### ENVIRONMENTAL PROTECTION AGENCY

#### Coastal Nonpoint Pollution Control Program: Proposal To Find That Indiana Has Satisfied Conditions on Earlier Approval

**AGENCY:** National Oceanic and Atmospheric Administration, U.S. Department of Commerce, and U.S. Environmental Protection Agency.

**ACTION:** Notice of proposed finding; request for comments.

**SUMMARY:** The National Oceanic and Atmospheric Administration (NOAA) and the U.S. Environmental Protection Agency (EPA) (the Federal agencies) invite public comment on the Federal agencies' proposed finding that Indiana has satisfied all conditions the agencies established as part of their 2008 approval of the state's coastal nonpoint pollution control program (coastal nonpoint program). The Coastal Zone Act Reauthorization Amendments (CZARA) directs states and territories with coastal zone management programs previously approved under section 306 of the Coastal Zone Management Act to develop and implement coastal nonpoint programs, which must be submitted to the Federal agencies for approval. Prior to making such a finding, NOAA and the EPA invite public input on the two agencies' rationale for this proposed finding.

**DATES:** Comments are due by December 28, 2023.

**ADDRESSES:** Copies of the proposed findings document may be found on [www.regulations.gov](http://www.regulations.gov) (search for NOAA-NOS-2022-0018) and NOAA's Coastal

Nonpoint Pollution Control Program website at Comments may be submitted by:

**SUPPLEMENTARY INFORMATION:** Section 6217(a) of the Coastal Zone Act Reauthorization Amendments (CZARA), 12 U.S.C. 1455b(a), requires that each state or territory with a coastal zone management program previously approved under section 306 of the Coastal Zone Management Act must prepare and submit to the Federal agencies a coastal nonpoint pollution control program for approval. Indiana submitted its program to the Federal agencies for approval in 2008 after gaining Federal approval of its coastal zone management plan in 2002. The Federal agencies provided public notice of and invited public comment on their proposal to approve, with conditions, the Indiana program (72 FR 62444). The Federal agencies approved the program

dated January 15, 2008, subject to the conditions specified therein. The Federal agencies now propose to find, and invite public comment on the proposed findings, that Indiana has satisfied the conditions associated with the earlier approval of its coastal nonpoint program.

The proposed findings document for Indiana's program is available at [www.regulations.gov](http://www.regulations.gov) (search for NOAA-NOS-2022-0018) and information on the Coastal Nonpoint Program in general is available on the NOAA website at [coast.noaa.gov/czm/pollutioncontrol/](http://coast.noaa.gov/czm/pollutioncontrol/).
