

The NRC intends to gather the information necessary to prepare a site-specific EIS related to the SLR application for V.C. Summer. The site-specific EIS will evaluate the environmental impacts of subsequent license renewal for V.C. Summer and reasonable alternatives thereto. Possible alternatives to the proposed action include the no action alternative and reasonable alternative energy sources. This notice is being published in accordance with NEPA and the NRC's regulations at 10 CFR part 51.

As part of its environmental review, the NRC will first conduct a scoping process for the site-specific EIS and, as soon as practicable thereafter, will prepare a draft site-specific EIS for public comment. Participation in this scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the site-specific EIS will be used to accomplish the following:

a. Define the proposed action that is to be the subject of the site-specific EIS;

b. Determine the scope of the site-specific EIS and identify the significant issues to be analyzed in depth;

c. Identify and eliminate from detailed study those issues that are peripheral or are not significant or that have been covered by prior environmental review;

d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to, but are not part of, the scope of the site-specific EIS under consideration;

e. Identify other environmental review and consultation requirements related to the proposed action;

f. Indicate the relationship between the timing of the preparation of the environmental analyses and the NRC's tentative planning and decision-making schedule;

g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the site-specific EIS to the NRC and any cooperating agencies; and

h. Describe how the site-specific EIS will be prepared, including any contractor assistance to be used.

The NRC invites the following entities to participate in scoping:

a. The applicant, Dominion Energy South Carolina, Inc.;

b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;

c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;

d. Any affected Indian Tribe;

e. Any person who requests or has requested an opportunity to participate in the scoping process; and

f. Any person who has petitioned or intends to petition for leave to intervene under 10 CFR 2.309.

IV. Public Scoping Meeting

In accordance with 10 CFR 51.26(b), the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to the proposed action and to determine the scope of issues to be addressed in the EIS.

The NRC is announcing that it will hold an online webinar and teleconference call and an in-person public scoping meeting for the V.C. Summer SLR site-specific EIS. Both meetings will include a presentation on the license renewal process and a transcribed public comment session. The online webinar will be held on November 9, 2023, at 2 p.m. ET. The in-person meeting will be held on November 14, 2023, at 6 p.m. ET at the McCrorey-Liston School of Technology, 1978 State Highway 215, Blair, SC 29015. Details on both meetings can be found on the NRC's Public Meeting Schedule at <https://www.nrc.gov/pmns/mtg>. A court reporter will transcribe all comments received during each public scoping meeting. To be considered, comments must be provided either at a transcribed public meeting or in writing, as discussed in the **ADDRESSES** section of this notice.

Persons interested in attending this meeting should monitor the NRC's Public Meeting Schedule website at <https://www.nrc.gov/pmns/mtg> for additional information and the agenda for the meeting. Please contact the environmental project manager, Kim Conway, no later than November 6, 2023, if accommodations or special equipment is needed to attend or to provide comments, so that the NRC staff can determine whether the request can be accommodated.

The public scoping meeting will include: (1) an overview by the NRC staff of the environmental and safety review processes, the proposed scope of site-specific EIS, and the proposed review schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on environmental issues or the proposed scope of the V.C. Summer SLR site-specific EIS.

Participation in the scoping process for the V.C. Summer SLR site-specific EIS does not entitle participants to become parties to the proceeding to which the site-specific EIS relates. Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-445 and 50-446; NRC-2022-0183]

Vistra Operations Company LLC; Comanche Peak Nuclear Power Plant, Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft supplemental environmental impact statement; public meeting and request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft Supplement 60, License Renewal, to the Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, NUREG-1437, regarding the renewal of Facility Operating License Nos. NPF-87 and NPF-89 for an additional 20 years of operation for Comanche Peak Nuclear Power Plant, Units 1 and 2 (CPNPP). The CPNPP facility is in Somervell County, Texas. Possible alternatives to the proposed action (license renewal) include no action and reasonable replacement power alternatives.

DATES: The staff will hold a local public meeting on the draft Supplemental Environmental Impact Statement on December 7, 2023, from 7:00 p.m. to 9:00 p.m. central time, including a presentation on the preliminary findings and a transcribed public comment session. The public meeting details will be announced in the near future on the NRC's Public Meeting Schedule at <https://www.nrc.gov/pmns/mtg>. Members of the public are invited to submit comments by December 18, 2023. Comments received after this date will be considered, if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website:

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2022-0183 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0183.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may access publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff by email to PDR.Resource@nrc.gov. Draft Supplement 60, License Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG-1437, is available in ADAMS under Accession No. ML23299A252.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open

by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

- *Public Library:* A copy of draft Supplement 60, License Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG-1437, will be available at the following locations: Somervell County Library, 108 Allen Dr., Glen Rose, TX 76043 and Hood County Library, 222 N Travis St., Granbury, TX 76048.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2022-0183 in the subject line of your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

The NRC is issuing for public comment draft Supplement 60, License Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG-1437, regarding the renewal of Facility Operating License Nos. NPF-87 and NPF-89 for an additional 20 years of operation for CPNPP. Draft Supplement 60, License Renewal, to the GEIS includes the preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. The NRC staff's preliminary recommendation is that the adverse environmental impacts of license renewal for CPNPP are not so great that preserving the option of

license renewal for energy-planning decisionmakers would be unreasonable.

Dated: October 31, 2023.

SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-139, OMB Control No. 3235-0128]

Proposed Collection; Comment Request; Extension: Rule 12f-1

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the existing collection of information provided for in Rule 12f-1 (17 CFR 240.12f-1), under the Securities Exchange Act of 1934 ("Act") (15 U.S.C. 78a *et seq.*). The Commission plans to submit this existing collection of information to the Office of Management and Budget ("OMB") for extension and approval.

Rule 12f-1 ("Rule"), originally adopted in 1979 pursuant to Sections 12(f) and 23(a) of the Act, and as further modified in 1995 and 2005, sets forth the requirements for filing an exchange application to reinstate unlisted trading privileges ("UTP") in a security in which UTP has been suspended by the Commission pursuant to Section 12(f)(2)(A) of the Act. Under Rule 12f-1, an exchange must submit one copy of an application for reinstatement of UTP to the Commission that contains specified information, as set forth in the Rule. The application for reinstatement, pursuant to the Rule, must provide the name of the issuer, the title of the security, the name of each national securities exchange, if any, on which the security is listed or admitted to unlisted trading privileges, whether transaction information concerning the security is reported pursuant to an effective transaction reporting plan contemplated by Rule 601 of Regulation NMS, the date of the Commission's suspension of unlisted trading privileges in the security on the exchange, and any other pertinent
