Farm, Ranch, and Rural Communities Advisory Committee; Notice To Establish Animal Agriculture and Water Quality Subcommittee and Solicitation of Nominations for Membership to the Animal Agriculture and Water Quality Subcommittee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for nominations.

SUMMARY: The U.S. Environmental Protection Agency (EPA or Agency) invites nominations from a diverse range of qualified candidates to serve on a new subcommittee of the Farm, Ranch, and Rural Communities Advisory Committee (FRRCC), entitled the Animal Agriculture and Water Quality (AAWQ) subcommittee. The goal of the AAWQ subcommittee will be to provide recommendations that will inform the Agency's decisions regarding how to improve the implementation of the Clean Water Act (CWA) National Pollutant Discharge Elimination System (NPDES) Concentrated Animal Feeding Operation (CAFO) permitting program to more effectively reduce nutrients and other types of water pollutants from Animal Feeding Operations (AFOs), including determining whether any revisions to the regulations are warranted, and whether EPA can otherwise support the efforts of AFO operators to protect water quality.

DATES: To be considered for membership appointment to the AAWQ subcommittee, nominations should be submitted no later than January 2, 2024.

ADDRESSES: Nominations must be submitted electronically with the subject line “AAWQ Membership 2023” to AAWQ@epa.gov. General information regarding the AAWQ can be found on the EPA website at: <https://www.epa.gov/faca/frcc>. General information about Federal Advisory

SUPPLEMENTARY INFORMATION:

I. General Information

On August 15, 2023, EPA responded to two petitions sent by environmental and community groups requesting that EPA revise its Clean Water Act (CWA) regulations for the National Pollutant Discharge Elimination System (NPDES) Concentrated Animal Feeding Operation (CAFO) program. Instead of initiating rulemaking at this time, as the petitions requested, EPA decided to conduct a comprehensive evaluation of the CAFO program to consider the most effective and efficient ways to reduce pollutants generated from CAFOs. EPA will establish a Federal Advisory Committee (FAC) subcommittee, called the Animal Agriculture and Water Quality (AAWQ) subcommittee, under the existing Farm, Ranch, and Rural Communities Committee (FRRCC). After engaging with the AAWQ and reviewing their recommendations, EPA will consider whether to revise its regulations or whether the issues discussed in the petitions can be more effectively addressed through non-regulatory initiatives.

EPA is currently seeking nominations for members to serve on the AAWQ subcommittee, who will be appointed for an estimated term of 12 to 18 months. Balanced and diverse representation is being sought from the following stakeholders across the geographic regions of the United States:

- Agricultural industry
- Environmental, community, and public health groups
- Local governments
- Research institutions
- States and Tribes

The AAWQ expects to hold meetings approximately four times per year over the course of 12 to 18 months. The first subcommittee meeting is anticipated to be held in-person at or near EPA Headquarters in Washington, DC, in the spring of 2024. Subsequent meetings and/or listening sessions may be held in Washington, DC, other parts of the
