Title: FTA Program Evaluation for Processes and Outcomes

OMB Number: 2132—New Information Request

Background

The Foundations for Evidence-Based Policymaking Act of 2018 (Pub. L. 115-435) requires Federal agencies to develop evidence to support policymaking. Federal agencies, including FTA, must systematically collect and analyze data to assess the effectiveness and efficiency of their programs through evaluation. According to the Act, "an evaluation is an assessment, using systematic data collection and analysis, of one or more programs, policies, and/or organizations intended to assess their effectiveness and efficiency." Evidence resulting from evaluations and other evidence-building activities should be used to inform leaders about whether Federal programs and activities are achieving their intended results and contribute to improved use of data and evidence-

based decision making. To effectively evaluate programs, FTA needs to collect data directly from program participants, such as State departments of transportation (DOTs), metropolitan planning organizations (MPOs), transit authorities, State and local government units, and Indian tribes, to understand their experiences and benefits of program participation. Participants may be engaged through surveys or focus groups to collect relevant data. The Office of Management and Budget (OMB) and the Government Accountability Office (GAO) strongly advocate for stakeholder engagement in evaluation design. See: OMB Memorandum M-19-23, available at: <https://www.whitehouse.gov/wp-content/uploads/2019/07/M-19-23.pdf> and OMB Memorandum M-21-27, available at: <https://www.whitehouse.gov/wp-content/uploads/2021/06/M-21-27.pdf>. To ensure alignment with ongoing efforts, this information request seeks to support FTA in meeting the Evidence Act's requirements and contribute to FTA's broader framework of evidence-based decision-making. This is a voluntary data and information collection, with no participation requirement to receive Federal benefits. The survey portion of this information collection differs from other similar efforts, such as the FTA Stakeholder Survey which targets grant recipients and inquires on customer satisfaction with a range of FTA services and knowledge of rulemaking. Current and previous information collections for grant applicants and recipients to provide routine program planning and metrics on plans and deliverables are separate from this collection. Rather, this information collection will allow FTA decision makers to understand challenges and barriers to program implementation, identify opportunities for improving program communications and outreach, and make stronger linkages between program progress and outcomes.

SUPPLEMENTARY INFORMATION: On September 5, 2023, NHTSA issued an Initial Decision That Certain Frontal Driver and Passenger Air Bag Inflators Manufactured by ARC Automotive Inc. and Delphi Automotive Systems LLC Contain a Safety Defect pursuant to 49 U.S.C. 30118(a) and 49 CFR 554.10. 88 FR 62140 (Sept. 8, 2023). More specifically, NHTSA initially determined that certain air bag inflators manufactured by ARC Automotive Inc. (ARC) and Delphi Automotive Systems LLC (Delphi) through January 2018 may rupture when the vehicle's air bag is commanded to deploy, causing metal debris to be forcefully ejected into the passenger compartment of the vehicle, and that these rupturing air bag inflators pose an unreasonable risk of serious injury or death to vehicle occupants. In accordance with 49 U.S.C. 30118(b)(1) and 49 CFR 554.10(c)(4), the Initial Decision provided manufacturers and any interested person an opportunity to present information, views, and arguments in response to the Initial Decision at a public meeting and/or by submitting written information to the Agency. The Initial Decision scheduled the public meeting for October 5, 2023 and set a deadline for written submissions of October 20, 2023. NHTSA previously extended the written submission deadline to December 4, 2023. 88 FR 73069.
