§ 3.33 Reevaluation of Claims for Dependency and Indemnity Compensation Involving Presumptions of Service Connection Following Enactment of Public Law 117–168.

(a) Purpose. This section states effective date and election rules based on amendments made under Public Law 117–168, which provides for the reevaluation of certain previously denied dependency and indemnity compensation (DIC) claims when a law establishes or modifies a presumption of service connection.

(b) Definitions. For purpose of this section:

(1) Law means any law, regulation, or Federal court decision or settlement establishing or modifying a presumption of service connection.

(2) Relevant claimant means an individual who submitted a claim for DIC to VA that was evaluated and denied by VA before the date on which such a provision of law went into effect and might have been evaluated differently had the establishment or modification of the service connection presumption been applicable to the claim.

(c) Election of review—(1) General. VA will not reevaluate under this section any previously denied claim for DIC prior to election by the relevant claimant.

(2) Form of election. Reevaluation of a previously denied DIC claim must be at the election of the relevant claimant on a prescribed form pursuant to § 3.152(a).

(d) Effective date of award. If a relevant claimant is found entitled to DIC based on the establishment or modification of a presumption of service connection, the effective date of the award will be as follows:

(2) If the requirements of paragraph (d)(1) are not met, the effective date of the award shall be determined in accordance with §§ 3.114 and 3.400.

(e) Outreach and identification of relevant claimants. (1) VA will conduct the following efforts to inform relevant claimants that they may elect to have a claim reevaluated in light of the establishment or modification of a presumption of service connection:

USPS Returns Intelligent Mail Package Barcode and Label Compliance

The Postal Service is providing a clarification on Intelligent Mail® package barcode (IMpb®) compliance regarding USPS Returns, and a correction to USPS Returns label noncompliance.

The DMM currently provides that all commercial, Priority Mail Express, Priority Mail, and USPS Ground Advantage, pieces must bear a correct IMpb or will be assessed an IMpb noncompliance fee. The Postal Service is providing notice that the assessment of the IMpb noncompliance fee will be activated for USPS Returns effective January 21, 2024, but will delay the implementation of the collection of the IMpb noncompliance fee until May 31, 2024.

In addition, DMM subsection 505.3.1.5, Noncompliant Labels, currently provides that when noncompliant labels, including discontinued labels, are affixed to USPS Returns service packages, the permit holder will be assessed the appropriate retail USPS Ground Advantage price. With the July 9, 2023, introduction of Priority Mail Express Return service, the retail USPS Ground Advantage pricing is no longer applicable. As a result, the Postal Service is revising this subsection to provide the permit holder may be assessed the appropriate USPS Returns class of mail retail price (i.e., a Priority Mail Express Return piece will be assessed the retail Priority Mail Express price) or the IMpb noncompliance fee.

Mailer Services

Pickup on Demand Service

The Pickup on Demand service fee will remain the same.

USPS Tracking Plus Service

The USPS Tracking Plus service prices will remain the same.

The price of the weekly shipment charge for PFS-Residential and per container charge for PFS-Local will increase to $26.20.

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes.
