

required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before January 29, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1255.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 46,291 respondents; 1,705 responses.

Estimated Time per Response: .083 hours (5 minutes).

Frequency of Response: Monthly and on-going reporting requirements.

Obligation to Respond: Required to obtain or retain benefit. The statutory

authority for the information collection requirements is found at section 201(b) of the Communications Act of 1934, as amended, 47 U.S.C. 201(b), and section 222, 47 U.S.C. 222. The Commission's implementing rules are codified at 47 CFR 64.1600-01.

Total Annual Burden: 142 hours.

Total Annual Cost: No cost.

Needs and Uses: The Commission amended rules requiring that carriers honor privacy requests to state that § 64.1601(b) of the Commission's rules shall not apply when calling party number (CPN) delivery is made in connection with a threatening call. Upon report of such a threatening call by law enforcement on behalf of the threatened party, the carrier will provide any CPN of the calling party to law enforcement and, as directed by law enforcement, to security personnel for the called party for the purpose of identifying the party responsible for the threatening call. Carriers now have a recordkeeping requirement in order to quickly provide law enforcement with information relating to threatening calls.

The Commission also amended rules to allow non-public emergency services to receive the CPN of all incoming calls from blocked numbers requesting assistance. The Commission believes amending its rules to allow non-public emergency services access to blocked Caller ID promotes the public interest by ensuring timely provision of emergency services without undermining any countervailing privacy interests. Carriers now have a recordkeeping requirement in order to provide emergency service providers with the information they need to assist callers.

Final Approval Under OMB Delegated Authority of the Extension for Three Years, With Revision, of the Following Information Collection

Collection title: Survey of Household Economics and Decisionmaking.

Collection identifier: FR 3077.

OMB control number: 7100-0374.

Effective Date: November 30, 2023.

General description of collection: The Survey of Household Economics and Decisionmaking (SHED) is an ad hoc voluntary survey covering topics such as individuals' overall financial well-being, employment experiences, income and ability to pay bills, economic preparedness, banking and access to credit, housing and living arrangement decisions, education and human capital, student loans, and retirement planning. The overall content of the SHED depends on changing economic, regulatory, or legislative developments as well as changes in the financial services industry. The Board uses the SHED to monitor usage of emerging financial products and understand how macroeconomic conditions are affecting households.

Frequency: Annually.

Respondents: Non-institutionalized individuals who are 18 years of age and older.

Total estimated number of respondents: 20,500.

Total estimated change in burden: 495.

Total estimated annual burden hours: 8,200.¹

Current actions: On August 18, 2023, the Board published a notice in the **Federal Register** (88 FR 56626) requesting public comment for 60 days on the extension, with revision, of the FR 3077. The Board proposed to revise the FR 3077 by removing the qualitative ad-hoc surveys, effective November 30, 2023 (however, the annual SHED may still include qualitative components). This revision is to reduce duplication across information collections.

The Board also proposed adding two minutes to the quantitative survey time per response and slightly reducing the potential number of respondents, also effective November 30, 2023. The increase in survey length reflects two adjustments. First, it is intended to provide additional flexibility for new topics related to financial well-being that are covered in the survey. For example, in recent years the survey has included questions on inflation, cryptocurrency, and buy now pay later products which are valuable for understanding financial well-being, and this additional minute will allow the Board to cover these and other emerging issues more thoroughly. Second, because the burden is calculated for all contacted respondents, and response rates have increased in recent years, the computed time per respondent has increased. The slight reduction in potential respondents similarly reflects that the final stage response rate for the survey has exceeded expectations in recent years, thereby requiring fewer contacted respondents.

The comment period for this notice expired on October 17, 2023. The Board did not receive any comments. The revisions will be implemented as proposed.
