

this PEA to create efficiencies by establishing a “tiering” framework, where appropriate, to project-specific actions that require additional analysis. As decisions on specific project sites are made, to the extent additional NEPA analysis is required, environmental reviews would be conducted to supplement the analysis set forth in the PEA.

The Final PEA and FONSI/ROD are available on the project website (http://www.faa.gov/air_traffic_atf).

Issued in Des Plaines, Illinois, on October 12, 2023.

Aaron W. Comrov,

Environmental Team Lead, FAA CSA ES EOSH Center, AJW-216E.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. FHWA-2023-0041]

Agency Information Collection Activities: Request for Comments for a New Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA invites public comments about our intention to request the Office of Management and Budget’s (OMB) approval for an information collection, which is summarized below under **SUPPLEMENTARY INFORMATION**. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by December 18, 2023.

ADDRESSES: You may submit comments identified by DOT Docket ID Number 0041 by any of the following methods:

Website: For access to the docket to read background documents or comments received go to the Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Fax: 1-202-493-2251.

Mail: Docket Management Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590-0001.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Carlos B. McCloud, (225)-433-2892—carlos.mccloud@dot.gov or David Harris, (202) 366-2825—dave.harris@dot.gov, FHWA Office of Transportation Management (HOTM) USDOT HQ E84-471, 1200 New Jersey Avenue SE, Washington, DC 20590. Office hours are from 8 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

SUPPLEMENTARY INFORMATION:

Title: Strategic Innovation for Revenue Collection (SIRC) Program Grant Application, Agreement, and Project Management.

Background: In adherence with 5 CFR 1320.13, this is a request for approval for an emergency clearance for processing of information related to a new collection of information for the SIRC Program grant application submission and quarterly reporting requirements for FY 2023–2024 program of projects awards. The collection of information will support implementation of Title III—Research, Technology, and Education, Sec. 13001. Strategic Innovation for Revenue Collection (a) and (b) of the Infrastructure Investment and Jobs Act (Pub. L. 117–58 or also referred to as the Bipartisan Infrastructure Law-BIL (see Exhibit A page 12). The Office of the Secretary of Transportation (OST) and the Federal Highway Administration (FHWA) has coordinated on the development of public information to solicit responses to a Notice of Funding Opportunity (NOFO) for the SIRC Program. Awarded funds to eligible applicants will test the feasibility of a road usage fee and other user-based alternative revenue mechanisms (referred to in this section as “user based alternative revenue mechanisms”) to help maintain the long-term solvency of the Highway Trust Fund.

- The information will be received by the FHWA to fulfill the grant application submittal requirements and agreements prescribed in the NOFO.

- The collection of information will include grant application forms and narratives, grant agreements, and project management quarterly reporting.

- The purpose of the collection is to receive information relevant to evaluating applications to the SIRC grant program, per the NOFO, and reporting requirements agreed to by recipients of the Grants.

- The obligation to respond to the collection of information is voluntary and is required to obtain or retain a benefit.

The Strategic Innovation for Revenue Collection (SIRC) Program seeks to fund pilot projects that test the

implementation of user-based alternative revenue mechanisms that utilize a road user fee structure for eligible entities to test the feasibility of the program objectives outlined in Section 133001 (b)(3), as prescribed in Exhibit A of this document. Grant awards test innovative ways to replace or supplement the Federal gas tax to maintain the long-term solvency of the Highway Trust Fund. The collection of information is necessary to receive applications for grant funds, evaluate the effectiveness of projects that have been awarded grant funds, and monitor project financial conditions and project progress pursuant to Section 133001 (b) (3). FY 2023–FY 2024 is the first year of implementation for the SIRC Program. FHWA implemented a similar predecessor program, the Surface Transportation System Funding Alternatives (STSFA) program authorized by section 6020 of the Fixing America’s Surface Transportation (FAST) Act, Public Law 114–94, FY 2016–2021, which was repealed with the passage of BIL. Information about awards funded under the STSFA program is available at: <https://ops.fhwa.dot.gov/stsfa/index.htm>.

FHWA requests information from applicants in the form an electronic application, which will represent 100% of the submissions. The application will assist in soliciting proposals for funding from eligible applicants for the five-year grant program, to monitor the grant program recipients, project progress, assess project outcomes and permit evaluation. The reporting requirements are submitted by recipients and will be completed during the application stage, grant agreement, and the project management stages. FHWA will continue to use the information collected in the application phase to evaluate proposals and make decisions to award grants to applicants for any future similar appropriations. FHWA will use the information to monitor the progress of projects that have been awarded SIRC Program funds, and to monitor the proper expenditure of Federal funds. The project management information will be collected by grant recipients.

Much of the information will be produced and collected through the normal process of project management, so the additional burden of Government information collection is small in comparison to the data management related to information that grant recipients already collect to manage their projects properly. The information collected from grant recipients is project specific and the information is not available other than from the grantees.

The information will be used to monitor projects on a quarterly basis, and to ensure on an annual basis that the project's plan conforms to the project's real operating environment.

All information submitted as part of or in support of any application shall use publicly available data or data that can be made public. If the application includes information the applicant considers to be a trade secret or confidential commercial or financial information, the applicant should do the following: (1) Note on the front cover that the submission "Contains Confidential Business Information (CBI)"; (2) mark each affected page "CBI"; and (3) highlight or otherwise denote the CBI portions. DOT protects such information from disclosure to the extent allowed under applicable law. In the event DOT receives a Freedom of Information Act (FOIA) request for the information, DOT will follow the procedures described in its FOIA regulations at 49 CFR 7.17. Only information that is ultimately determined to be confidential under that procedure will be exempt from disclosure under FOIA. Retention of records will adhere to DOT Order 1351.28 Records Management, 28.4.5 Electronic Records.

The Department will receive application reports electronically via email and via websites from grant awardees upon approval from OMB. Certain agencies within the Department have found that delivery of reports electronically is the most reliable way to collect information and will use their existing grant administration systems to collect the information covered under this request. To minimize the burden on applicants, OMB approved standard forms are being used to collect information where possible. Such standard forms include the Application for Federal Assistance (SF-424), available online at https://apply07.grants.gov/apply/forms/sample/SF424_2_1-V2.1.pdf, and the post-award Federal Financial Reports form (SF-425), available online at https://apply07.grants.gov/apply/forms/sample/SF425_2_0-V2.0.pdf.

If the information requested in the reports is not collected, the Department will not be able to evaluate project progress or financial conditions in accordance with the 23 U.S.C., Bipartisan Infrastructure Law and the Notice of Funding Opportunity (NOFO) for the program published in the **Federal Register**. The quarterly collection of financial data ensures that the use of Federal funds can be appropriately monitored.

Respondents: The primary respondents are the eligible applicants, which includes a State or a group of States, Metropolitan Planning Organization (MPO) or a group of Metropolitan Planning Organizations (as defined in section 134(b) of title 23, United States Code), a local government or a group of local governments.

Frequency: Every year by December 31st.

Estimated Average Burden per Response: The estimated number of hours for each of the 15 recipients (annually based on previous STSFA Program) to compile and submit the requested data is estimated to be no more than 8 employee hours annually.

Estimated Total Annual Burden Hours: The estimated total annual burden for 15 recipients is 120 hours annually.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.

Issued On: October 13, 2023.

Jazmyne Lewis,
Information Collection Officer.

Exhibit A

Section 13001 Strategic Innovation for Revenue Collection

Title III—Research, Technology, and Education Sec. 13001. Strategic Innovation for Revenue Collection

(a) *In General.*—The Secretary shall establish a program to test the feasibility of a road usage fee and other user-based alternative revenue mechanisms (referred to in this section as "user based alternative revenue mechanisms") to help maintain the long term solvency of the Highway Trust Fund, through pilot projects at the State, local, and regional level.

(b) *Grants.*—

(1) *In General.*—The Secretary shall provide grants to eligible entities to carry out pilot projects under this section.

(2) *Applications.*—To be eligible for a grant under this section, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing

such information as the Secretary may require.

(3) *Objectives.*—The Secretary shall ensure that, in the aggregate, the pilot projects carried out using funds provided under this section meet the following objectives: (A) To test the design, acceptance, equity, and implementation of user-based alternative revenue mechanisms, including among—(i) differing income groups; and (ii) rural and urban drivers, as applicable. H.R. 3684–195 (B) To provide recommendations regarding adoption and implementation of user-based alternative revenue mechanisms. (C) To quantify and minimize the administrative costs of any potential user-based alternative revenue mechanisms. (D) To test a variety of solutions, including the use of independent and private third-party vendors, for the collection of data and fees from user-based alternative revenue mechanisms, including the reliability and security of those solutions and vendors. (E) To test solutions to ensure the privacy and security of data collected for the purpose of implementing a user-based alternative revenue mechanism. (F) To conduct public education and outreach to increase public awareness regarding the need for user-based alternative revenue mechanisms for surface transportation programs. (G) To evaluate the ease of compliance and enforcement of a variety of implementation approaches for different users of the surface transportation system. (H) To ensure, to the greatest extent practicable, the use of innovation. (I) To consider, to the greatest extent practicable, the potential for revenue collection along a network of alternative fueling stations. (J) To evaluate the impacts of the imposition of a user-based alternative revenue mechanism on—(i) transportation revenues; (ii) personal mobility, driving patterns, congestion, and transportation costs; and (iii) freight movement and costs. (K) To evaluate options for the integration of a user based alternative revenue mechanism with—(i) nationwide transportation revenue collections and regulations; (ii) toll revenue collection platforms; (iii) transportation network company fees; and (iv) any other relevant transportation revenue mechanisms.

(4) *Eligible Entity.*—An entity eligible to apply for a grant under this section is—(A) a State or a group of States; (B) a local government or a group of local governments; or (C) a metropolitan planning organization (as defined in section 134(b) of title 23, United States Code) or a group of metropolitan planning organizations.

(5) *Use of Funds.*—An eligible entity that receives a grant under this section shall use the grant to carry out a pilot project to address 1 or more of the objectives described in paragraph (3).

(6) *Consideration.*—The Secretary shall consider geographic diversity in awarding grants under this subsection.

(7) *Federal Share.*—The Federal share of the cost of a pilot project carried out under this section may not exceed—H.R. 3684–196.

(A) 80 percent of the total cost of a project carried out by an eligible entity that has not otherwise received a grant under this section; and

(B) 70 percent of the total cost of a project carried out by an eligible entity that has received at least 1 grant under this section.

(c) *Limitation on Revenue Collected.*—Any revenue collected through a user-based alternative revenue mechanism established using funds provided under this section shall not be considered a toll under section 301 of title 23, United States Code.

(d) *Recommendations and Report.*—Not later than 3 years after the date of enactment of this Act, the Secretary, in coordination with the Secretary of the Treasury and the Federal System Funding Alternative Advisory Board established under section 13002(g)(1), shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that—

(1) summarizes the results of the pilot projects under this section and the national pilot program under section 13002; and

(2) provides recommendations, if applicable, to enable potential implementation of a nationwide user-based alternative revenue mechanism.

(e) *Funding.*—(1) *In General.*—Of the funds made available to carry out section 503(b) of title 23, United States Code, for each of fiscal years 2022 through 2026 \$15,000,000 shall be used for pilot projects under this section.

(2) *Flexibility.*—If, by August 1 of each fiscal year, the Secretary determines that there are not enough grant applications to meet the requirements of this section for that fiscal year, the Secretary shall transfer to the national pilot program under section 13002 or to the highway research and development program under section 503(b) of title 23, United States Code—(A) any funds reserved for a fiscal year under paragraph (1) that the Secretary has not yet awarded under this section; and (B) an amount of obligation limitation equal to the amount of funds that the Secretary transfers under subparagraph (A).

(f) *Repeal.*—

(1) *In General.*—Section 6020 of the FAST Act (23 U.S.C. 503 note; Pub. L. 114–94) is repealed.

(2) *Clerical Amendment.*—The table of contents in section 1(b) of the FAST Act (Pub. L. 114–94; 129 Stat. 1312) is amended by striking the item relating to section 6020.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Steven Jessberger, (202) 366 5052/steven.jessberger@dot.gov; Patrick Zhang, (202) 366–1941/patrick.zhang@dot.gov, Department of Transportation, Federal Highway Administration, Office Highway Policy Information, 1200 New Jersey Avenue SE, Washington, DC 20590. Office hours are from 7 a.m. to 4 p.m., Monday through Friday, except Federal Holidays.

SUPPLEMENTARY INFORMATION:

Title: Travel Monitoring Analysis System.

Background and Justification: The purpose of this document is to request OMB's three-year extension for a currently approved information collection titled "Heavy Vehicle Travel Information System (HVTIS)," covered by OMB Control No. 2125–0587. This information collection is due to expire on August 30, 2021. The Travel Monitoring Analysis System (TMAS) is the current system used to collect HVTIS information; therefore, the extension should now be titled Travel Monitoring Analysis System.

Part A. Justification

1. Circumstances That Make the Collection of Information Necessary

23 U. S. Code 150 National Goals and Performance Management Measures requires that the U.S. DOT to establish

a performance management system for its Federal-aid highway program. The Federal Highway Administration (FHWA), U.S. Department of Transportation (DOT) promulgated the performance management via 23 CFR 490: National Performance Management Measures. Traffic data, including volume (# of vehicles and travelers), class (types of vehicles), weight (weight of vehicles), and travel time (speed), are parameters the performance management program relies upon.

The FHWA is planning to continue to collect these traffic data through the TMAS system. To carry out the data collection, the FHWA will request that State Departments of Transportations (SDOTs) provide traffic volume, vehicle classification, vehicle speed, vehicle weight data, and nonmotorized data, which they collect as part of their traffic monitoring programs.

In addition, 23 CFR 1.5 and 49 CFR 1.48 provide the Federal Highway Administrator with authority to request such information deemed necessary to administer the Federal-aid highway program. Traffic data are used for assessing highway system performance under FHWA's strategic planning and performance reporting process in accordance with the requirement of the Government Performance and Results Act (GPRA, Sections 3 and 4).

Finally, both the 23 U. S. Code 503 and the 23 CFR 420.105(b) require States to provide data that support FHWA's responsibilities carrying out the Federal-aid highway program to Congress and the public.

The data to be collected will continue to be used by the FHWA and other DOT agencies to (a) manage its Federal-aid highway program through the performance management mechanism, (b) evaluate changes in vehicular and nonmotorized travel to assess impacts on highway safety, (c) analyze the role of travel in economic development and productivity, (d) assess impacts from truck travel on infrastructure demands, and (e) maintain and improve our Nation's mobility while protecting the human and natural environment.

2. How, by Whom, and for What Purpose Is the Information Used

The data submitted through TMAS will provide the amount and nature of vehicular travel at the national, regional, and state levels. The data also provide information on how vehicular travel pattern varies by hour of the day, day of the week, the month of the year, and year to year.

Data submitted under the TMAS program are essential to the FHWA and the U.S. DOT in determining:
