mammal-protection/issued-letters-authorization-oil-and-gas-industry-geophysical-survey>. In case of problems accessing these documents, please call the contact listed below (**FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT: Rachel Wachtendonk, Office of Protected Resources, NMFS, (301) 427–8401.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than

commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

An authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth. NMFS has defined “negligible impact” in 50 CFR 216.103 as an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.

Except with respect to certain activities not pertinent here, the MMPA defines “harassment” as: any act of pursuit, torment, or annoyance which: (i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

On January 19, 2021, we issued a final rule with regulations to govern the unintentional taking of marine mammals incidental to geophysical survey activities conducted by oil and gas industry operators, and those persons authorized to conduct activities on their behalf (collectively “industry operators”), in U.S. Federal waters of the GOM over the course of 5 years (86 FR 5322, January 19, 2021). The rule was based on our findings that the total taking from the specified activities over the 5-year period will have a negligible impact on the affected species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of those species or stocks for subsistence uses. The rule became effective on April 19, 2021.

Our regulations at 50 CFR 217.180 *et seq.* allow for the issuance of LOAs to industry operators for the incidental take of marine mammals during geophysical survey activities and prescribe the permissible methods of taking and other means of affecting the least practicable adverse impact on marine mammal species or stocks and their habitat (often referred to as

mitigation), as well as requirements pertaining to the monitoring and reporting of such taking. Under 50 CFR 217.186(e), issuance of an LOA shall be based on a determination that the level of taking will be consistent with the findings made for the total taking allowable under these regulations and a determination that the amount of take authorized under the LOA is of no more than small numbers.

NMFS issued an LOA to CGG on March 24, 2023, for the take of marine mammals incidental to a three-dimensional (3D) ocean bottom node (OBN) survey over approximately 200 lease blocks in the Walker Ridge and Green Canyon areas of the central GOM, effective May 1 through December 31, 2023. Please see the **Federal Register** notice of issuance (88 FR 17819, March 24, 2023) for additional detail regarding the LOA and the survey activity.

CGG initially anticipated that the activity would occur at some point between May 1 and December 31, 2023. CGG subsequently conveyed to NMFS that the survey would occur later than previously expected. CGG has requested modification to the expiration date of the LOA (from December 31, 2023 to April 7, 2024) to accommodate the survey delays. There are no other changes to CGG's planned activity. Since issuance of the LOA, no survey work has occurred.

Authorization

NMFS has changed the expiration date of the LOA from December 31, 2023 to April 7, 2024. There are no other changes to the LOA as described in the March 24, 2023, **Federal Register** notice of issuance (88 FR 17819): the specified survey activity; estimated take by incidental harassment; and small numbers analysis and determination remain unchanged and are herein incorporated by reference.

Dated: October 10, 2023.
