SUPPLEMENTARY INFORMATION: The process of closing out a terminated pension plan or other retirement plan involves the disposition of plan assets to satisfy the benefits of plan participants and beneficiaries. One difficulty faced by plan administrators in closing out terminated plans is how to provide for the benefits of missing persons. Section 4050 of ERISA and 29 CFR part 4050 establishes a program under which the Pension Benefit Guaranty Corporation (PBGC) holds the retirement benefits for missing participants and beneficiaries in terminated plans and seeks to reunite those participants and beneficiaries with the benefits being held for them. The program is applicable to certain defined benefit (DB) pension plans covered by PBGC's single-employer or multiemployer insurance programs, and to defined contribution (DC) plans and small professional service DB plans not covered by PBGC's insurance programs.

The Missing Participant Program (MPP) for each of the four types of plans follows the same basic design. The most prominent difference among them lies in the mandatory or voluntary nature of the program. For plans covered by the title IV insurance programs, participation in the MPP is mandatory. For plans not covered by the title IV insurance programs, PBGC's regulation permits, but does not require, such plans to participate in the MPP.

PBGC needs information from plans that participate in the MPP, to identify the plans and their missing participants

and beneficiaries, to search for missing participants and beneficiaries, to determine the persons entitled to benefits that the plans transfer to PBGC and the forms and amounts of benefits payable, and to refer claimants of benefits being held elsewhere to the institutions holding the benefits.

PBGC intends to make the following modifications to the information collection in this renewal:

- PBGC is proposing a requirement for plans that are filing information about more than five missing individuals (participants or beneficiaries) to provide that information in a spreadsheet file. PBGC provides a user-friendly template that may be used for this purpose.

- PBGC is adding a question to the DB plan forms (MP-100, 300, and 400) asking if the plan has a default beneficiary provision, and, if yes, requiring an attachment of it. (This question is already on the DC plan form (MP-200)).

- PBGC is updating references on the DB plan forms and instructions that relate to de minimis benefit amounts of \$5,000 or less to reflect the change under section 304 of the SECURE 2.0 Act increasing that amount to \$7,000 as of January 1, 2024.¹

- PBGC is adding a box to the DC plan form for the person certifying the form to check whether they are the plan's plan administrator or the plan's qualified termination administrator.

Finally, PBGC intends to make other clarifying and editorial changes to the forms and instructions, including listing common filing errors.

PBGC estimates that it will receive over the next 3 years an annual average of 345 filings from plans under this collection of information. PBGC further estimates that the average annual burden of this collection of information is 70 hours and \$498,000. The actual hour burden and cost burden per plan will vary depending on plan size and other factors.

The existing collection of information was approved under OMB control number 1212-0069 (expires January 31, 2024). On July 3, 2023, PBGC published in the **Federal Register** a notice at 88 FR 42758 informing the public of its intent to request an extension of this collection of information and solicited public comment. No comments were received. PBGC intends to request that OMB extend its approval of this collection of information for three years. An agency may not conduct or sponsor, and a

person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Issued in Washington, DC.

Deputy Assistant General Counsel for
Regulatory Affairs, Pension Benefit Guaranty
Corporation.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-98761; File No. SR-
CboeBZX-2023-081]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

October 16, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on October 4, 2023, Cboe BZX Exchange, Inc. (the "Exchange" or "BZX") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the "Exchange" or "BZX") proposes to amend its Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (http://markets.cboe.com/us/options/regulation/rule_filings/bzx/), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the

proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule.³

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 17 options venues to which market participants may direct their order flow. Based on publicly available information, no single options exchange has more than 19% of the market share and currently the Exchange represents only approximately 4% of the market share.⁴ Thus, in such a low-concentrated and highly competitive market, no single options exchange, including the Exchange, possesses significant pricing power in the execution of option order flow. The Exchange believes that the ever-shifting market share among the exchanges from month to month demonstrates that market participants can shift order flow or discontinue to reduce use of certain categories of products, in response to fee changes. Accordingly, competitive forces constrain the Exchange's transaction fees, and market participants can readily trade on competing venues if they deem pricing levels at those other venues to be more favorable.

The Exchange's Fee Schedule sets forth standard rebates and rates applied per contract. For example, the Exchange assesses a standard transaction fee of \$0.48 per contract for Customer orders in Penny Securities, excluding SPY and IWM, that remove liquidity, yielding fee code "PC". The Exchange assesses a standard transaction fee of \$0.45 per contract for Customer SPY and IWM orders that remove liquidity, yielding fee code "PR". The Fee Codes and Associated Fees section of the Fees

³ The Exchange initially filed the proposed fee changes on September 29, 2023 (SR-CBOE-2023-076) [sic]. On October 4, 2023, the Exchange withdrew that filing and submitted this proposal.
