SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC is issuing a revision in the NRC’s “Regulatory Guide” series. This series was developed to describe methods that are acceptable to the NRC staff for implementing specific parts of the agency’s regulations, to explain techniques that the staff uses in evaluating specific issues or postulated events, and to describe information that the staff needs in its review of applications for permits and licenses.

The NRC typically seeks public comment on a draft version of a RG by announcing its availability for comment in the **Federal Register**. However, as explained in NRC’s Management Directive (MD) 6.6 “Regulatory Guides,” (ADAMS Accession No. ML22010A233) the NRC may directly issue a final RG without a draft version or public comment period if the changes to the

RG are non-substantive. In addition, the NRC considers Revision 5 of RG 1.189 as an Administratively Changed Guide per MD 6.6.

II. Additional Information

The NRC issued Revision 4 of RG 1.189 on May 28, 2021 (86 FR 28916), to describe an approach that is acceptable to the NRC staff to meet the regulatory requirements in the NRC’s regulations governing a civilian nuclear power generating plant’s fire protection program. Revision 5 to RG 1.189 is being issued to correct typographic errors that previously appeared in Section 5.3.1.1, “Protection for the Safe-Shutdown Success Path,” in RG 1.189, Revision 4. This section contains two paragraphs that were incorrectly labeled. On page 79 of the RG, the paragraph currently identified as “c” is incorrect, in that, that paragraph is correctly part of item “b.” There is a conforming change where the current “d” should be “c.” In addition, RG 1.189 contains edits to conform with the current template for RGs and fixes to a few reference numbering errors. The changes in Revision 5 are intended to improve clarity and do not substantially alter the staff’s regulatory guidance.

As noted in the **Federal Register** on December 9, 2022 (87 FR 75671), this document is being published in the “Rules” section of the **Federal Register** to comply with publication requirements under 1 CFR chapter I.

III. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

IV. Backfitting, Forward Fitting, and Issue Finality

Issuance of RG 1.189, Revision 5, does not constitute backfitting as defined in section 50.109 of title 10 of the *Code of Federal Regulations* (10 CFR), “Backfitting” (Backfit Rule), and is not otherwise inconsistent with the issue finality provisions in 10 CFR part 52. The changes in Revision 5 of RG 1.189 are limited to editorial changes to improve clarity and the correction of a title. These changes do not fall within the kinds of agency actions that constitute backfitting or are subject to limitations in the issue finality

provisions of part 52. Accordingly, the NRC did not address the Backfit Rule or issue finality provisions of part 52.

V. Submitting Suggestions for Improvement of Regulatory Guides

A member of the public may, at any time, submit suggestions to the NRC for improvement of existing RGs or for the development of new RGs. Suggestions can be submitted on the NRC's public website at <https://www.nrc.gov/reading-rm/doc-collections/reg-guides/contactus.html>. Suggestions will be considered in future updates and enhancements to the "Regulatory Guide" series.

Dated: November 2, 2023.

For the Nuclear Regulatory Commission.

Stephen M. Wyman,

Acting Chief, Regulatory Guide and Programs, Management Branch, Division of Engineering, Office of Nuclear Regulatory Research.

15 CFR Part 748

[Docket No. 231010-0244]

RIN 0694-AJ39

Existing Validated End-User Authorizations in the People's Republic of China: Samsung China Semiconductor Co. Ltd. and SK hynix Semiconductor (China) Ltd; Correction

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Correcting amendment.

SUMMARY: The Bureau of Industry and Security (BIS) published a rule in the

Federal Register on October 17, 2023, that amended the Export Administration Regulations (EAR) to revise the existing Validated End-User (VEU) list for the People's Republic of China (PRC) for Samsung China Semiconductor Co. Ltd. and SK hynix Semiconductor (China) Ltd. That rule inadvertently omitted two amendments to the list of VEUs, which resulted in failure to add a word to the description of eligible items for SK Hynix Semiconductor (China) Ltd.; as well as the failure to remove the entry for SK hynix Semiconductor (Wuxi), which was necessary because SK hynix Semiconductor (Wuxi) recently merged with SK hynix Semiconductor (China) Ltd. This rule corrects both omissions.

DATES: This rule is effective November 8, 2023.

FOR FURTHER INFORMATION CONTACT: Chair, End-User Review Committee, Office of the Assistant Secretary, Export Administration, Bureau of Industry and Security, U.S. Department of Commerce, Phone: 202-482-5991; Email: ERC@bis.doc.gov.

SUPPLEMENTARY INFORMATION: The Bureau of Industry and Security (BIS) published in the **Federal Register** of October 17, 2023, in FR Doc. 2023-22873, starting on page 71478, amendments to the Export Administration Regulations (EAR) to revise the existing Validated End-User (VEU) list for the People's Republic of China (PRC) for Samsung China Semiconductor Co. Ltd. and SK hynix Semiconductor (China) Ltd.

This rule corrects for two inadvertently omitted amendments to update the list of VEUs: the first correction adds a word to the description of eligible items for SK Hynix Semiconductor (China) Ltd.; and the second removes the entry for SK hynix Semiconductor (Wuxi) Ltd., which recently merged with SK hynix

Semiconductor (China) Ltd., thereby making the entry for SK hynix Semiconductor (Wuxi) Ltd. duplicative.

Correction

BIS amends the EAR's "Supplement No. 7 to Part 748—Authorization Validated End-User (VEU): List of Validated End-Users, Respective Items Eligible for Export, Reexport and Transfer (In-Country), and Eligible Destinations":

- by adding the word "therefor," after the word "technology" in the description in the "Eligible items (by ECCN)" column for "SK hynix Semiconductor (China) Ltd.;" and
- by removing the entry for "SK hynix Semiconductor (Wuxi) Ltd." in "China (People's Republic of)".

List of Subjects in 15 CFR Part 748

Administrative practice and procedure, Exports, Reporting and recordkeeping requirements.

Accordingly, part 748 of the EAR (15 CFR parts 730-774) is corrected by making the following correcting amendments:

- 2. Amend supplement no. 7 to part 748 under "China (People's Republic of)" by:

- a. Revising the entry for "SK hynix Semiconductor (China) Ltd.;" and
- b. Removing the entry for "SK hynix Semiconductor (Wuxi) Ltd.".

The revision reads as follows:
