SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, and

agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in

accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/comments.html>.

II. What action is the Agency taking?

This notice announces receipt by the Agency of requests from three registrants to cancel nine pesticide products registered under FIFRA section 3 (7 U.S.C. 136a) or 24(c) (7 U.S.C. 136v(c)). These registrations are listed in sequence by registration number (or company number and 24(c) number) in Table 1 of this unit.

Unless the Agency determines that there are substantive comments that warrant further review of the requests or the registrants withdraw their requests, EPA intends to issue orders in the **Federal Register** canceling all of the affected registrations.

III. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA (7 U.S.C. 136d(f)(1)(B)) requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public

comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) (7 U.S.C. 136d(f)(1)(C)) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The registrants in Table 2 of Unit II. have requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of

cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products identified in Table 1 of Unit II., EPA anticipates allowing registrants to sell and distribute existing stocks of these products for 1 year after publication of the Cancellation Order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II., except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office requests public nominations of scientific experts to form a panel to review the revised Technical Guidance for Assessing Environmental Justice in Regulatory Analysis (Environmental Justice Technical Guidance or EJTG) and develop a self-initiated commentary outlining recommendations on advancing

environmental justice science in rulemaking. The SAB Environmental Justice Science and Analysis Review Panel will review the revised EJTG to be released publicly in 2023, as well as other information to be provided by the EPA. The Panel will provide recommendations and expert input on both advisory activities.

DATES: Nominations should be submitted by November 13, 2023 per the instructions below.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Notice and the request for nominations may contact Dr. Suhair Shallal, Designated Federal Officer (DFO), EPA Science Advisory Board Staff Office by telephone/voice mail (202) 564–2057, or email at shallal.suhair@epa.gov. General information concerning the EPA SAB can be found at the EPA SAB website at <https://sab.epa.gov>.

SUPPLEMENTARY INFORMATION:

Background: The SAB (42 U.S.C. 4365) is a chartered Federal Advisory Committee that provides independent scientific and technical peer review, advice, and recommendations to the EPA Administrator on the technical basis for EPA actions. As a Federal Advisory Committee, the SAB conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. 10) and related regulations. The SAB Staff Office is forming an expert panel, the Environmental Justice Science and Analysis Review Panel, under the auspices of the Chartered SAB. The Environmental Justice Science and Analysis Review Panel will provide advice through the chartered SAB. The SAB and the Environmental Justice Science and Analysis Review Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

The SAB Environmental Justice Science and Analysis Review Panel will conduct a review of the revised Technical Guidance for Assessing Environmental Justice in Regulatory Analysis (Environmental Justice Technical Guidance or EJTG) and develop a self-initiated commentary outlining recommendations on advancing environmental justice science in rulemaking. The SAB Environmental Justice Science and Analysis Review Panel will consider the revised EJTG as well as other information to be provided by the EPA. The Panel will provide recommendations and expert input on both advisory activities.

The revised EJTG is a document that provides EPA analysts with broad guidance on how to assess

disproportionate and adverse human health and environmental impacts of proposed rules and actions on vulnerable and overburdened populations in a variety of regulatory contexts. The 2016 EJ Technical Guidance was peer reviewed by the SAB in 2014. EPA is currently revising the EJ Technical Guidance, that will be released publicly in late 2023. The Panel will also identify key findings about the current state of environmental justice science utilized across EPA in the context of regulations and develop a commentary with actionable recommendations for potential methodological and technical improvements of environmental justice analyses utilized to support regulatory actions.

Request for Nominations: The SAB Staff Office is seeking nominations of nationally and internationally recognized scientists with demonstrated expertise in the following disciplines: environmental exposure, fate and transport, human health risk assessment, toxicology, public health, social and behavioral sciences, data visualization, environmental justice screening tools and modeling; environmental pollution and/or contaminants; environmental economics, including cost-benefit analysis; sociology; environmental stressors; exposure and dose-response assessment; epidemiology; demographics; geospatial analyses; spatial mathematics or distributional analysis; decision-making science; statistics; traditional ecological knowledge, and risk communication. Specifically, we are seeking experts with experience in assessing impacts related to environmental justice concerns, and conducting scientific analyses conducted to inform regulatory impacts. Strongest consideration will be given to individuals with demonstrated experience working with overburdened and vulnerable communities, or communities with EJ concerns in addition to the disciplines listed above (as documented in their curriculum vitae, resume, and/or publication history).

Process and Deadline for Submitting Nominations: Any interested person or organization may nominate qualified individuals in the areas of expertise described above for possible service on the SAB Panel. Individuals may self-nominate. Nominations should be submitted in electronic format (preferred) using the online nomination form on the SAB website at <https://sab.epa.gov> (see the “Public Input on Membership” list under “Committees, Panels, and Membership” following the
