

Under 49 U.S.C. 14303(b), the Board must approve and authorize a transaction that it finds consistent with the public interest, taking into consideration at least (1) the effect of the proposed transaction on the adequacy of transportation to the public, (2) the total fixed charges that result, and (3) the interest of affected carrier employees. TBL Group has submitted the information required by 49 CFR 1182.2, including information to demonstrate that the proposed transaction is consistent with the public interest under 49 U.S.C. 14303(b), *see* 49 CFR 1182.2(a)(7), and a jurisdictional statement under 49 U.S.C. 14303(g) that the aggregate gross operating revenues of TBL Group and East Coast Transportation exceeded \$2 million during the 12-month period immediately preceding the filing of the application, *see* 49 CFR 1182.2(a)(5).

TBL Group asserts that the transaction is consistent with the public interest. TBL Group states that the transaction is not expected to have a material, detrimental impact on the adequacy of transportation services available for the public, but rather it anticipates that public services will be improved as operating efficiencies will “enable the carriers to provide service across a broad geographic area.” (Appl. 5 (pdf page 7).) With respect to fixed charges, TBL Group asserts that the restructuring of day-to-day operations will allow the Applicant to lower operational costs and continue to provide affordable passenger-carrier transportation services. (*Id.* at 7 (pdf page 9).) Further, TBL Group anticipates that there will be no overall negative impact to employees as a result of the transaction. According to TBL Group, the transaction will enable the parties to consolidate some headquarters and administrative personnel. (*Id.*) TBL Group, asserts, however, that labor force additions in higher paying sales and field operations in multiple cities will offset any personnel contraction across Texas and Florida. (*Id.*) TBL Group notes that, “while the current goal of the transaction is to maximize utilization with fewer vehicles, over time the companies will be able to grow by taking advantage of economies of scale, better financial terms, and increased buying power, resulting in additions to driver and non-driver personnel.” (*Id.*) Lastly, TBL Group asserts that the transaction will not have a material, adverse effect on competition. According to TBL Group, the areas served by the carriers are subject to robust competition. (*Id.*) Specifically, TBL Group states that the Jacksonville,

Florida market has over 20 interstate transportation providers offering charter and tour service. (*Id.*) TBL Group estimates that interstate and intrastate carriers in the Jacksonville, Florida market generate over \$75 million in annual revenues and operate approximately 800 vehicles, including sedans, mini buses, and motor coaches. (*Id.* at 7–8 (pdf pages 9–10).) After the transaction, TBL Group states that the combined revenues of Echo East Coast Transportation will be less than 10% of \$75 million and will account for less than five percent of the vehicles in the local market. (*Id.* at 8 (pdf page 10.)) Thus, TBL Group asserts that the applicable carriers are largely separate and distinct, with a small amount of overlap in the larger markets, and do not plan on significantly altering their current operations, but merely wish to take advantage of efficiencies gained through working under one corporate structure. (*Id.* at 7–8 (pdf pages 8–9).)

The Board finds that the acquisition as proposed in the application is consistent with the public interest and should be tentatively approved and authorized. If any opposing comments are timely filed, these findings will be deemed vacated, and, unless a final decision can be made on the record as developed, a procedural schedule will be adopted to reconsider the application. *See* 49 CFR 1182.6. If no opposing comments are filed by expiration of the comment period, this notice will take effect automatically and will be the final Board action. Persons wishing to oppose the application must follow the rules at 49 CFR 1182.5 and 1182.8.

This action is categorically excluded from environmental review under 49 CFR 1105.6(c).

Board decisions and notices are available at www.stb.gov.

It is ordered:

1. The proposed transaction is approved and authorized, subject to the filing of opposing comments.
2. If opposing comments are timely filed, the findings made in this notice will be deemed vacated.
3. This notice will be effective January 3, 2024, unless opposing comments are filed by January 2, 2024. If any comments are filed, TBL Group may file a reply by January 16, 2024.
4. BILLING CODE 4915-01-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Random Drug and Alcohol Testing Percentage Rates of Covered Aviation Employees for the Period of January 1, 2024, Through December 31, 2024

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: The FAA has determined that the minimum random drug and alcohol testing percentage rates for the period January 1, 2024, through December 31, 2024, will remain at 25 percent of safety-sensitive employees for random drug testing and 10 percent of safety-sensitive employees for random alcohol testing.

FOR FURTHER INFORMATION CONTACT: Ms. Vicky Dunne, Federal Aviation Administration, Office of Aerospace Medicine, Drug Abatement Division, Program Policy Branch; Email drugabatement@faa.gov; Telephone (202) 267-8442.

SUPPLEMENTARY INFORMATION:

Discussion: Pursuant to 14 CFR 120.109(b), the FAA Administrator's decision on whether to change the minimum annual random drug testing rate is based on the reported random drug test positive rate for the entire aviation industry. If the reported random drug test positive rate is less than 1.00%, the Administrator may continue the minimum random drug testing rate at 25%. In 2022, the random drug test positive rate was 0.786%. Therefore, the minimum random drug testing rate will remain at 25% for calendar year 2023.

Similarly, 14 CFR 120.217(c), requires the decision on the minimum annual random alcohol testing rate to be based on the random alcohol test violation rate. If the violation rate remains less than 0.50%, the Administrator may continue the minimum random alcohol testing rate at 10%. In 2022, the random alcohol test violation rate was 0.150%.

Therefore, the minimum random alcohol testing rate will remain at 10% for calendar year 2022.

If you have questions about how the annual random testing percentage rates are determined, please refer to the Code of Federal Regulations title 14, section 120.109(b) (for drug testing), and 120.217(c) (for alcohol testing).
