

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the Post Review Workshop webinar are as follows: participants will discuss and review outstanding assessment presentations and discuss data issues remaining from the Review Workshop.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Fisheries of the South Atlantic; South Atlantic Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of South Atlantic Fishery Management Council's (Council) System

Management Plan (SMP) Workgroup meeting via webinar.

SUMMARY: The Council will hold a meeting of the SMP Workgroup via webinar on November 15, 2023. The workgroup will discuss recent research and evaluation tools of the Spawning Special Management Zones (SMZs). This meeting is the first meeting of the workgroup to develop recommendations on the management of the Spawning SMZs.

DATES: The meeting will be held on Wednesday, November 15, 2023, from 9 a.m. until 3 p.m.

ADDRESSES:

Meeting address: The webinar is open to members of the public. Information, including a link to webinar registration will be posted on the Council's website at: <https://safmc.net/events/nov-2023-system-management-plan-workgroup-meeting/> as it becomes available.

Council address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Kim Iverson, Public Information Officer, SAFMC; phone: (843) 302-8439 or toll free: (866) SAFMC-10; fax: (843) 769-4520; email: kim.iverson@safmc.net.

SUPPLEMENTARY INFORMATION: The SMP Workgroup is an advisory group for the Council that reviews actions items, evaluates managed areas, and reviews management of managed areas recommended by the Council. The workgroup will meet to discuss components of SMPs for the Spawning SMZs established by the Council. The workgroup is responsible for development of a report to the Council with recommendations. Components of the report include background information on managed areas; biological and habitat monitoring; socioeconomic factors; enforcement and compliance; research recommendations; and outreach.

Agenda items for this meeting include: an overview on why the Spawning SMZs were established, the SMP for the Spawning Special Management Zones, recent research conducted in the areas, and evaluations for trends and management of the areas. The workgroup will discuss the evaluation for the area and how best to develop recommendations. The workgroup will also hold elections at the meeting.

Special Accommodations
