

II. Background

On September 28, 2023, FMCSA published a notice announcing receipt of applications from two individuals treated with ICDs and requested comments from the public (88 FR 66932). The individuals requested an exemption from 49 CFR 391.41(b)(4) which prohibits operation of a CMV in interstate commerce by persons with a current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive heart failure. The public comment period ended on October 30, 2023, and no comments were received.

FMCSA has evaluated the eligibility of the applicants and concluded that granting an exemption would not provide a level of safety that would be equivalent to, or greater than, the level of safety that would be obtained by complying with § 391.41(b)(4). A summary of each applicant's medical history related to their ICD exemption request was discussed in the September 28, 2023 **Federal Register** notice (88 FR 66932) and will not be repeated here.

The Agency's decision regarding this exemption application is based on information from the Cardiovascular Medical Advisory Criteria, an April 2007 evidence report titled "Cardiovascular Disease and Commercial Motor Vehicle Driver Safety,"¹ and a December 2014 focused research report titled "Implantable Cardioverter Defibrillators and the Impact of a Shock in a Patient When Deployed." Copies of these reports are included in the docket.

FMCSA has published advisory criteria to assist medical examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce.² The advisory criteria for § 391.41(b)(4) indicates that coronary artery bypass surgery and pacemaker implantation are remedial procedures and thus, not medically disqualifying. ICDs are disqualifying due to risk of syncope.

III. Discussion of Comments

FMCSA received no comments in this proceeding.

¹ The report is available on the internet at <https://rosap.ntl.bts.gov/view/dot/16462>.

² These criteria may be found in 49 CFR part 391, APPENDIX A TO PART 391—MEDICAL ADVISORY CRITERIA, section D. *Cardiovascular: § 391.41(b)(4)*, paragraph 4, which is available on the internet at <https://www.gpo.gov/fdsys/pkg/CFR-2015-title49-vol5/pdf/CFR-2015-title49-vol5-part391-appA.pdf>.

IV. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.

The Agency's decision regarding these exemption applications is based on an individualized assessment of the applicants' medical information, available medical and scientific data concerning ICDs, and any relevant public comments received.

In the case of persons with ICDs, the underlying condition for which the ICD was implanted places the individual at high risk for syncope or other unpredictable events known to result in gradual or sudden incapacitation. ICDs may discharge, which could result in loss of ability to safely control a CMV. The December 2014 focused research report referenced previously upholds the findings of the April 2007 report and indicates that the available scientific data on persons with ICDs and CMV driving does not support that persons with ICDs who operate CMVs are able to meet an equal or greater level of safety.

V. Conclusion

The Agency has determined that the available medical and scientific literature and research provides insufficient data to enable the Agency to conclude that granting these exemptions would achieve a level of safety equivalent to, or greater than, the level of safety maintained without the exemption. Therefore, the following applicants have been denied an exemption from the physical qualification standards in § 391.41(b)(4):

Dean Cece (NC); and Donald Roach (KY).

The applicants have, prior to this notice, received a letter of final disposition regarding their exemption request. The decision letter fully outlined the basis for the denial and constitute final action by the Agency. The names of these individuals published today summarizes the Agency's recent denials as required under 49 U.S.C. 31315(b)(4).

Larry W. Minor,

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2023-0186]

Hours of Service: Clym Environmental; Application for Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that Clym Environmental Services LLC (Clym) has requested an exemption from the hours-of-service (HOS) regulations to allow its drivers up to 14 hours of drive time within the work shift or, in the alternative, up to 12 hours. Clym indicates that, due to the nature of its operations, complying with the 11-hour driving time limit in the HOS regulations places a strain on the company's drivers and its overall operating costs. Clym asserts that the exemption would allow additional flexibility while maintaining an equivalent level of safety. FMCSA requests public comment on the applicant's request for exemption.

DATES: Comments must be received on or before December 15, 2023.

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Number FMCSA-2023-0186 by any of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. See the Public Participation and Request for Comments section below for further information.

- *Mail:* Dockets Operations, U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building, Ground Floor, Washington, DC 20590-0001.

- *Hand Delivery or Courier:* West Building, Ground Floor, 1200 New Jersey Avenue SE, between 9 a.m. and 5 p.m. E.T., Monday through Friday, except Federal holidays.

- *Fax:* (202) 493-2251.

Each submission must include the Agency name and the docket number (FMCSA-2023-0186) for this notice. Note that DOT posts all comments received without change to www.regulations.gov, including any personal information included in a comment. Please see the Privacy Act heading below.

Docket: For access to the docket to read background documents or comments, go to www.regulations.gov at any time or visit the ground level of the West Building, 1200 New Jersey Avenue

SE, Washington, DC, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays. To be sure someone is there to help you, please call (202) 366-9317 or (202) 366-9826 before visiting Dockets Operations.

Privacy Act: In accordance with 49 U.S.C. 31315(b), DOT solicits comments from the public to better inform its exemption process. DOT posts these comments, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice DOT/ALL-14 FDMS, which can be reviewed under the “Department Wide System of Records Notices” at <https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices/DOT-ALL>. The comments are posted without edit and are searchable by the name of the submitter.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Clemente, Driver and Carrier Operations Division; Office of Carrier, Driver and Vehicle Safety Standards, FMCSA; (202) 366-2722 or richard.clemente@dot.gov. If you have questions on viewing or submitting material to the docket, contact Dockets Operations at (202) 366-9826.

SUPPLEMENTARY INFORMATION:

I. Public Participation and Request for Comments

FMCSA encourages you to participate by submitting comments and related materials.

Submitting Comments

If you submit a comment, please include the docket number for this notice (FMCSA-2023-0186), indicate the specific section of this document to which the comment applies, and provide a reason for suggestions or recommendations. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so the Agency can contact you if it has questions regarding your submission.

To submit your comment online, go to www.regulations.gov and put the docket number “FMCSA-2023-0186” in the keyword box, and click “Search.” Next, sort the results by “Posted (Newer-Older),” choose the first notice listed, click the “Comment” button, and type your comment into the text box on the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit. If you submit your

comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope. FMCSA will consider all comments and material received during the comment period.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption and the regulatory provision from which the exemption is granted. The notice must specify the effective period and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Applicant's Request

Clym is a regulated medical waste pickup, transportation, and destruction company. Clym seeks an exemption from the requirement in 49 CFR 395.3(a)(3)(i) that a commercial motor vehicle (CMV) operator may drive a maximum of 11 hours within a 14-hour period before taking the required 10 consecutive hours off duty or the equivalent. Clym has specifically requested an exemption to extend the allotted driving time to 14 hours or, in the alternative, to extend the drive time to a maximum of 12 hours within the 14-hour period.

Clym makes this HOS exemption request for three contingencies: (1) when CDL A drivers are taking time off or calling off for illness or injury, in which case a relief driver is needed to transport the waste along the supply chain; (2) when there is an unexpected increase in material and a trailer needs

to be moved sooner than scheduled; and (3) when there is an upcoming issue with local and state health codes for the storage of regulated medical waste. If granted, the exemption would apply only to drivers operating on the long-haul route between Clym's office in New Castle, PA and its ozone destruction plant in Greenfield, IN. It would not apply to any drivers operating on the company's local routes.

Clym predicts a minimal impact on safety, as the exemption sought would allow its drivers to have more than the one mandatory 30-minute break after 8 consecutive hours of driving. Clym's internal policy provides a one-hour company lunch break and strongly encourages its drivers to take as many breaks as necessary. Clym further states that the round trip from the Greenfield office to the ozone destruction plant and back takes about 11 hours to complete without traffic, and it considers the run to be “very easy” as its commercial vehicles typically operate at approximately half of the 80,000-pound legal limit. Finally, Clym states that it takes safety very seriously because it transports regulated medical waste.

A copy of Clym's application for exemption is available for review in the docket for this notice.

IV. Request for Comments

In accordance with 49 U.S.C. 31315(b), FMCSA requests public comment from all interested persons on Clym Environmental Services LLC's application for an exemption from the requirement in 49 CFR 395.3(a)(3)(i) to operate a CMV in interstate commerce for a maximum of 11 hours of driving before taking 10 consecutive hours off duty or the equivalent. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

Larry W. Minor,

Associate Administrator for Policy.
