#### Changes Since the Preliminary Results

Based on our analysis of the comments received from interested parties, Commerce made certain changes to the margin calculations for Assan Aluminium Sanayi ve Ticaret A.S. (Assan) and Teknik Aluminium Sanayi A.S. (Teknik).<sup>4</sup>

#### Rate for Non-Examined Companies

The statute and Commerce's regulations do not address the establishment of a weighted-average dumping margin to be determined for companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when determining the weighted-average dumping margin for companies which were not selected for individual examination in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding rates that are zero, *de minimis*, or determined entirely on the basis of facts available. For these final results of review, we calculated weighted-average dumping margins for Assan and Teknik that are not zero, *de minimis*, or based entirely on facts available. Therefore, consistent with Commerce's practice, we determined a dumping margin for the non-examined companies by weight-averaging the margins for Assan and Teknik using publicly ranged sales values for sales of subject merchandise to the United States.

#### Final Results of the Administrative Review

We determine that the following weighted-average dumping margins exist for the period October 15, 2020, through March 31, 2022.

Exporter or producer	Weight-average dumping margin (percent)
Assan Aluminium Sanayi ve Ticaret A.S. ....	1.25
Teknik Aluminium Sanayi A.S. ...	18.20

<sup>4</sup> See the Issues and Decision Memorandum for descriptions of these changes.

Exporter or producer	Weight-average dumping margin (percent)
Non-Selected Companies <sup>5</sup> .....	10.88

### Disclosure

We intend to disclose the calculations performed in connection with these final results to interested parties in this proceeding within five days of the date of publication of this notice, in accordance with 19 CFR 351.224(b).

### Assessment Rates

Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries in this review, in accordance with section 751(a)(2)(C) of the Act and 19 CFR 351.212(b).

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of these final results in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Pursuant to 19 CFR 351.212(b)(1), because Assan's and Teknik's weighted-average dumping margin is not zero or *de minimis* (*i.e.*, less than 0.5 percent), we calculated importer-specific *ad valorem* assessment rates based on the ratio of the total amount of dumping calculated for the examined sales to the total entered value of the sales. Where an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.<sup>6</sup>

Consistent with Commerce's clarification of its assessment practice, for entries of subject merchandise during the POR produced by any of the above-referenced respondents for which they did not know the merchandise was destined for the United States, we will instruct CBP to liquidate such entries at the all-others rate established in the less-than-fair-value (LTFV) investigation of 4.85 percent *ad valorem*<sup>7</sup> if there is no rate for the intermediate

company(ies) involved in the transaction.<sup>8</sup>

For the non-examined companies subject to review, we will instruct CBP to liquidate all applicable entries of subject merchandise during the POR at the rate listed in the table above.

### Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for the companies listed above will be equal to the weighted-average dumping margin established in the final results of the review; (2) for subject merchandise exported by a company not covered in this review but covered in a prior completed segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published in the completed segment for the most recent period; (3) if the exporter is not a firm covered in this review or the original LTFV investigation, but the producer is, then the cash deposit rate will be the rate established in the completed segment for the most recent period for the producer of the subject merchandise; (4) the cash deposit rate for all other producers or exporters will continue to be 4.85 percent *ad valorem*, the all-others rate established in the LTFV investigation.

These cash deposit requirements, when imposed, shall remain in effect until further notice.

### Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent assessment of double antidumping duties, and/or an increase in the amount of antidumping duties by the amount of the countervailing duties.

### Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative

protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation subject to sanction.

### Notification to Interested Parties

We are issuing and publishing these final results of administrative review in accordance with sections 751(a) and 777(i) of the Act, and 351.221(b)(5).

Dated: November 3, 2023.
