Title of Collection: School Pulse Panel 2023–24 Quarter 3 Revision.

OMB Control Number: 1850–0975.

Type of Review: Revision of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 53,955.

Total Estimated Number of Annual Burden Hours: 10,175.

Abstract: The School Pulse Panel is conducted by the National Center for Education Statistics (NCES), part of the Institute of Education Sciences (IES), within the United States Department of Education. Initially, the purpose of the study was to collect extensive real-time data on issues brought to light by the COVID–19 pandemic on students and staff, as well as other important education-related issues that could inform data-driven policy decisions, in U.S. public primary, middle, high, and combined-grade schools and districts. Specifically, this was accomplished by collecting data on, among other things, the percentage of the student body starting the school year behind grade level, the types of learning recovery strategies being implemented and the perceived effectiveness of those strategies, classroom behavioral concerns, mental health services provided, and staffing issues. NCES was able to capture each of these pieces in an expedited fashion and report out findings in a matter of weeks, providing rich information to help tell the full story of what students, staff, and administrators were battling on a daily basis. The success of the quick-turnaround nature of the SPP was a clear indication of the immense value of having a real-time data collection vehicle readily available to capture content on prominent events occurring in the school environment. Therefore, stakeholders and ED leadership have asked NCES to continue this type of data collection methodology for the 2023–24 school year and beyond with content extending beyond COVID–19 pandemic impacts on the education environment.

The preliminary activities package was formally cleared in February 2023 (OMB# 1850–0975 v.1) and the SPP monthly data collection package was formally cleared in June 2023 (OMB# 1850–0975 v.2). A change request (v.3) was cleared in July 2023 to make changes to the September and October instruments and August 2023–January 2024 communication materials. A second quarterly package was formally cleared in October 2023 (OMB# 1850–0975 v.4), which contained the November 2023–January 2024 questionnaires and the February 2024–June 2024 communication materials. A change request (v.5) was cleared in October 2023 to make changes to the December 2023 and January 2024 instruments; content on these surveys was undergoing cognitive testing during the 30-day public comment period. The purpose of this memo is to accompany a revision (v.6) and to describe the changes to the research materials contained in that revision. The new revision is focused on a 30-day public comment period on new items (within the scope of the research domains previously established) to be collected on the February 2024, March 2024, and April 2024 instruments (Appendix C3). These items are considered very close to final and will go through minimal testing with school personnel to examine any comprehension concerns with item wording. Feedback from this testing, as well as additional input from SPP stakeholders, will result in modifications and additions that will be reflected in future change requests.

Ford Federal Direct Loan Program, the Federal Family Education Loan (FFEL) Program, or the Federal Insured Student Loan (FISL) Program or with Teacher Education Assistance for College and Higher Education (TEACH) Grant service obligations (referred to collectively herein as “title IV loans”) more efficiently and effectively are able to obtain Total and Permanent Disability (TPD) discharges of their title IV loans.

Participating Agencies
The U.S. Department of Education and the U.S. Department of Veterans Affairs.

Authority for Conducting the Matching Program
The Department’s legal authority to enter into the matching program and to disclose information thereunder is sections 420N(c), 437(a)(1), 455(a)(1), and 464(c)(1)F(ii & iii) of the HEA (20 U.S.C. 1070g–2(c), 1087(a)(1), 1087(a)(1), and 1087dd(c)(1)F(ii & iii)). VA’s legal authority to enter into this matching program is 38 U.S.C. § 5106.

Purpose(s)
This matching program will assist the Department in its obligation to ensure that borrowers of title IV loans more efficiently and effectively are able to obtain TPD discharge of their title IV loans. The Department will proactively send notices to borrowers with title IV loans who VA has designated as (1) having a service-connected disability rating that is 100 percent disabling, or (2) being totally disabled based on an individual unemployability rating, informing them that the Department will discharge the borrower’s title IV loans no earlier than 61 days after the date that the Department sends the notification to the borrower, unless the borrower chooses to have their title IV loans discharged earlier by contacting ED or chooses to opt out of the TPD discharge within 60 days from the date that the Department sends the notification to the borrower. The Department’s notices also will inform these borrowers that the Department has accepted information obtained from the VA in lieu of the borrower’s submission of a VA Statement and the borrower’s TPD loan discharge application, thereby simplifying the TPD discharge process for borrowers.

Categories of Individuals
This matching program covers veterans whom VA has designated as having a service-connected disability rating that is 100 percent disabling or being totally disabled based on an individual unemployability rating, as described in 38 CFR 3.340 and 3.341, and who have title IV loans (as defined above).

Categories of Records
This matching program covers the following records on the aforementioned individuals: the name (first, middle, and last), date of birth (DOB), and Social Security number (SSN), the 100% disabling service-connected disability rating or the individuals unemployability rating, and the disability determination date.

System(s) of Records
VA will use the VA system of records entitled “Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records—VA” (58VA21/22/28), last published in full in the Federal Register on November 8, 2021 (86 FR 61858). VA has determined that routine use 39 in the foregoing system of records is compatible with the purpose for which the information is collected and contains appropriate Privacy Act disclosure authority.

The Department will match information obtained from the VA with Department records maintained in the Department’s system of records entitled “National Student Loan Data System (NSLDS)” (18–11–06). The NSLDS system of records notice was last published in full in the Federal Register on June 28, 2023 (88 FR 41934).

The Department will also maintain matched information obtained from VA in the Department’s system of records entitled “Common Services for Borrowers (CSB) (18–11–16).” The CSB system of records notice was last published in full in the Federal Register on July 27, 2023 (88 FR 48449).
