SUPPLEMENTARY INFORMATION:

I. Abstract

The ESODIS customer satisfaction survey is performed each year (2023 is the 20th collection) under the auspices of NASA HQ as one of their metrics reported to OMB as a part of the Reduction of Paperwork Act. In this survey, the public users of the EOSDIS system (through the 12 Distributed Active Archive Centers—DAACs) are encouraged to answer specific questions that aid NASA discern the overall user satisfaction of its Earth data system. NASA through DOI/FCG contracts the management of this survey to a private survey entity (CFI) so that the respondents are assured the survey and its results are collected in a unbiased manner. The survey has two portions, a general section of questions to understand aspects of the data system the user has engaged with, and a second section that is created by each of the 12 DAACs so that these centers can address specific types of questions for that science domain community.

II. Methods of Collection

The collection of data from our respondents to wholly performed using an on-line, internet-based system that is developed and hosted by CFI.
