Food and Nutrition Service

Title: 2023 Pulse Survey: Operational Challenges in Child Nutrition Programs.

OMB Control Number: 0584–NEW.

Summary of Collection: FNS administers the Child Nutrition (CN) Programs in partnership with States, local SFAs, other program sponsors, and local program operators. Section 28(a) of the Richard B. Russell National School Lunch Act authorizes the U.S. Department of Agriculture Secretary to conduct annual national performance assessments of the school meal programs and requires States and local entities participating in the programs to cooperate with program research and evaluations. FNS plans to collect periodic data to obtain information on operational challenges facing institutions who operate or administer child nutrition programs, including State agencies, SFAs and Summer Food Service Program (SFSP) Sponsors. The Operational Challenges in Child Nutrition Programs (OCCNP) Surveys, are designed to collect timely data on emerging school food service operational challenges, including but not limited to supply chain disruptions, food costs, and labor shortages, and/or related issues in SY 2023–2024, 2024–2025, and SY 2025–2026.

Need and Use of the Information: Access to a timely and reliable source of data on these topics has become particularly important following the COVID–19 pandemic. In addition to changing the ways that school meal programs operated, the pandemic has contributed to lasting supply chain issues and substantial changes in the cost and availability of food and labor. The ability to collect this data will allow FNS to provide the best possible support to States and program sponsors and operators facing continued food service operations challenges and enable FNS to respond more quickly and effectively to potential disruptions in the future.

Description of Respondents: State, Local and Tribal Governments, Business, Private not-for-profit.

Number of Respondents: 19,106.
