[Docket No. FDA–2018–D–3462]

Verification Systems Under the Drug Supply Chain Security Act for Certain Prescription Drugs; Guidance for Industry; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a final guidance for industry entitled “Verification Systems Under the Drug Supply Chain Security Act for Certain Prescription Drugs.” The guidance addresses the verification systems that manufacturers, repackagers, wholesale distributors, and dispensers must have in place to comply with the Federal Food, Drug, and Cosmetic Act (FD&C Act), as amended by the Drug Supply Chain Security Act (DSCSA). Specifically, the guidance covers the statutory verification systems requirements that include the quarantine and investigation of a product determined to be suspect and the quarantine and disposition of a product determined to be illegitimate. The guidance also addresses the statutory requirement for notification to the Agency of a product that has been cleared by a manufacturer, repackager, wholesale distributor, or dispenser (also referred to as “trading partners”) after a suspect product investigation because it is determined that the product is not an illegitimate product. Finally, the guidance addresses the statutory requirement for responding to requests for verification and processing saleable returns. The guidance finalizes the revised draft guidance “Verification Systems Under the Drug Supply Chain Security Act for Certain Prescription Drugs,” issued on March 10, 2022.

DATES: The announcement of the guidance is published in the Federal Register on December 7, 2023.

ADDRESSES: You may submit either electronic or written comments on Agency guidances at any time as follows:

Electronic Submissions
Submit electronic comments in the following way:
• Federal eRulemaking Portal: https://www.regulations.gov. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to https://www.regulations.gov will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else’s Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on https://www.regulations.gov.
• If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission in the manner detailed (see “Written/Paper Submissions” and “Instructions”).

Changes from the revised draft to the final guidance include: (1) clarifying that dispensers need not provide transaction information for saleable return product; (2) clarifying that “verification” as defined in section 581 of the FD&C Act (21 U.S.C. 360eee) involves confirming that the product identifier affixed or imprinted upon a package or homogeneous case corresponds to the Standardized Numerical Identifier or lot number and expiration date assigned to the product by the manufacturer or repackager by more closely mirroring the statutory language; (3) further clarifying when the discussion is about the verification systems requirements in section 582 of the FD&C Act and when it is about the requirement to verify the product identifier; (4) clarifying FDA’s understanding about the statutory requirement that manufacturers and repackagers respond to requests for verification within 24 hours or within other such reasonable time as determined by the Secretary of Health and Human Services; (5) clarifying that when a trading partner does not receive a timely response to a verification request, the product that is the subject of the request need not automatically be classified as suspect; and (6) clarifying that certain system attributes are suggested as best practices even though they are not specifically required under the DSCSA. In addition, editorial changes were made to improve clarity.

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on “Verification Systems Under the Drug Supply Chain Security Act for Certain Prescription Drugs.” It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

### II. Paperwork Reduction Act

While this guidance contains no collection of information, it does refer to previously approved FDA collections of information. The previously approved collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3521). The collections of information pertaining to implementation of the Drug Supply Chain Security Act are approved in OMB control no. 0910–0806.
