SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has granted the request of Carbon Free Power Project, LLC (CFPP), and NuScale Power, LLC (NuScale), dated November 10, 2023, to withdraw a limited work authorization (LWA) application and an associated exemption request which had sought to conduct certain early construction activities at the CFPP site at the Idaho National Laboratory, near Idaho Falls, Idaho.

FOR FURTHER INFORMATION CONTACT:

Omid Tabatabai, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-6616; email: Omid.Tabatabai@nrc.gov.

SUPPLEMENTARY INFORMATION: On July 31, 2023, CFPP and NuScale submitted an LWA application and an exemption request, respectively, to obtain the NRC's approval to conduct certain early construction activities prior to their submittal of an application for and receipt of a combined license to construct and operate a 6-module nuclear power plant of NuScale's US460 design at the Idaho National Laboratory (ADAMS Package Accession No. ML23212A007 and ADAMS Accession No. ML23212A003).

On September 6, 2023, upon acceptance and docketing of the LWA application, the NRC issued a **Federal Register** notice, "Notice of Acceptance for Docketing; Request for Comment," (88 FR 62408; September 11, 2023), to request comments from members of the public on the LWA application. On October 3, 2023, the NRC issued a further **Federal Register** notice, "Notice of Hearing; Opportunity to Request a Hearing and Petition for Leave to Intervene; Order Imposing Procedures," (88 FR 68167), which announced, in

part, that a hearing will be held and providing an opportunity for members of the public to request a hearing and petition for leave to intervene on the LWA application by December 4, 2023.

In a letter dated November 10, 2023, CFPP and NuScale, in accordance with section 2.107 of title 10 of the *Code of Federal Regulations*, requested termination of NRC's consideration of and the withdrawal of the LWA application and exemption request (ADAMS Accession No. ML23317A110). Additionally, NuScale requested to withdraw topical reports associated with the CFPP combined license application that had been submitted to the NRC for review. On November 16, 2023, NuScale submitted a follow-up letter requesting that the NRC staff suspend its review of an associated white paper and that the NRC staff provide the readiness assessment closure letter with a summary of the NRC staff's observations and feedback (ADAMS Accession No. ML23320A094).

On November 17, 2023, the NRC staff informed NuScale and CFPP that the NRC staff has terminated its review of the LWA application and other referenced submittals associated with CFPP's combined license application (ADAMS Accession No. ML23319A056). In view of the CFPP's termination, the NRC has granted the applicant's request to withdraw its LWA application, exemption request, topical reports, and white paper referenced in the NuScale and CFPP's November 10 and 16 letters, and has terminated its review of those submittals. Accordingly, the NRC is canceling the **Federal Register** notice of hearing and opportunity to request a hearing and petition for leave to intervene, published at 88 FR 68167, due to the withdrawal of the LWA application. No adjudicatory proceedings will be held by the NRC with respect to the withdrawn LWA application.

Dated: November 28, 2023.
